

ACR7

Dear Legislator,

As an exorbitant number of the bills this session focus on our taxpayer dollars to provide services to illegal aliens, these legislators want to tax the wealthy more than others! The wealthy create the jobs. Who will be standing in judgment of one's wealth? Would Nevada impose a state income tax in the name of EQUITY, (not equality)? This bill is simply a guise to impose even more taxes on Nevadans. Want the wealthy to go to another state and take their money with them? This bill will do it!

I am appalled at ASSEMBLYWOMEN ANDERSON AND CONSIDINE suggesting they want a "study" to ensure "adequate governmental services" guaranteeing the state's wealthiest residents are "sharing equitably" (notice it does not day equally), in reasonability funding government services. "Other states have enacted taxes on extreme wealth... extending the requirement to pay taxes on intangible financial assets, including without limitation, stocks, bonds, publicly traded options and future contracts."

Please vote against inequitable taxation; vote NO ACR7.

Sincerely,

Reva Crump, MS
