RE: Letter in Support of Senate Bill 330

Good afternoon Chair and Members of the Committee-

My name is Briana Escamilla on behalf of Planned Parenthood Votes Nevada. We are in full support of SB330 because we believe that all Nevadans, regardless of income level, deserve access to the preventive health care that they need to live healthy lives. Additionally, we believe that cost should never be a prohibitive factor in receiving life saving and medically necessary care.

We urge you to support SB330. Thank you.
