The Nevada Senate's Simulation Experience

## SECRETARY OF THE SENATE

- You are an elected, nonmember officer of the Senate. You do not vote, nor do you say “aye” or “nay” when motions are decided by voice vote.
- Use the platform microphone that sits on the Secretary of the Senate’s dais to speak. Push the button at the base of the microphone if the red light is not illuminated. You do not need to push the white MIC button next to the computer screen.
- When the President asks you to “open the roll” push the OPEN panel on your computer screen. When the President asks you to “close the roll” push the CLOSE panel on your computer screen.
- When reading the joint resolution and bills, speak directly into the microphone and read at a comfortable pace. You are the voice of the Senate!
