Subject: Testimony re: Agenda Item IV NV OSHA (R110-25)
Date: Friday, June 26, 2026 9:41:11 AM

You don't often get email from tbird15345@aol.com. [Learn why this is important](#)

Having worked over 33 years in a hazardous job, served on safety committees and several years as a work site inspector, we should strengthen OSHA rules to prevent accidents and protect our workers from situations where Nevadans could be harmed. If a hazardous situation could be prevented and is not, then fines should be doubled in my opinion. Workers should be protected at all costs. Having had to use the industrial system I know personally how tiring, demoralizing and drawn out it can be for us hard working Nevadans.

Please continue to keep and make Nevada a protected work zone for all workers.
