Title: UNIFY, REGIONALIZE, DIVERSIFY : An economic development agenda for Nevada (Electronic Document) --2011.

Source: BROOKINGS INSTITUTION

Pages: 181

Subject: 1. ECONOMIC DEVELOPMENT--NEVADA.

Notes: "Intended as a credible third-party analysis of the state's competitive position and economic development opportunities, this report ... speaks to the desire of Nevadans to 'get on the same page' by providing a detailed accounting of the state's present situation and most plausible routes toward economic diversification.

To that end, the pages that follow draw on an intense five-month inquiry that sought to define the nature of the economic challenges the state and its major regions face; identify industries and industry clusters that have the highest potential for expansion as part of an economic diversification effort; and suggest policy options that will enable the state, its regions, and the private sector to work more effectively to build a more unified, regionally vibrant, and diversified Nevada."
