Quality of Care and Regulation

- Regulation and oversight of providing services of skilled nursing facilities, in-home care agencies, hospice, and memory care facilities, adult day care, group homes, etc.
- Education and training of medical facility personnel, medical/emergency room staff, social workers, and other healthcare providers in identification, care, and discharge planning
- Role of higher education in quality of care
- Training for first responders
- Training for informal caregivers
- Training, regulation and oversight of formal caregivers
- Evidence based best practices and latest research
- Gaps in regulation/ including out of state placement
- Coordination between governmental and non-governmental services & agencies
- Cultural issues and considerations
- Driving liability
