Testimony Janine Hansen State President Nevada Families for Freedom

Oppose SJR7 Constitutional Amendment for the Killing of the Unborn for all Nine Months

SJR7 is a radical Constitutional Amendment making the killing of the innocent unborn a fundamental right. Our nation's founders shed their blood to provide us with a Constitution that would secure the Blessings of Life and Liberty to themselves and to their Posterity. Posterity means all future generations of people. Our own Nevada Constitution recognizes the inalienable rights of life and liberty and SJR7 would make a mockery of our Constitution.

SJR7 enshrines the brutal policy of infanticide as a fundamental right. There are no protections for the unborn survivors of late term abortions at 6 months, 7 months, 8 months or 9 months. The definition of "fetal viability" precludes the use of "extraordinary medical measures" to keep a baby alive, unless there is a "significant likelihood of the sustained survival". What is the message? It's ok to murder a baby who survives abortion. How is extraordinary medical means and sustained survival defined? Do we just throw the baby on the cold counter and let her gasp for breath on her own until she dies? Or will the abortionist murder her by throwing her in a plastic bag? Does "sustained survival" have a time limit? If the baby survives 24 hours on her own is that sustained survival or do we wait 48 hours or 72 hours to make sure she's dead? The definition of infanticide includes the whole first year of a baby's life.

The doctor-butchers who perform abortions are completely protected by SJR7, as are adults who aid minor girls in getting secret abortions. Predators can force young girls to get an abortion to cover their crimes. Of course, there is no protection or recognition of fundamental parental rights to be the guardians of their underage daughters.

SJR7 provides absolutely no restrictions on abortions what-so-ever because all you need is a quack abortionist to say in his "professional judgment that the abortion is medically indicated to protect the life or physical or mental health of a pregnant individual"...not the woman or the mother but the generic individual.

Protecting and defending life and liberty takes courage and always comes with significant costs. It's much easier to throw away the inconvenient, than with compassion to provide love and care for both the baby and the mother.

Vote No on SJR7.
