Election Official Recommendations

Chapter 1	Submission Date	Recommended Change	Page	By	Date Complete	Made	Not Made	Who	Notes
	11/14/2025	Expand on Clerk/Registrar responsibilities (appears dedicated to SOS)		Amy Burgans					
	12/2/2025	Change County Clerk to County Clerk/Registrar of Voters		Noemi Esparza	12/3/2025				
Chapter 2	Submission Date	Recommended Change	Page	By	Date Complete	Made	Not Made	Who	Notes
	11/14/2025	Should this talk about how we inactivate prior to cancelling? Following “safe harbor” procedures mandated by the National Voter Registration Act (NVRA), Counties send Address Confirmation notices to voters who have had ballots or election mail returned undeliverable or been identified with a different address in one of the validation databases. The NVRA requires officials to wait two federal election cycles before canceling a registration if the voter did not respond to the Address Confirmation Notice and did not vote in person in an election during that time.	17	Amy Burgans		X		HH	Already done
	11/14/2025	The following text at the bottom of the page is in a different format/font. Counties must receive and process ERIC reports as follows (except during the 90-day “blackout period” required by the National Voter Registration Act (NVRA), see below): Just a note - it seems that certain parts of the document throughout use Clerk/Registrar of Voters and other areas just use Clerk. I know it states in chapter 1 that they are interchangeable, but it seems that we should streamline this in the document.	19	Amy Burgans	12/1/2025	X		HH	Already done
Chapter 3	Submission Date	Recommended Change	Page	By	Date Complete	Made	Not Made	Who	Notes
	11/14/2025	This lists the partisan offices but the list is not complete. Other county offices such as clerk, DA, assessor, recorder, etc are also partisan. It either needs to list all of them or say "such as". Partisan Offices Currently, Nevada uses a closed partisan primary for primary elections for federal, state, and county partisan offices, Congress, Governor, Lieutenant Governor, Attorney General, Secretary of State, Treasurer, Controller, State Legislators, County Commissioners. Not all political parties hold a primary election. Under state law, a political party must have at least 10 percent of registered voters identify as members of that party to be able to hold a nominating primary	9	Amy Burgans	12/1/2025	X		HH	
	11/14/2025	: same as above but nonpartisan. For example, the Sheriff is non-partisan, however, they have to be on the primary ballot even if they are alone and receive one vote (kind of their own little caveat.) Nonpartisan Offices All voters may vote in the primary elections for nonpartisan officers, judges, mayors, city council, school boards, and special districts. All candidates for nonpartisan offices must file a certificate of candidacy to be placed on the primary election ballot.	10	Amy Burgans	12/1/2025	X		HH	Already done
	11/14/2025	Precincts - It states that these are submitted to the BOCC but the law does not say that: The smallest voting area in a political subdivision is called a precinct. Election precincts are linked to the number of registered voters in a specific geography. A precinct can have no more than 5,000. If precinct populations exceed that number, the clerk/registrar is responsible for creating new precincts within their jurisdiction. Precinct boundaries are submitted to the local Board of County Commissioners, the Secretary of States Office and the Legislative Counsel Bureau.	10	Amy Burgans	12/1/2025	X		HH	
	11/14/2025	Maybe a topic of concern for me as I am not sure I was aware of the fact the legislature removed some of the Board of Regents. Do we have new maps to show how that affects our Counties and therefore my precincts?	13	Amy Burgans	12/1/2025		X	HH	Email Leg change on Board of Regents to Amy.
	11/14/2025	Tips for voting by mail. Can we say "mark the ballot clearly in blue or black ink only" and "do not sign or initial the actual ballot" and that signing the actual ballot invalidates the ballot as it is no longer a secret ballot? A lot of people mark one option, then cross it out and initial it to choose another option. ☒ Mark the ballot clearly. ☒ Do not sign the actual ballot.	15	Amy Burgans	12/1/2025	X		HH	
	11/14/2025	Returning a Voted Ballot Via Drop Box - can we add something about ensuring your return the mail ballot to a drop box WITHIN the jurisdiction in which you are eligible to vote?	16	Amy Burgans	12/1/2025	X		HH	Already done
	11/14/2025	Perhaps that the option to "opt in" to receiving a mail ballot needs to also state that the 60 day timeframe applies the same as opting out? The Mail Ballot Preference form can also be used to request delivery of mail ballots after opting out.	16	Amy Burgans	12/1/2025	X		HH	Already done
	11/14/2025	This section states the previous ballot sent is cancelled, however, we count the first ballot that is returned, even if it is the previously cancelled ballot. Then we cancel the new ballot that was sent.It should be clear that they can only vote one of the ballots, that they cannot return two under any circumstance. If a voter updates their mailing address after mail ballots have been sent but not within 14 days of the election, the county or city clerk must cancel the first mail ballot and, on or before the 13th day before the election, send the voter a second mail ballot to the updated mailing address. If a voter updates their residential address within the same county that changes their voting precinct after mail ballots have been sent but not within 14 days of the election, the county or city clerk must cancel the first mail ballot and, on or before the 13th day before the election, send the voter a second mail ballot.	17	Amy Burgans	12/1/2025	X		HH	Already done
	11/14/2025	This may need clarity that they can vote at any vote center WITHIN their county? There is still confusion and we have people come from other areas to our vote centers to vote from Carson and Reno. Nevada polling places are Vote Centers where any registered voter in the county can cast a ballot, regardless of their home precinct. Residents of the county may also register for the first time or update an existing registration at any vote center in the county on the day they vote in person.	17	Amy Burgans	12/1/2025	X		HH	Already done

Election Official Recommendations							
11/14/2025	Clarity needed. The signer needs to understand that not only can they not have previously voted, but that the ballot is no longer valid and it is a felony to send in the mail ballot after they vote in person. Also, it says that if they bring their mail ballot, they MUST surrender it. This is not true. Some people fill out their ballot and bring it in to use as a cheat sheet. We allow this and let them sign the affirmation instead of surrendering it. Also...the state has never provided cancelled stamps to us. We provide them to each polling location. If the voter brings their mail ballot, they must surrender it to the poll worker.22 The poll worker receiving the surrendered mail ballot and envelope must mark it CANCELLED on all ballot faces (front and back of all pages) using the standard stamp provided by the state. The cancelled ballot and envelope are then deposited into the box/bag/bin designated for that purpose. If practicable, the mail ballot should be stamped “cancelled” within view of the voter.	18	Amy Burgans	12/1/2025	X	HH	Already done
11/14/2025	This states that ballots must be delivered by the 40th day. We mail them, but cannot guarantee delivery. For voters who reside outside the State, ballots must be delivered not later than 40 days before the election.	23	Amy Burgans	12/1/2025	X	HH	
11/14/2025	The mail ballot is not numbered. I am not sure what this is trying to say. Before sending a mail ballot, the local election official is responsible for recording the date the mail ballot is issued, name and other information applicable to the voter, the mail ballot number, and any additional administrative notes deemed necessary.	23	Amy Burgans	12/1/2025	X	HH	
11/14/2025	This may need clean up for the in state as the law changed during the last legislative session. Mail Ballots The county clerk shall distribute mail ballots to active registered voters: Outside the State, not later than 45 days before the election. Within the State, not later than 20 days before an election.	27	Amy Burgans	12/1/2025	X	HH	
11/25/2025	When did this change? Voters are NEVER allowed to use their cell phone at the vote centers as we would have no idea why they have them out. When a voter has a picture of their sample ballot filled out on their phone, we make them mark a hard copy of the sample ballot and use that. Cell Phone Usage: Election workers and voters alike may not use cell phones to make phone calls, take pictures or videos, or record any activity inside a polling place. However, election workers may use a cell phone to assist in communicating with a voter. Voters may use a cell phone in a voting booth to view their sample ballot or to access interpretive services to assist in casting a vote. Interpretive services may include American Sign Language. Signs should be posted stating that electronic devices may only be used to view sample ballots.	36	Amy Burgans	12/1/2025	X	HH	Re-worded so it reads accurately
11/25/2025	It states that no paperwork is required of an observer, but that is not true. We have a form that they must fill out and sign to get a nametag stating they are an observer. We may also want to note that vote centers have a limited number of spots reserved for observers and that if it is full, they must wait until there is a spot available before they can observe. They cannot just loiter in the area. The public may observe the voting process.64 Any person may observe the conduct of voting at polling locations during both early voting and on Election Day. No specific credentials or paperwork is required of an observer. Observers may ask Election Workers questions if it does not impede the processing of voters.	37	Amy Burgans	12/1/2025	X	HH	
11/25/2025	There is a conflict in this information. On page 36, it states that Observers "may not...list to any conversations between an election board officer or between a voter and an election board officer: but on page 38, it states that the observer area "should be close enough that observers can hear your interactions with voters and other election workers". It also states on page 38 that the observer area must be clearly marked; however, I don't believe that is the law. We do not have our marked as such.	36 & 38	Amy Burgans	12/1/2025	X	HH	Already done
11/25/2025	This sentence does not make sense. Perhaps it can be rewritten?	41	Amy Burgans				
11/25/2025	I am not a fan of how this is written. The County Board of Commissioners have NO say in what tabulation methods we use. They do, however, hold the purse strings of giving us the funding needed to buy equipment. But ultimately, the Clerk gets to decide what system to use. Determining Voter Intent: Votes in Nevada are cast either electronically during early voting or on Election Day, or on a paper ballot. Votes cast on paper ballots are submitted by-mail, drop box, or in-person during any time until 7pm Election Day. Local election officials, in consultation with the County Board of Commissioners, may decide which tabulation methods to use in their jurisdiction.	57	Amy Burgans	12/1/2025	X	HH	
11/25/2025	I think you are missing the work "than". Keep in mind a ballot review can take place for issues other voter intent, which this section does not address.	58	Amy Burgans	12/1/2025	X	HH	Already done
11/25/2025	where it shows what CAN happen to correct a mistake, perhaps we can add that you should NOT initial next to the crossed-out section, as it becomes an identifying mark and the ballot can become invalid. This happens a LOT!	60	Amy Burgans				
11/25/2025	Should this say "Any marks made WITHIN the designated space..."?	61	Amy Burgans	12/1/2025	X	HH	Any marks made writing the designated space should be counted as a valid vote as long as the voter did not select

Election Official Recommendations

11/25/2025	The handwritten note on page 66 clearly states identifying information such as email, address, and phone number. However, on page 67, the information is just a general statement to "my love" and is not identifiable. Perhaps these screenshots are swapped? Also, I would go further with the note to "my love," saying this is not a good example. It clearly states that the person "corrected" the voter's intent and then told them to sign the envelope and return it. I believe this may be construed as voter coercion , as they go on to imply that they will pay the rent if the person votes the corrected ballot. This may need further discussion.	66 & 67	Amy Burgans	12/1/2025	X	HH	already done

	11/7/2025	Cell phones security risk, restrictions election officials		Oscar Williams					Cannot change language related to NRS, or create new NRS/NAC
	11/17/2025	Create a list of approved voter verification systems, including poll pads, automated signature verification, signature curing, and data transmission. a) The capture, storage, and retrieval of a voter's signature image and voter registration data is a critical part of validating the identity of voters when checking them in at the polls, or processing their mail ballot or eBallot, or when curing a mail ballot missing signature. b) A voter's ability to update or correct their voter registration information, including change of party, address, name, and signature is a critical part of maintaining accurate registration information as required by HAVA and various state statutes. Applicable NRS: a) A critical election system must be tested and approved for use by the Secretary of State, along with approved auditing of the system pursuant to NRS 293.247, NRS 293.250, and NRS 293.2696, and numerous other related statutes and codes. b) The county must test and audit the equipment pursuant to NRS 293.269937, NAC 293.336, NAC 293.338, and NAC 293.339. c) And voter sensitive data must be protected when being transmitted across the county's network and over the Internet when connecting with the state's voter registration system(s) by numerous statutes and codes, including NRS 603A.040 and NRS 293.906 to 293.920 inclusive. Reason for correction: 1) Public trust of voter verification systems. 2) Clarification to the city/counties on approved systems that verify voters. 3)Application of statutes related to signature-voter ID equipment and the transmission of Personally Identifiable Information (PII).	3	Oscar Williams	11/18/2025		X	HH	In Chapter 3
