## Planned Parenthood Votes Nevada

Planned Parenthood Votes Nevada supports AB258 and its mission to protect Nevadans' right to donate, volunteer and otherwise support nonprofits without intimidation or interference from the government.

We have long been at the forefront of defending Nevadans rights to reproductive healthcare and personal privacy; unfortunately that also means we have been at the receiving end of threats, intimidation and a myriad of actions meant to deter us, our volunteers and our donors from continuing this fight.

AB258 ensures that the state government can not be weaponized in that manner and protects us, and all nonprofits regardless of their mission, from having a state agency attempt to use their power against us and our members for personal or political reasons.

We want to thank Assemblywoman Shea Backus and the bipartisan coalition behind AB258 and we urge this committee to pass this good government measure that protects everyone's first amendment rights.
