RE: S.B.309... Lifetime Supervision? No.

Why? Unconstitutional recent supreme court rulings in Illinois, Michigan, and South Carolina point out the many valid flaws of lifetime supervision.

Complaints to us reveal that this is not a 1 size fits all operation here in NV.

TIER CHANGES MORE PUNISHMENT? Yes.

Note: Our Nevada Tier Changes have judged individuals down (more serious) from where they were previously. How is that possible? Those with higher tiers now have lower ones? Please audit to learn the entire extent of this agonizing punishment.

Are those deciding tier levels certified psychosexual specialists?

The Registry is a shaming tactic, no different from Hester, forced to wear the red "A", in my opinion.

REPEATED FINGERPRINTING?

Further, fingerprinting over and over for the registry? This is a waste time for everyone involved.

JOB INTERRUPTIONS?

Job interruptions making multiple trips to report in frequently? No, plus, the registry stops job hiring in its tracks, thereby promoting instead of ending poverty.

Here is the NV history of the lifetime registration act in 1 piece for you...

With a worthwhile overview:

Our NDOC residents are in dire straits on all levels, physical, mental, emotional, and spiritual, in my opinion. Stop reincarcerating those for not registering without new violations. What to do?

End lifetime registration now. And de-carceration for those over 55 (65 in prison years) for all crimes would be a good start, in my opinion.

Please reinstate the repealed sex law study committee. Why? Lawsuits are forming now.

So, no, to lifetime supervision in S.B.309 and in any other Nevada bill in our 82nd session.

We must declare lifetime supervision unconstitutional.
