RE: AB38 - Revises provisions relating to Workforce Innovations for a New Nevada Account

SUPPORT

Feb. 20, 2023

As the State of Nevada’s regionally designated Regional Development Authority and a 501(c)6 organization in operation for nearly 80 years, the Las Vegas Global Economic Alliance works alongside its partners to develop the economies of Las Vegas, Clark County, Henderson, North Las Vegas, Boulder City, and Mesquite through regional cooperation, global trade, and global connectivity. In doing so, we see the value in our state’s ability to provide support in building and enhancing training programs to serve the needs of employers who seek high-skill workers. The Workforce Innovations for a New Nevada (WINN) is a program proven to support just this need.

As introduced, AB38 affords Nevada the flexibility to utilize funds for its core purpose during the different fiscal cycles of involved parties, which means it can be used more effectively thereby supporting the state’s work to diversify and fortify its economy.

We ask for your SUPPORT.

Respectfully,

Amber D. Stidham
Chief Strategy Officer
Las Vegas Global Economic Alliance
