A Note About the Statistics in This Document

With the exception of voter registration data on page 29, the statistical information displayed in this document was extracted from the United States Bureau of the Census's *2019–2023 5-Year American Community Survey (ACS)*, which became available on December 12, 2024. The ACS provides estimates of demographic, economic, housing, and social characteristics for numerous geographies every year, including five-year period estimates that describe the characteristics of an area over a specific period of time rather than for a specific point in time. Therefore, these data may not be comparable with point-in-time estimates. In this document, we have used estimates that the Bureau of the Census compiled at the legislative district and State levels for Nevada, as well as corresponding national data. Additional information about the ACS is available at: www.census.gov/programs-surveys/acs.

Figures for active voters were obtained from the website of Nevada's Secretary of State on January 13, 2025. The Secretary of State updates these figures on a regular basis. For the most current voter registration information, visit www.nvsos.gov/sos/elections/voters/voter-registration-statistics.

Detail in some tables may not sum to 100 percent due to rounding.

Population Characteristics

Nevada Assembly District 41

Chart 2—Median Age (in years)*

*The median is the value separating the higher half of a data set from the lower half when the data are arranged in numerical order. In simple terms, it may be thought of as the "middle" value of a data set.

Chart 3—Child Dependency Ratio**

**Child Dependency Ratio is the number of young people (0-17 years) in a population divided by the total adult working age population (18-64 years) times 100.

Chart 4—Old-Age Dependency Ratio***

***Old-Age Dependency Ratio is the number of elderly people (65+ years) in a population divided by the total adult working age population (18-64 years) times 100.
