

Dear Assembly Government Affairs Committee:

AB312

Please OPPOSE AB312. This bill would create a commission of unelected bureaucrats for 20% of the population of Nevada under the guise of Environmental Justice. Clark County gets 5 members, Washoe County gets 2 members and the rest of the state gets 2 members. Clark County would have the majority say in this commission; which has the majority of the population and the majority of the States problems. The rest of the citizens of Nevada would have to pick up the tab for the committee members of Clark County. The cost, just for the committee members at \$80 per day, would be \$15,840 per month or \$190,080 per year. Plus per diem allowance and travel expenses. This does not represent all the people of Nevada, who have no say in committee findings. If there are environmental issues in Clark County, handle it in Clark County. Clark County has the largest population in the state. The rest of the state should not be lumped in with Clark County. This is an unneeded bill for an unspecified problem. Vote NO on AB312.

Thank You,

Ann Sweder
