# Reporting of Graduation Rates

- **How are graduation rates calculated?**
  - Under ESSA (section 1111(h)(1)(C)(iii)(II)), SEA and LEA (local education agencies or school districts and charter schools) must calculate and report on its annual report card a four year adjusted cohort graduation rate (ACGR), disaggregated by subgroups.
  - The four-year ACGR is the number of students who graduate from high school in four years with a regular high school diploma, plus all students with the most significant cognitive disabilities who are assessed using an alternate assessment aligned with alternate academic achievement standards and who graduate with a State-defined alternate diploma, divided by the number of students who form the adjusted cohort for the graduating class.
- **What is the difference between a cohort and a graduating class?**
  - Cohort is the student population based on the number of students who enter grade 9 for the first time adjusted by adding into any student who transfers in later during grade 9 or during the next three years and subtracting any student who transfers out, emigrates to another country, or dies during that same period.
  - Graduating class means a group of pupils who, as of the date on which they begin high school, are scheduled to graduate from high school at the end of a specified school year.
- **Where does the data come from?**
  - Data is provided by the LEAs.
- **What is the NDE timeline for data collection and reporting?**
  - 09/27/2023 Data validation started.
  - 10/30/2023 Data validation ended.
  - 01/2024 Graduation rates are released to public.

# Nevada Non-Diploma Credentials

- **Adjusted Diploma (NAC 389.015):** a diploma which evidences the graduation from high school of a pupil with a disability after the pupil has met special requirements or adjusted standards
- **High School Equivalency Certificate:** a certificate which is given to adults who pass the high school equivalency tests. The certificate is widely recognized as the equivalent of a high school diploma but is not counted as a graduate in the ACGR.

## Nevada Adult Diploma Exclusion from ACGR

According to review by the United States Department of Education in 2021, NDE was asked to exclude Adult Diplomas as graduates in the ACGR process since Adult Diplomas are not being awarded to the preponderance of students (less than 1%) in the State. According to this business rule change per USDOE review, Adult Diplomas cannot be included in the ACGR calculation as graduates. Adult Diplomas will continue to be counted as a Nevada diploma which evidences the graduation from high school of a person who has met the requirements of graduation as defined in NAC 390.018.

# Students with Individualized Education Plans (IEPs)

## Graduation Rate Trends

**Student Group Definition:** A student is reported in a group if they are identified as a member of that student group at any time in their high school career.
