

My name is Greg Latimer, owner and President of Triad Plastic Technologies in Reno. I have been a resident of the area for 45 years, and have witnessed many changes in the political arena. None, however, approach the negative impact this bill, SJR7, would have on our image as a State, on the lives of women in tragic situations, and the lives of untold unborn children. The vast majority of Americans believe there should be limitations on abortion with regard to when they should not remain an option in the gestational process. **One reference: A new national poll shows Americans want sensible limits on abortion and reject the view of Joe Biden and virtually all Democrats of legalizing abortions up to birth.**

American Principles Project (APP) and The Clapham Group released results from a poll of voters in six states with races for open Senate seats, covering topics such as paid family leave, child tax credit expansion, and abortion.

When it comes to abortion, 75.8% of voters indicated support for abortion restrictions, compared to just 19.3% who supported the Democratic position of legal abortion in all circumstances up until the moment of birth.

The survey, conducted by SPRY Strategies, polled 1,329 registered voters in Alabama, North Carolina, Missouri, Ohio, Oklahoma, and Pennsylvania. The poll was conducted by IVR, live landline, and online mobile interviews from September 17-20 and has a margin of error of +/- 2.7 percentage points.

For Nevada to remove those limitation would fly in the face of these opinions.

I urge you to defeat this bill and not make Nevada a sanctuary for unrestricted abortion.

Thank you for your consideration.
