

Senate and Assembly Committee Members,

For the record, my name is Macy Haverda and I'm here as the President of the Wild West Access Fund of Nevada, one of two abortion funds here in Nevada. We provide financial and logistical support to people seeking abortion care in our state, whether they are Nevadans or people traveling into Nevada.

Wild West Fund spends \$8,000 a month offsetting abortion costs. We do not record statistics regarding how many people we support traveling in from out of state, but I can confidently say that we have offset an average of \$5,000 per month of travel costs. We do this because abortion was always inaccessible for many, and now it's borderline unreachable for people in our neighboring states, or my home state of Texas. We don't ask people why they're seeking care, because the only reason that matters is theirs.

The Supreme Court has caused harm that will ripple across the nation for generations to come, forcing people into spirals of poverty, locking them into cycles of abuse, but the Battleborn state will continue to prove worthy of its name. Nevadans will fight for everyone to make their own healthcare decisions. SJR7 is the first of many battles we're prepared to fight to protect a person's inherent right to make their own choice regarding their basic healthcare autonomy.
