June 29, 2026

I am in correspondence with you to inform you that the BLET Nevada State legislative board is against R110-25. This will incentivize employers to violate OSHA standards. (price of doing business view)

I am in the Railroad industry were I personally see the negative effects of violations being negotiated down to a lesser amount.

If this is adopted it will affect our Nevada work force and will weaken OSHA'S ability to keep our workers safe.

Regards,

Emidio Gonzalez Jr.
