

STOREY COUNTY SCHOOL DISTRICT

Nevada Legislature – 2015 Session

Proposed Conceptual Amendment to SB 474

Date: April 30, 2015

Hearing: Senate Finance

Proposal – We respectfully request that section six be amended to include a new sub-section d that requires a formula for guaranteed professional development funding for school districts with a total enrollment of less than 15,000 students.

Intent – The grant proposal process would place smaller districts at a distinct disadvantage in acquiring funds for teacher professional development. A funding guarantee would allow rural districts to develop and implement a consistent professional development program.
