

STRONGLY OPPOSE R148-22

THE FACT THAT YOU ARE STILL WRITING THIS GARBAGE IS ALREADY WORTHY OF NO FUTURE VOTES FOR YOU!

Hello all responsible for the future of our State of Nevada and our Country.

I strongly OPPOSE R148-22 due to constant Government overreach into our human medical rights and decisions. This is horrible Marxist behavior.

These regulations being slipped in set the stage for walking you, our children and grandchildren into the future gas chamber.

Have you not read the most recent medical research? Masks did nothing but spread bacteria. The shots are experimental, not tested in decades, completely failed and caused many horrible conditions, children have a 1 in 36 chance of autism now???? Hello

This is not meant to be funny. Our forefathers gave their lives and fortunes to ensure a FREE Country based on the escape from Government overreach.

These regulations are marching back in time, coinciding with the WHO wanting to have us sign our human sovereignty over to completely controlling our NEXT PANDEMIC that they are already prepared for?? Forced vaccines on your family, forced masking, forced quarantine. This is insane freedom to control everyone's rights to their own health, their children's health. When will they take your children? Quarantine them?

Basically, these regulations and people writing them are ruining this Country and we WILL NOT FORGET.

Here is a good regulation, if you are afraid, you take your vaccines and quarantine and wear masks. If your treatments work, then you should not be trying to control the rest of the human population, right?

These regulations are driven by fear. The answer is NOOOO
