Subject: Testimony for Hearing.. Please read this into the record on my behalf and on behalf of my child.

Please confirm you got this, are able to read it into the record at my request as a Nevada registered voter, constituent and tax payer, and let the committee know I will be sending it hard copy to be entered into the physical and official record as being read by the secretary upon my request. Any of the others I am sending this to may also read it on my behalf.

Thank you.

If you have any questions you can call me on my cell phone or I will read this into the record telephonically if you cannot.

Just tell me when to call or call me when you are ready to hear my testimony.

EXHIBIT FF - EDUCATION Document consists of 2 pages. Entire exhibit provided. Meeting Date: 03-26-14

**Testimony of Dawn Alexandra Profant
Registered Voter**

820 Oriole Way Incline Village NV 89451

(A hard paper copy will follow via US Postal Service to committee posted today March 26 2014)

To the Legislative Committee on Education

1. I want you to abolish Common Core from Nevada's education standards.
2. I want Privacy and People to be the priority over convenient ignorance via computers.
3. I want my child to learn from human beings and how to interact with human beings.
4. I want computers to be used only in a library context, for access/research to other institutional libraries.
5. I want testing via computers eliminated from Nevada's education standards.
6. I want "infinite Campus" with its infinite interpolations and interpretations of grading scales to be abolished from our state's grading/tracking/metrics/policies.
7. I want computer and software companies to be at the bottom of any education allocations.
8. I want monies to be allocated to paying human teachers PRESERVED AND PROTECTED as an inherent right to every student in Nevada so that Computers will never threaten Nevada's human educators.
9. I want this committee to realize the funding debacle is a result of over assessments and fraud effecting the real-estate market in Nevada (foreclosure fraud, securitization fraud, identity theft and other means of fraud perpetrated by banks in Nevada.. and nationwide, and Nevada has been the place where these monies are harbored and used and are now the means to an end to abuse us, perpetrate wrongful takings of our land, (TRPA did not do a historic resources survey before permitting all the houses recently built on Lakeshore drive) and now Private Schools such as The Lake Tahoe School, Charter Schools, Internet Cafes etc.. are being used to displace our rights to preserve public access to education and use our public schools buildings and other resources beginning with our children as the impetus to create a laboratory where our children are lab rats for software, hardware, and metadata as a collection beta test site for FOR Profit education models near and dear to recent and New Nevada residents.
This is not the first time Nevadans and manipulating our state's resources has undermined our Native Nevadan principals.

Most houses over ten thousand square feet in Nevada are built with money from ill gotten gains as a result of fraud, and now these folks are testing their next ideas out on us, using our children to do their bidding and justifying it by using the taxes their homes generate as the means to be the bully on the block.

DON'T BUY THIS NEVADA LEGISLATORS YOU ARE TOO SMART!!!!

Thanks for listening.

Dawn Alexandra Profant
