The Nevada Senate's Simulation Experience

## INTRODUCTORY REMARKS FOR BILL SPONSOR

*Prepared for uLegislate*

*Note: Use of this speech is optional in the uLegislate simulation. If you would like to make your own arguments in support of the piece of legislation, please do! But if you would like some help, we have written these introductory remarks, which you can make immediately after the Secretary of the Senate reads the bill and the President asks for remarks.*

### ASSEMBLY JOINT RESOLUTION 1

Expresses objection to the transfer of radioactive plutonium to this State.

#### INTRODUCTORY REMARKS:

Thank you, (Mr./Madam) President. This resolution expresses the Nevada Legislature's opposition to the transfer of South Carolina defense plutonium or any other highly radioactive waste or materials to the Nevada National Security Site.

The resolution calls on United States Secretary of Energy, James Richard "Rick" Perry, to halt any such shipments in the future, to inform appropriate Nevada state officials of a timeline for removal of the plutonium shipped from South Carolina, and to inform Nevada officials of any future plans to transfer such materials to this state.

The resolution restates the Legislature's strong and unyielding opposition to the storage or disposal of any highly radioactive materials in Nevada without its knowledge or consent.
