A Brief Note About the Statistics in This Document

With the exception of voter registration data on page 28, the statistical information displayed in this document was extracted from the U.S. Bureau of the Census, *2011-2015 5-Year American Community Survey* (ACS), which became available on December 8, 2016. The ACS provides estimates of demographic, housing, social, and economic characteristics for numerous geographies every year including 5-year estimates for all geographies down to the block group level. In this document, we have used estimates that the Bureau of the Census has compiled at the legislative district and state levels for Nevada, as well as corresponding national data.

The ACS produces period estimates that describe the average socioeconomic and housing characteristics of an area over a specific period of time, not for a specific point in time. Therefore, these data may not be comparable with point-in-time estimates. Additional information about the ACS is available at the following website: <https://factfinder.census.gov/>.

Figures for active voters were obtained from Nevada's Office of the Secretary of State's website. Those figures are updated by the Secretary of State on a regular basis. The data included herein were the most currently available statistics at the time this document was prepared. More current voter registration information is available at the following website: <http://nvsos.gov/sos/>.

Population Characteristics

Nevada Senate District No. 13

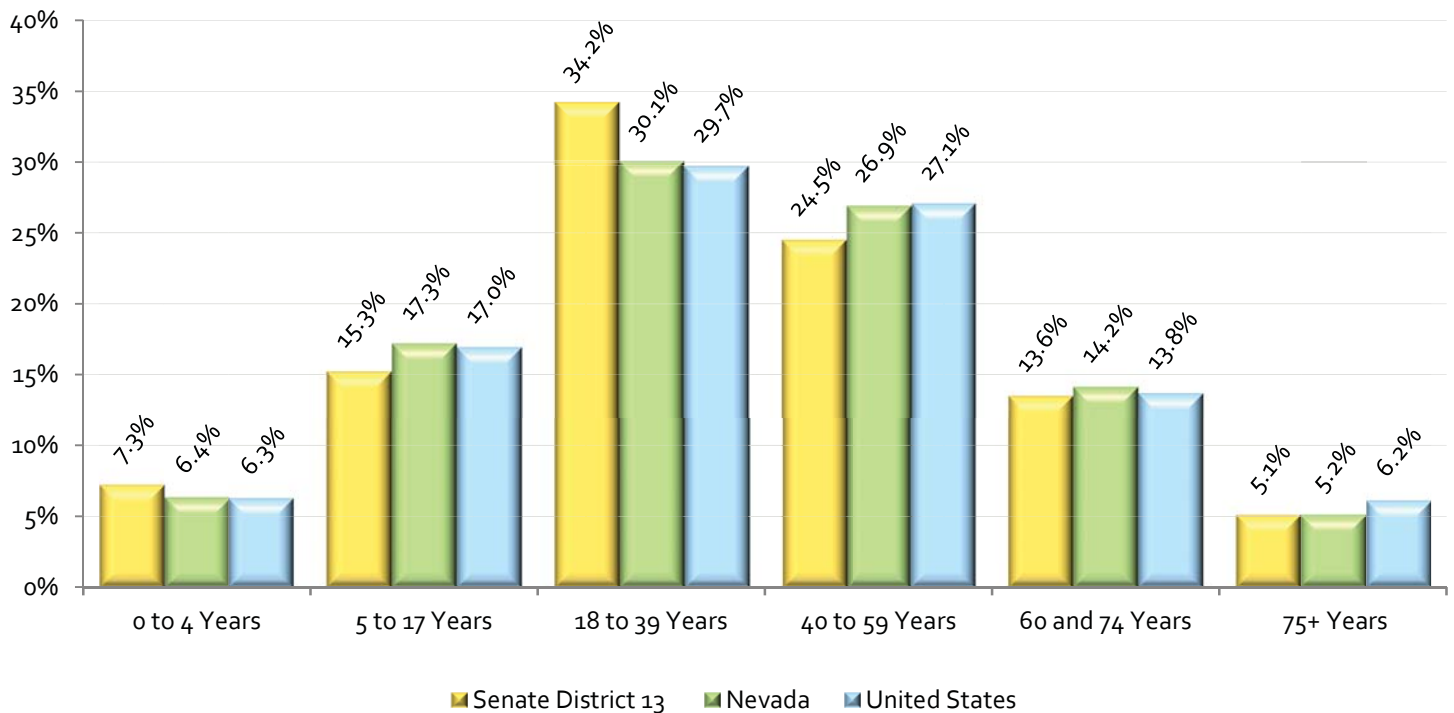

Table 1--Estimated Population

	Total Population	Number of Males	Percentage of Males	Number of Females	Percentage of Females
Senate District 13	127,748	64,172	50.2%	63,576	49.8%
Nevada	2,798,636	1,407,735	50.3%	1,390,901	49.7%
United States	316,515,021	155,734,280	49.2%	160,780,741	50.8%

Table 2--Population by Years of Age

	Age 0-4	Age 5-17	Age 18-39	Age 40-59	Age 60-74	Age 75+
Senate District 13	9,306	19,525	43,702	31,336	17,340	6,539
Nevada	178,808	482,772	841,062	753,431	397,776	144,787
United States	19,912,018	53,771,807	94,106,105	85,693,933	43,550,848	19,480,310

Population Characteristics

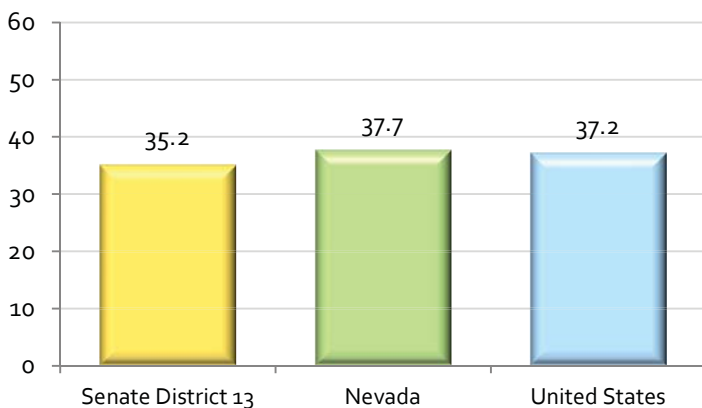

Nevada Senate District No. 13

Chart 2--Median Age (in years)*

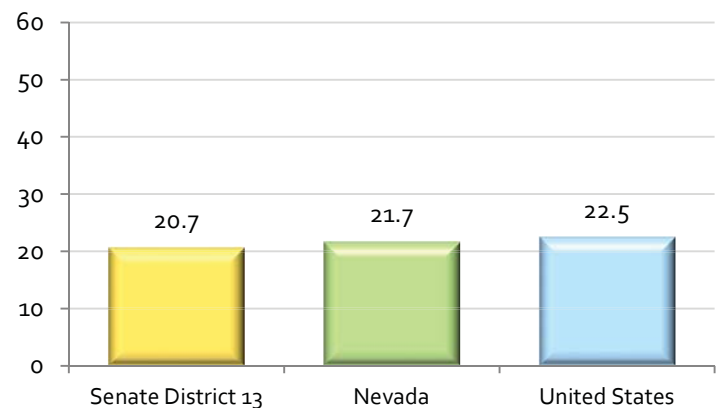

* The median is the value separating the higher half of a data set from the lower half when the data are arranged in numerical order. In simple terms, it may be thought of as the "middle" value of a data set.

Chart 3--Child Dependency Ratio*

*Child Dependency Ratio is the number of young people (0-17) in a population divided by the total adult working age population (18-64) times 100.

Chart 4--Old-Age Dependency Ratio*

*Old-Age Dependency Ratio is the number of elderly people (65+) in a population divided by the total adult working age population (18-64) times 100.
