Subject: Comment for the 1-23-2024 TRPA Legislative Oversight Committee. When was the last The Bi-State Consultation on Transportation meeting ?

Please accept and distribute this comment to the TRPA Oversight Committee members and appropriate staff for the 1-23-2024 TRPA Oversight Committee.

I'd like to thank all the members for their participation on this committee to ensure any and all funding requests or endorsements are scrutinized.

I strongly urge the Bi-State Consultation on Transportation meet again before any endorsements are forwarded by this committee.

Much has changed since their last meeting and a review of their past recommendations and up to date funding strategies require their attention with possible guidance from this committee.

As stated in the email below, reports are not necessarily drafted. I believe any meeting by the Bi-State Consultation group, when convened, should be mandatory allowing the public and others agencies have access to their work.

Please review information on the Tahoe Regional Planning Agency website, link provided below. And link to 2019 final report from the Bi-State committee

Thank you, Ellie Waller Douglas County Nevada resident.

Subject: RE: Can you confirm the last meeting The Bi-State Consultation on Transportation met?

Ellie:

Here are the responses Michelle and I put together to answer your two questions:

1. That is the last report from the bi-state consultation. Additional information is available on the TRPA Transportation Program page that may be useful. [Sustainable Transportation Funding Initiative | Tahoe Regional Planning Agency — TRPA](#). The information on this page is more recent than that in the 2019 report, although it includes some older references.
2. The bi-state consultations do not have seated members. They are called by representatives of the two states on an ad hoc basis for advice to be given and views to be exchanged about a specific topic, participants are selected depending on the topic, and participants are not necessarily the same each time they meet. There may or may not be any sort of report issued from a consultation.

Best,

John

Subject: Can you confirm the last meeting The Bi-State Consultation on Transportation met?

Hi John and Michelle,

Can you tell me is the last report provided by the Bi-State Consultation for Transportation group? If a newer version is available please send me the link.

And have new members been announced? Who are the last seated members?

Thank you for any information you can provide. ~Ellie Waller
