

SRJ7

What we see with this resolution is partisan politics at its finest. Not a single Republican sponsor or co-sponsor has signed on. Not surprising as Republicans recognize the sanctity of life. The number one cause of death in this country for persons under 16 and our elected representatives want to perpetuate this. I cannot fathom the depths of human deplorability that one must lower themselves to in order to condone the taking of innocent life. It is not my place to judge those that support this action, but I assure you I hold every one of you accountable for how you vote on this resolution. At a minimum the term "extraordinary measures" is very subjective and must have specificity to preclude what may amount to homicide. Please vote NO on this resolution.

Regards,

Bruce Parks
Chairman
Washoe County Republican Party
