Re: Opposition to R068-24, Changes to CCW Regulation

Dear Nevada Interim Legislative Commission,

The Nevada Firearms Coalition and its PAC strongly opposes R068-24 on behalf of the law-abiding gun owners of the Silver State.

Several parts of the proposed regulation draw our ire, specifically

- Page 8, question 3., asking about VOLUNTARY commitments to mental health facility; also P. 13, under eligibility for concealed firearm permit (CFP).

There can be many reasons why individuals may seek voluntary commitment to mental health facilities, which may or may not bear on suitability to hold a concealed firearm permit. Current Nevada law specifies INVOLUNTARY commitments to mental health facilities as a disqualifier for Second Amendment rights. Extending that to VOLUNTARY commitments will require specific legislation, which to our knowledge has not occurred. It also is contrary to the U. S. Supreme Courts *Bruen* decision, failing as it does the Court's test for constitutionality of gun laws in that there is no historical analog from either the Founding period or the time of the enactment of the 14th Amendment to the U. S. Constitution. It also infringes on the right to keep and bear arms found in both the federal and Nevada constitutions.

- Page 11, under General Information, language limiting CFP holders to only two (2) specific pistols.

That change will require specific legislation to effect, as current law allows CFP holders to carry any pistols. Such a limit will also constitute an infringement on the right to keep and bear arms, enshrined in both the federal and Nevada constitutions.

We respectfully and strongly urge the deletion of these elements from the proposed regulation.

Sincerely yours,

Duncan Rand Mackie
President, NVFAC PAC

CC: Nevada Legislative Commission
