

Dear A Scott Noble CEO Noble Royalties Inc (NRI), President, The Nevada State House, The Nevada State Senate, and Governor Brian Sandoval,

We are pleased to present you with this petition affirming this statement:

"Noble Mining has stated that they intend to start fracking in Nevada about 400 miles northeast of the Las Vegas Valley.

Fracking will not only scar the land permanently, very few permanent jobs will be created at the expense of the air, soil and water quality for millions of southern and possibly, northern Nevadans. Please help us stop mining and oil/natural gas corporations from destroying our state with Fracking. We have abundant wind and solar energy opportunities in Nevada and should concentrate on those methods of supplying energy to the western states. "Once you FRACK, you can NEVER go BACK!""

Attached is a list of individuals who have added their names to this petition, as well as additional comments written by the petition signers themselves.

Sincerely,
Janice Keiserman
