Re: Support for Proposed Regulations regarding SB189 – Licensure of Genetic Counselors

LCB File No. R055-25

Legislative Commission meeting - February 26, 2026

Dear Chair Sandra Jauregui and Members of the Nevada Legislative Commission,

Thank you for the opportunity to provide this written statement of support regarding the proposed regulations implementing Senate Bill 189 for the licensure of genetic counselors in Nevada, as outlined in LCB File No. R055-25, scheduled for consideration at the Legislative Commission meeting on February 26, 2026.

After reviewing the most recent proposed regulations, our association writes to express **strong support for adoption of the provisions as written**. We believe the proposed regulations promote public protection while also establishing a practical licensure pathway for qualified genetic counselors seeking to practice in Nevada.

Thank you for the time, consideration, and continued efforts in implementing and regulating Senate Bill 189. We are grateful for collaboration and dedication throughout this process and look forward to continued partnership as Nevada establishes a balanced and practical licensure system that supports both public health and a growing genetic counseling workforce.

With gratitude,

Genetic Counselors Association of Nevada
