End-of-Course Exams

By Jennifer Dounay Zinth
March 2012

This report provides information on states that require students enrolled in courses that have an end-of-course (EOC) exam to take the EOC.

EOC by the numbers:

Statewide administration:
- Twenty-two states currently administer one or more EOCs to all students in an EOC course.
  - This number will increase to 26 states over the next decade as EOCs are anticipated to be implemented in Alabama, Connecticut, Hawaii and Ohio.

EOC as exit exam:
- Eight states currently require students to pass one or more EOC assessments to graduate from high school.
  - This number will likely increase to 15 states by 2020, with the anticipated implementation of EOCs as exit exams in Alabama, Connecticut, Florida, Louisiana, Ohio, Texas and Washington.

EOC not exit exam:
- Eleven states currently administer EOCs to all students in an EOC course, but do not require students to earn a passing score. These 11 states include California, New Jersey and South Carolina, which use another assessment as the state’s exit exam.

Final course grade:
- At least five states — Georgia, Kentucky, North Carolina, South Carolina and Tennessee — require that the score on the EOC be factored into a student’s final course grade. A sixth state, Texas, offers districts a deferral of a policy to incorporate EOC scores into students’ final course grades, but for the 2011-12 school year only.

This report does not include:

- States such as Iowa and Michigan, which have developed EOCs for optional district-level use
- States such as Oregon, Pennsylvania and Rhode Island, which allow EOCs to be used as one component of a proficiency demonstration that must accompany Carnegie units for high school graduation
- States such as South Dakota that have developed EOCs expressly for students who wish to exempt themselves from seat-time requirements in fulfilling high school graduation requirements
- States administering American Diploma Project (ADP) end-of-course assessments.

More details on these states’ EOC programs available from the author on request.

  • English III  
  • Algebra I  
  • Geometry  
  • Algebra II  
  • Biology I  
  • Chemistry  
  • Physics  
  • U.S. History | None. However, students in a course in which an EOC is administered must take the EOC and earn a passing grade in the course. For students entering grade 9 in fall of 2009 and 2010 (Class of 2013 and 2014), scores on EOC exams = 20% of final course grade. For students entering grade 9 in fall of 2011 and thereafter (Class of 2015) EOC exam scores = 25% of final grade. | TENN. COMP. R. & REGS. 0520-01-03.06(2)(d); Tennessee Department of Education Web site |
| TX    | 12:  
  • English I  
  • English II  
  • English III  
  • Algebra I  
  • Geometry  
  • Algebra II  
  • Biology  
  • Chemistry  
  • Physics  
  • World Geography  
  • World History | Eff. Class of 2015: Students must take all 12 EOCs, earn a to-be-determined cumulative score on each of the four content areas, and pass the English II and Algebra II EOCs. An exception to the EOC requirement is made for a student who elects into “Minimum” high school curriculum, in which case a student is exempted from EOCs in courses not required by the Minimum curriculum. Statute also requires a student’s score on the EOC assessment to account for 15% of a student’s final course grade. However, a February 2012 letter from the commissioner of education provides districts a deferral of this policy for the 2011-12 school year. Statute requires the end-of-course exams to be used for college | TEX. EDUC. CODE ANN. § 28.014, 39.023(c), 39.023, 39.0233, 39.024, 39.025; Texas Education Agency Web site |

---

6 Texas also has “modified” and “alternate” EOC assessments for students with disabilities, and EOCs in some subject areas for English language learners.

In addition, students who do not meet college readiness standards on a required end-of-course assessment must complete a “college preparatory” course (which has its own end-of-course assessment) in that subject. Statute directed the commissioner of education and commissioner of higher education to recommend for state board adoption “the essential knowledge and skills of courses in college preparatory mathematics, science, social studies, and English language arts[. ]” The score on the EOC for the college preparatory course must account for 15% of the student’s final grade for the course.

Eff. Class of 2013: Students may use results from either EOC from first year of HS mathematics (i.e., Algebra I or Integrated Math I) or results from a high school mathematics retake assessment to complete math portion of exit exam.

Eff. Class of 2015: Students must complete math portion of exit exam requirement via Algebra I/Integrated Math I and Geometry/Integrated Math II (“or results from a high school mathematics retake assessment for the end-of-course assessments in which the student did not meet the standard.”)

7 2011 legislation establishes legislative intent to develop additional science EOC assessments: “the legislature finds that the financial resources for developing additional end-of-course assessments for high school science are not available in the 2011-2013 biennium. Nevertheless, the legislature intends to revisit this issue in the future and further intends at an appropriate time to direct the superintendent of public instruction to develop one or more end-of-course assessments in additional science subjects.”
