

Part of the Western
Region Public Health
Training Center

WRPHTC includes Arizona, California, Hawaii,
Nevada, and the Pacific Islands

Located in the University
Of Nevada, Reno

Who We Are

The Nevada Public Health Training Center (NVPHTC) strives to develop and implement training sessions which endeavor to increase the competencies of public health professionals in Nevada with a focus on rural areas.

What We Do

We offer a variety of interactive in-person or online training sessions to current and aspiring public health professionals. Scholarships are available to reduce or eliminate the cost of attendance. Please contact us for further details.

Our mission is to improve
the competencies of aspiring
and current public health
professionals by:

researching,
designing,
implementing, and
evaluating training
programs which
target prioritized
educational and skill-
based needs in the
public health
workforce.

engaging with traditional and
non-traditional public health
partners throughout the state
to conduct both online and
offline trainings in the key
target areas of eliminating
health disparities, promoting
nutrition and physical activity,
and the effective use of
behavioral health
interventions.

The NVPHTC collaborates
with the University of
Nevada School of
Medicine's Office of
Statewide Initiatives.
