

Dear Assembly Judiciary Committee:

03/19/23

AB292

Please OPPOSE AB292. According to this bill, the offender has the right to be searched by the same staff member of the same gender identity. A list of gender identities is not included in this bill. How are the prisons, jails, detention facilities supposed to have the staff members to accommodate the mandate in this bill? How much more staff will need to be added and at what cost? This is an unfunded mandate. Where will the money come from?

The original bill addresses humane treatment of prisoners. They are there because of a crime they committed and hopefully be rehabilitated. This bill gives the prisoners better services and more medical care than the working taxpayers.

Besides staffing issues and all the extras, the bills respect for inmates ignores the damage to biological female prisoners. Tran's women with male genitalia should not be housed with biological female prisoners.

Vote NO on AB292

Thank You,

Ann Sweder

Dear Committee Members,

I am writing in regards to AB292.

This bill is bad for Nevada for several reasons. The unfunded mandate notwithstanding, How much will it cost Nevada taxpayers to hire an ombudsman for each prison and jail? How much will it cost to do the training required for the staff of these facilities to be able to comply with this bill? How much will it cost when an inmate files a lawsuit against the state for violating his newly created "rights"? How are you going to be able to ensure that there is a staff member available with the same "gender identity" as an inmate for the purpose of maintaining security? Would not this bill require that the state define all the different "gender identities" this bill supposes? How do you address the issue of an inmate constantly changing their "identity" to avoid security measures? It is obvious that the originator of this bill has not conferred with security experts as it pertains to handling pregnant women. This bill will create major problems and expenses for an already overburdened system. This bill supposes a problem where none exists. Please vote No an this bill and protect the taxpayers from the woke agenda

Normally when I contact a member of the legislature regarding consideration of a bill, I pour over the contents of the bill in a disciplined, logical manner. I pull out specific areas of the bill where I have questions or where I agree or disagree. AB292 does not encourage me on a serious path forward. It is one of the most schizophrenic attempts at bill writing that I think I have ever seen.

On the one hand the bill seems to acknowledge and provide logical and meaningful protections for members of offender populations who are incarcerated. It seems to, in that same hand, acknowledge that there are distinctions between men and women. But in that other hand, there are illogical references to gender identity that defy, deny and offend one group of offenders over another.

My first instinct was to dismiss this bill as so silly as to not even warrant a moment of my time, but as a citizen I believe that the architects of this bill need to be called out for their precious waste of time and energy and lack of serious thought in the drafting of AB292. Come on people, please do not pass this out of committee and continue such unserious business. Please accept my apologies for this blunt appraisal of AB292 but time is precious and of the essence.

Sincerely,
Dinah Maher

AB292

Dear Legislators,

There are multiple problems with this bill:

- This bill contains an unfunded mandate.
- This bill creates expenses for an already overburdened system while assisting those in their diagnosed gender dysphoria.
- Questions regarding this bill:
 - How much will it cost Nevada taxpayers to hire an ombudsman for every single prison and jail?
 - What is the cost to do the training required for the staff of these facilities to be able to comply with this bill?
 - How much will it cost when an inmate files a lawsuit against the state for violating his newly created “rights” or when they instantaneously decide to change genders?
 - How are you going to be able to ensure that there is a staff member available with the same “gender identity” as an inmate for the purpose of maintaining security when there are more and more genders available for folks to identify with?
 - This bill requires that the state define all the different “gender identities” this bill supposes?
 - Security experts were not consulted as it pertains to handling pregnant women.

This bill will be inconceivably expensive for Nevadans and forces Nevada to embrace a multiple (and still multiplying) genders when there is no hard core accepted science to support such an idea.

Please OPPOSE AB292.

Sincerely,
Reva Crump, MS Cell and Molecular Biology
