OFFICE OF SUICIDE PREVENTION (OSP) ACCOMPLISHMENTS

- Office established in State Fiscal Year 2006; Statutory Origin NRS 439.511, 439.513;
- Update of the 2016 Nevada Suicide Prevention Plan in draft;
- State of Nevada awarded over $3 million in Federal Grants for youth suicide prevention since 2005;

Early Identification, Intervention, Prevention and Postvention

- OSP has partnered with community coalitions, school districts, Children’s Mental Health Consortia, Mobile Crisis Response teams, behavioral health and primary health care providers, law enforcement, and the Children's Cabinet to provide youth Signs of Suicide screenings and assessments in various settings;
- The Committee to Review Suicide Fatalities was established in 2013 to identify opportunities for prevention and improved communication; the CRSF develops recommendations to improve systems that impact the prevention of suicide.
- OSP provides outreach to families, schools and communities in the aftermath of suicide, working with bereavement support groups and suicide-attempt survivors. Postvention guides available.

Suicide Prevention Hotline

- OSP partners with Crisis Call Center to implement the nation’s first 24-hour, text-based crisis intervention service: TextToday; Calls to Crisis Call Center’s Suicide Prevention Hotline continue to increase with 28,051 calls in 2009 to over 60,000 contacts for 2016.

Suicide Prevention Awareness, Education and Training

- Over 2,100 Nevadans have been trained in the Applied Suicide Intervention Skills Training (ASIST) program, which engages participants in two days of suicide-first-aid skills training;
- Over 73,000 trained in NV Gatekeeper Training Awareness, Intervention and Postvention programs;
- Youth Mental Health First Aid offered to community partners and schools across Nevada to improve mental health literacy and reduce stigma; over 1,000 youth-serving adults trained.

Increase in number of local or regional groups that collaborate with the Office of Suicide Prevention to implement the state plan

- OSP provides ongoing technical support to eight rural prevention networks and multiple coalitions Associations and licensing boards;
- Twelve County School Districts’ administrators, counselors, nurses, bus drivers, school police, and teachers have benefited from the available programs and trainings provided by OSP;
- OSP partners with Nevada Coalition for Suicide Prevention to host the “Walk in Memory, Walk for Hope” which has expanded from 1 community & 50 walkers to 14 communities and 1,750 walkers.

The Facts about Suicide

- Nevada has the 11th highest rate in the nation at 19.3/100,000.
- Suicide is the 8th leading cause of death for Nevadans.
- Suicide is the 2nd leading cause of death for our youth age 15-24.
- NV youth ages 15-24 were 22nd highest rate in the nation for 2015 with 12.0/100,000.
- Males make up 77% of suicide deaths at a rate of 29.5 per 100,000.
- Nevada seniors over 65 have the 4th highest suicide rate in the nation, almost double the national average for the same age group.
- More Nevadans die by suicide than by homicide, HIV/AIDS or automobile accidents.
- Native American Youth have one of the highest rates of suicide.
- Firearms are used in 53% of suicide deaths.
- Female Nevada veterans are 3 times more likely to die by suicide than the general Nevada female.
- Veterans comprise an estimated 23% of all completed suicides in NV.

### Postvention and Exposure of Survivors of Suicide Loss

- Exposed (“Affected”) – those who “know” someone personally who has died by suicide
- Among those exposed to a death by suicide, more than 6 experience a major life disruption

### Suicide Loss Survivors

- Survivors of Suicide Loss = experience high levels of distress for a considerable length of time after exposure

---

### Notes

- Older adults made up 16.5% of the population, but 18.2% of suicides
- Middle Aged made up 25.9% of the 2017 population, but were 35.1% of suicides
- 1,370,640* Years of Potential Life Lost Before Age 75 (43,220 of 17,473 suicides are below age 75)

---

* alternate YPLL figure: 1,369,377 using individual years in calculations rather than 10-year age groups as above.

---

Many figures appearing here are derived or calculated from data in the following official data sources: downloaded 07 through 2018 from CDC’s WONDER website: https://wonder.cdc.gov. * Other references cited on this page are listed on the State Data Page. •

---

§ Alternate terms = Survivors of Suicide Attempts or those with Live Worked Experience (of suicide attempt)

THE TOLL ON OUR YOUTH IN NEVADA

Using Youth Risk Behavior Survey rates from 2015, the following are estimated:

- **85,477** NV youth who felt sad or hopeless for two weeks or more**
- **43,853** NV youth seriously considered attempting suicide**
- **39,146** NV youth made a plan to attempt suicide**
- **24,280** NV youth made attempt; 777 of those required treatment by a doctor or nurse**

**Source:** Calculation based on Youth Risk Behavior Surveillance System. Atlanta, Georgia: U.S Department of Health and Human Services, Centers for Disease Control and Prevention, Population Division, U.S.Census Bureau, 2016 estimates grades 6-12.
