I am writing about the Commission meeting on Dec. 17, 1 pm regarding proposed regulation R014-25.(NAC 503)

This regulation came forward despite many opponents asking that the coyote killing contests be halted. This regulation is built on the wishes of some hunters but does not consider that there is no scientific basis for allowing the hunts to occur. It's not based on overpopulation nor habitat outcomes of coyotes and their prey. It also doesn't consider the in humane actions of the killing contests. Please do not approve the proposed regulation.

Sincerely,

Chris Giunchigliani
