Intent of Amendment:

NSEA's proposed amendment to the bill stems from the Teachers and Leaders Council (TLC) recommendation for a 40% student performance scoring ratio in the Nevada Educator Performance Framework (NEPF). We recommend a 20%/20% ratio proportioned between state and local assessments as outlined in the bill.

Given the number of indicators to be scored in the Instructional Practice and Professional Responsibilities domains, and the increased rigor of the Nevada Academic Content Standards, we believe the TLC's recommendation to lower the student performance score ratio is prudent for education employee evaluations.
