This measure may be considered for action during today's work session.

ASSEMBLY BILL 242 (R1)

Revises provisions relating to elections. (BDR 24-365)

Sponsored By: Assembly Committee on Legislative Operations and Elections
(On Behalf of the Joint Interim Standing Committee on Legislative
Operations and Elections)

Date Heard: May 16, 2023

Fiscal Notes: Effect on Local Government: May have Fiscal Impact.
Effect on the State: Yes.

CONTAINS UNFUNDED MANDATE

Assembly Bill 242 repeals certain provisions relating to paper ballots and the discretionary use of mechanical voting systems. The bill instead requires the use of a mechanical voting system for tabulating ballots and casting a vote in person at a polling place. This includes casting a vote by provisional ballot but does not include casting a vote by mail ballot. The measure also revises the definition of "mechanical voting system" to include marking a mail ballot which is subsequently counted by electronic means.

Further, the measure requires each polling place, with certain exceptions, to provide at least two voting booths that are accessible for voters who are elderly or voters with disabilities. County and city clerks and election board officers are also required to be trained in using such accessible voting booths.

Amendments:

Chair Ohrenschall proposed a conceptual amendment to delete multiple sections of the bill.

The only sections remaining in the bill would relate to accessible voting booths and portions of Section 9 of the bill related to the use of mechanical voting systems for counting ballots. The amendment is attached in a mock-up.
