## A Note About the Statistics in This Document

With the exception of voter registration data on page 29, the statistical information displayed in this document was extracted from the United States Bureau of the Census's *2019–2023 5-Year American Community Survey (ACS)*, which became available on December 12, 2024. The ACS provides estimates of demographic, economic, housing, and social characteristics for numerous geographies every year, including five-year period estimates that describe the characteristics of an area over a specific period of time rather than for a specific point in time. Therefore, these data may not be comparable with point-in-time estimates. In this document, we have used estimates that the Bureau of the Census compiled at the legislative district and State levels for Nevada, as well as corresponding national data. Additional information about the ACS is available at: [www.census.gov/programs-surveys/acs](http://www.census.gov/programs-surveys/acs).

Figures for active voters were obtained from the website of Nevada's Secretary of State on January 13, 2025. The Secretary of State updates these figures on a regular basis. For the most current voter registration information, visit [www.nvsos.gov/sos/elections/voters/voter-registration-statistics](http://www.nvsos.gov/sos/elections/voters/voter-registration-statistics).

Detail in some tables may not sum to 100 percent due to rounding.
