

Steve Gilbert, Program Manager
Medical Marijuana
Nevada Division of Public and Behavioral Health
Department of Health and Human Services

#### **Individual Patient Registry Program**

- The program issues patient registry identification cards to Nevadans who meet the qualifications defined in NRS 453A.050.
- Individuals can apply for the registry and if found eligible, they
  are issued an identification card to show approval for use of
  the Cannabis plant for medicinal purposes.

#### Medical Marijuana Establishment Program

- Medical marijuana establishments include
  - independent testing laboratories
  - cultivation facilities
  - facilities for the production of edible marijuana products or marijuana-infused products
  - medical marijuana dispensaries
- A medical marijuana dispensary is a business that supplies or dispenses marijuana or related supplies and educational materials to holders of valid registry identification cards.
- They will not be open to the public.

#### **Structure**

With the passage of S.B. 374, the Medical Marijuana Program grew to be comprised of two authorized groups.

Medical Marijuana
Cardholders

Medical Marijuana
Establishments
(MME)

## Medical Marijuana Cardholder Program

#### **Statistics**

- Total number of active patient cards: 6,500
- Total number of active caregiver cards: 374
- Total number of active patient cardholders by region:
  - Clark County: 4,728 (73%)
  - Washoe County: 746 (11%)
  - Balance of State: 1,026 (16%)

Includes data through September, 2014

## Medical Marijuana Cardholder Program

## Medical Marijuana Establishment Applications

**Total Number of Applications: 519** 

| Total Applications By Establishment Type |     |  |  |
|--|-----|--|--|
| Dispensary                               | 199 |  |  |
| Cultivation                              | 183 |  |  |
| Production                               | 119 |  |  |
| Laboratory                               | 18  |  |  |

The Division will be issuing provisional licenses to approved establishments in early November, 2014.

#### **Dispensary Totals by County**

|            |              |                       | Noveles of Descriptional |                                |
|------------|--------------|-----------------------|--------------------------|--------------------------------|
|            |              |                       | Number of Provisional    |                                |
|            | Dispensaries | Number of Dispensary  | Licenses Issued by the   |                                |

| Total      | 66           | 199                   | 55                       |                                |

## Medical Marijuana Establishment (MME) Program

#### **Local Government Role**

- Clarify local zoning and licensing requirements for establishments.
- Have authority to supplement the Division's regulations.
- Provide first line of response for law enforcement needs and criminal activity.
- Work with the Division on complaints and investigations, as applicable.

## Medical Marijuana Establishment Program

#### **Unified Roles**

- In a county with a population of 100,000 or more, the Division shall ensure that not more than 25 percent of the total number of dispensaries that may be certified in the county, are located in any one local governmental jurisdiction within the county (per NRS 453A.326).
- The board of county commissioners of the county may increase the percentage if it determines that to do so is necessary to ensure that the more populous areas of the county have access to sufficient distribution of marijuana for medical use (per NRS 453A.326).

# Economic Impacts of Medical Marijuana

#### **Expected Benefits Include:**

- Stimulation of skilled employment opportunities for the industry.
- Reciprocity sales for nonresident medical marijuana patients.
- Increased Nevada state tax generation and related benefits.
- Revenue from applications of Medical Marijuana Establishments.

## Medical Marijuana Establishment Applications

According to NRS, the maximum number of dispensaries allowed in Nevada is population-driven and limited to 66:

**40 in Clark County** 

10 in Washoe County

2 in Carson City

1 each in the other counties

The number of MMEs that are <u>not</u> dispensaries is not limited in statute.

### Reciprocity Sales for Nonresident Medical Marijuana Patients

Under Nevada Revised Statute (NRS) 453A, medical marijuana patients from other States are eligible to purchase their needed medical marijuana in Nevada.

In 2013, California residents comprised 33% of the visitors to Las Vegas\*. California has approximately 77,000 medical marijuana patient cardholders\*\*.

<sup>\*</sup>Las Vegas Visitor Profile Study 2013

<sup>\*\*</sup>cumulative count from CA Dept. of Public Health

## Revenue from Medical Marijuana Establishment Application Revenue

Per S.B. 374, 25% of Excise Tax to DPBH

Based on projected patient cardholders, and limits on amount of medical marijuana that can be purchased, the MME Program has budgeted the following for its share of the total excise tax:

- FY16: \$1,042.975
- FY17 \$1,580,815

## Revenue from Medical Marijuana Establishment Application Fees

#### Revenue generated from MME fees

- Pay back the costs of the Division in carrying out the provisions of NRS 453A.320-370.
- Excess fee revenue is paid to the State Treasurer to be deposited to the credit of the State Distributive School Account in the Nevada General Fund.
