## Fruits & Veggies

### Farmers Markets

Living in the desert you may think there aren't many places to get fresh grown produce. However, there are several farmers markets around the Valley providing residents with many opportunities to purchase locally/regionally grown produce.

Local food tastes better and is fresher than food that has been shipped long distances. Buying locally helps strengthen our community's economy and gives you the opportunity to get to know the farmers who grow your food. Knowing where your food comes from and how it's grown enables you to feel better about the food you put on your table.

### Farmers Markets Accepting EBT Debit and Credit

**Now offering SNAP recipients \$2 free for every \$5 spent at the market.**
