### Legislative Counsel's Digest:

Existing law sets forth provisions governing peace officers and establishes the Peace Officers' Standards and Training Commission (hereinafter "POST"), which generally provides for the training and education of peace officers. (Chapter 289 of NRS) **Section 1** of this bill requires every law enforcement agency to establish an early warning system for the purpose of identifying peace officers employed by the law enforcement agency who display bias indicators or other problematic behavior. **Section 1** requires that if a peace officer is identified by the early warning system as displaying bias indicators or other problematic behavior, the law enforcement agency that employs the peace officer is required to increase its supervision of the peace officer and provide additional training and, if appropriate, counseling to the peace officer. If a peace officer is repeatedly identified by the early warning system as displaying bias indicators or other problematic behavior, the law enforcement agency that employs the peace officer is required to consider the consequences that should be imposed, including transferring the peace officer from any high-profile assignments or subjecting the peace officer to any discipline. **Section 1** also authorizes POST to adopt any regulations necessary to carry out the provisions relating to such early warning systems.

~~Existing law generally requires a person upon whom some or all of the powers of a peace officer are conferred to be certified by POST. (NRS 289.550) Section 2 of this bill provides that before such a person may be certified, the person is required to have: (1) at a minimum, received an associate's degree; or (2) completed at least 2 years of military service. Section 2 also specifies that a person does not need to satisfy such a requirement before he or she participates in any training required as a condition of certification as a peace officer.~~

1 ~~Existing law establishes provisions relating to the liability of and actions against this~~  
2 ~~State, its agencies and its political subdivisions. (NRS 41.0305-41.0309) Section 3 of this~~

~~bill imposes liability on any peace officer who subjects another person or causes another person to be subjected to the deprivation of any individual constitutional rights that create binding obligations on government actors. Section 3 also provides that in an action brought as a result of a deprivation of such constitutional rights, qualified immunity can only be used as a defense in certain circumstances. Section 3 additionally requires the employer of a peace officer to indemnify the peace officer for any liability incurred by, and any judgment or settlement entered against, the peace officer unless the actions of the peace officer were malicious, wanton or willful.]~~

Existing law establishes provisions relating to the rules of the roads in this State, including rules pertaining to pedestrians. (Chapter 484B of NRS) **Sections 7-21** of this bill establish provisions relating to the recording, collection and review of information concerning traffic stops and other stops made by law enforcement officers. **Section 17** of this bill requires the Department of Public Safety to develop and implement, not later than January 1, 2022: (1) a standardized method to be used by law enforcement officers to record certain information concerning any such stop, including certain demographic information of the person who was stopped; and (2) training and procedures to facilitate the collection of such information. **Section 17** also requires: (1) law enforcement officers that make a traffic or other stop to record such information beginning on January 1, 2022; and (2) law enforcement agencies that retain such information to report such information for each calendar year to the Department beginning not later than February 1, 2023. **Section 17** additionally requires that any such information be used for statistical purposes only and not contain any identifying information relating to a law enforcement officer who performed a traffic stop or other stop or a person who was stopped. **Section 17** provides that any information that could reveal the identity of such a law enforcement officer or person is exempt from public disclosure.

**Section 18** of this bill authorizes the Department, to the extent that money is available, to contract with a third party to review all public information reported by law enforcement agencies concerning traffic stops and other stops and conduct a statistical analysis of the data to identify patterns or practices of profiling. **Section 18** requires the Department to seek any available gifts, grants or donations to assist in enabling the Department to contract with a third party to conduct such a statistical analysis. **Section 18** also requires such a third party with whom the Department contracts to submit, during the year in which a statistical analysis is conducted, a report of the results of the analysis to the Governor, the Department and the Chairs of the Senate and Assembly Standing Committees on Judiciary. **Section 19** of this bill authorizes the Department, after reviewing the report, to provide advice or technical assistance to any law enforcement agency mentioned in the report and, if such advice or technical assistance is provided, requires the Department to present to POST a summary of the advice or technical assistance given.

**Section 20** of this bill requires the Department to record information collected from law enforcement agencies concerning traffic stops and other stops in a central repository created by the Department to track data electronically concerning such stops on a statewide basis. However, **section 25** of this bill provides that, unless the Department is able to create such a central repository and record such information using existing resources, such a requirement only becomes effective on the date on which federal funding is obtained for the recording, collection and review of information concerning traffic stops and other stops made by law enforcement officers.

**Section 21** of this bill authorizes the Department to adopt any regulations necessary to carry out the provisions relating to the recording, collection and review of information concerning traffic stops and other stops made by law enforcement officers.

**Section 22** of this bill requires the Legislative Commission to appoint a committee to conduct an interim study relating to the establishment of crisis response call centers. **Section 22** requires that such a study include: (1) an examination of certain proposals relating to responses to non-violent and non-emergency situations; (2) a determination of how information should be provided to the public regarding when to call an emergency number, a non-emergency number or another help line; (3) the consideration of alternative

1 models regarding responses to crises that do not require armed law enforcement officers;  
2 and (4) a determination of the feasibility of establishing a pilot program relating to crisis  
3 response call centers. **Section 22** requires the interim committee to submit a report of its  
4 findings and any recommendations for legislation to the Governor and the Director of the  
5 Legislative Counsel Bureau for transmittal to the 82nd Session of the Nevada Legislature.
