District	Location	Current Member Representing District	2020 Population Estimate*	Ideal Population Estimate*	Actual Deviation from Ideal Estimate*	Percent Deviation from Ideal Estimate*	2010 Population
1	Clark (part)	Perkins	241,122	240,750	372	0.15%	207,610
2	Clark (part)	Tarkanian	226,014	240,750	-14,736	-6.12%	207,784
3	Clark (part)	Brooks	232,609	240,750	-8,141	-3.38%	208,064
4	Clark (part)	McMichael	223,713	240,750	-17,037	-7.08%	207,762
5	Clark (part)	Boylan	219,817	240,750	-20,933	-8.69%	207,498
6	Clark (part)	Carter	284,763	240,750	44,013	18.28%	208,126
7	Clark (part)	Doubrava	222,172	240,750	-18,578	-7.72%	207,941
8	Churchill, Elko, Esmeralda, Eureka, Humboldt, Lander,Lincoln, Mineral, Nye, Pershing, White Pine	McAdoo	243,644	240,750	2,894	1.20%	207,521
9	Carson City, Douglas, Lyon, Storey, Washoe (part)	Del Carlo	222,876	240,750	-17,874	-7.42%	207,283
10	Washoe (part)	Arrascada	240,361	240,750	-389	-0.16%	207,430
11	Washoe (part)	Geddes	241,488	240,750	738	0.31%	207,915
12	Clark (part)	Carvalho	238,380	240,750	-2,370	-0.98%	207,865
13	Clark (part)	Moran	292,789	240,750	52,039	21.62%	207,752
Total			3,129,748				2,700,551

*Note: The population database is derived from Esri's 2020 Updated Demographics estimates, which include data sources from the U.S. Census Bureau American Community Survey, administrative records, and private sources. Data validated by the Legislative Counsel Bureau.

ESRI's 2020 Updated Demographics estimates do not provide demographic data at the NSHE Regent district level. To obtain ESRI's 2020 Updated Demographics estimates for each NSHE Regent district, data was downloaded at the census block group level and aggregated by the district boundary. This is not a perfect method, as some block groups are not contained wholly within a district. For block groups that were split across NSHE Regent district boundaries, their data was apportioned among intersecting districts by the percentage of its geographic area contained in each district. One limitation to this method is that it assumes population types are evenly distributed throughout a block group, which may not necessarily be the case.

*Hispanic or Latino is reported by the Census Bureau as a language group, separately.

Note: The population database is derived from Esri's 2020 Updated Demographics estimates, which include data sources from the U.S. Census Bureau American Community Survey, administrative records, and private sources. Data validated by the Legislative Counsel Bureau.

ESRI's 2020 Updated Demographics estimates do not provide demographic data at the NSHE Regent district level. To obtain ESRI's 2020 Updated Demographics estimates for each NSHE Regent district, data was downloaded at the census block group level and aggregated by the district boundary. This is not a perfect method, as some block groups are not contained wholly within a district. For block groups that were split across NSHE Regent district boundaries, their data was apportioned among intersecting districts by the percentage of its geographic area contained in each district. One limitation to this method is that it assumes population types are evenly distributed throughout a block group, which may not necessarily be the case.

Racial population data is based on self-identification. Respondents have the option of selecting one or more races.
