

*Dear Assembly Revenue Committee:*

*ACR7*

*Please OPPOSE ACR7. If the tax structure of Nevada unfairly burdens the low-income Nevadans, then get rid of some the taxes that are paid just to help the Illegal aliens and homeless; who are an added burden on Nevadans. There are dozens of bills this session that are designed to provide tax supported services to illegal aliens. The governmental services do not include all Nevada residents, only the ones who will not help themselves. Why are we looking at other states and how their tax base is structured? The demographics and needs are so different than Nevada's. This is Nevada, not Washington, Oregon or California. This study mentions "equitably" sharing, not "equally" sharing. Equitably means taking money from those who have worked for all they have and giving it to those who sit back and do nothing. How would the wealth be determined? The wealthy provide jobs for average Nevadan's. They pay a large portion of the taxes. Inflation and increased taxes have everyone drowning financially. Give Nevadan's relief by cutting taxes and regulations. I OPPOSE any attempt to lay the foundation for increasing taxes on anybody. Stand for ALL the taxpaying Nevadan's and say NO to a study regarding wealth taxes. NO on ACR7.*

*Thank You,*

*Ann Sweder*
