Re: Docket Nos. 17-07001, 17-07002 & 17-07003

Dear Mr. Combs:

Pursuant to NRS 704.069(2), the Public Utilities Commission of Nevada ("PUCN") conducted consumer sessions of general interest in Washoe and Clark Counties. The sessions were conducted September 12, 2017, in Clark County and September 14, 2017, in Washoe County. Sessions were conducted for each county and copies of the transcripts for those sessions are included on the enclosed USB Flash Drive. Also, included on the Flash Drive are comments and information that were provided by consumers who attended.

Pursuant to NAC 703.164 (1), the PUCN also held a general consumer session in Elko County (Docket No. 17-07003).

The sessions were publicly noticed in newspapers of general circulation and advertised in utility bill inserts as well as in press releases issued by the PUCN.

If you or any members of the Legislative Commission have questions regarding this matter, please feel free to contact me at (775) 684-6177.

Sincerely,

Stephanie Mullen
Executive Director

Encl.

BEFORE THE PUBLIC UTILITIES COMMISSION OF NEVADA

Rulemaking to amend, adopt, or repeal regulations)
pertaining to portfolio energy credits.) Docket No. 16-07032
_____)

NOTICE OF INTENT TO ACT UPON A REGULATION,
NOTICE OF WORKSHOP, AND NOTICE OF HEARING FOR THE ADOPTION,
AMENDMENT AND REPEAL OF REGULATIONS OF THE
PUBLIC UTILITIES COMMISSION OF NEVADA

On August 10, 2016, the Public Utilities Commission of Nevada ("Commission") voted to open a rulemaking to amend, adopt, or repeal regulations pertaining to portfolio energy credits. This rulemaking is designated as Docket No. 16-07032.

The Commission is conducting the Rulemaking pursuant to the Nevada Revised Statutes ("NRS") and Nevada Administrative Code ("NAC") Chapters 233B, 703, and 704, including but not limited to NRS 703.025 and 704.210.

NOTICE IS HEREBY GIVEN that the Commission will hold a public WORKSHOP pursuant to NRS 233B.061(2) to be held as follows:

TUESDAY, NOVEMBER 28, 2017
10:00 A.M.
Hearing Room A
Public Utilities Commission of Nevada
9075 West Diablo Drive, Suite 250
Las Vegas, Nevada 89148

VIA VIDEOCONFERENCE TO:

Hearing Room A
Public Utilities Commission of Nevada
1150 East William Street
Carson City, Nevada 89701

The purpose of the workshop is to solicit comments from all interested persons on the proposed regulation regarding portfolio energy credits. A period will be provided for comments

by the general public and discussion of those comments. Public comments may be limited to two (2) minutes per person at the discretion of the Presiding Officer.

NOTICE IS HEREBY GIVEN that the Commission will hold a public HEARING pursuant to NRS 233B.061(3) to be held as follows:

WEDNESDAY, NOVEMBER 29, 2017
2:00 P.M.
Hearing Room A
Public Utilities Commission of Nevada
9075 West Diablo Drive, Suite 250
Las Vegas, Nevada 89148

VIA VIDEOCONFERENCE TO:

Hearing Room A
Public Utilities Commission of Nevada
1150 East William Street
Carson City, Nevada 89701

The purpose of the hearing is to receive comments from all interested persons on the proposed regulation regarding portfolio energy credits. A period will be provided for comments by the general public and discussion of those comments. Public comments may be limited to two (2) minutes per person at the discretion of the Presiding Officer. If no person who is directly affected by the proposed regulation appears at the hearing to request time to make an oral presentation, the Commission may proceed to act upon any written submissions.

The following information is provided pursuant to the requirements of NRS 233B.0603:

The proposed regulation is needed to increase the marketability of Nevada-generated Public Energy Credits ("PECs").

The proposed regulation is expected to have no adverse or beneficial immediate or long-term economic effects on the businesses that it is to regulate.

The proposed regulation is expected to have no adverse or beneficial immediate or long-

by the general public and discussion of those comments. Public comments may be limited to two (2) minutes per person at the discretion of the Presiding Officer.

NOTICE IS HEREBY GIVEN that the Commission will hold a public HEARING pursuant to NRS 233B.061(3) to be held as follows:

WEDNESDAY, NOVEMBER 29, 2017
2:00 P.M.
Hearing Room A
Public Utilities Commission of Nevada
9075 West Diablo Drive, Suite 250
Las Vegas, Nevada 89148

VIA VIDEOCONFERENCE TO:

Hearing Room A
Public Utilities Commission of Nevada
1150 East William Street
Carson City, Nevada 89701

The purpose of the hearing is to receive comments from all interested persons on the proposed regulation regarding portfolio energy credits. A period will be provided for comments by the general public and discussion of those comments. Public comments may be limited to two (2) minutes per person at the discretion of the Presiding Officer. If no person who is directly affected by the proposed regulation appears at the hearing to request time to make an oral presentation, the Commission may proceed to act upon any written submissions.

The following information is provided pursuant to the requirements of NRS 233B.0603:

The proposed regulation is needed to increase the marketability of Nevada-generated Public Energy Credits ("PECs").

The proposed regulation is expected to have no adverse or beneficial immediate or long-term economic effects on the businesses that it is to regulate.

The proposed regulation is expected to have no adverse or beneficial immediate or long-

term economic effects on the public.

The Commission uses the simplified Delphi method in determining the impact on small businesses, whereby experts review the text of the proposed regulation and determine the likely impact of the proposed regulation on small businesses. These experts share their responses with each other and form a consensus view.

Under the proposed regulation, the Commission may incur costs associated with a hearing, however, any such costs should be minimal.

The proposed regulation does not overlap or duplicate any state or local regulations.

The proposed regulation is not more stringent than a federal regulation that regulates the same activity.

The proposed regulation does not establish any new fee or increase an existing fee.

Persons wishing to comment upon the proposed action of the Commission may appear at the scheduled workshop and hearing or may address their comments, data, views, or arguments in written form to the Commission at 1150 East William Street, Carson City, Nevada, 89701 or 9075 West Diablo Drive, Suite 250, Las Vegas, Nevada, 89148 on or before WEDNESDAY, NOVEMBER 22, 2017. Written comments should include proposed revisions, if any, to the proposed regulation.

A copy of this notice and the proposed regulation to be adopted, amended, or repealed will be on file at the State Library, 100 North Stewart Street, Carson City, Nevada 89701, for inspection by members of the public during business hours. Additional copies of the notice and the proposed regulation to be adopted, amended, or repealed are on file and available for public viewing at the Commission's website at <http://puc.nv.gov>, the offices of the Commission at 1150 East William Street, Carson City, Nevada, 89701 and 9075 West Diablo Drive, Suite 250, Las

Vegas, Nevada, 89148, and in all counties in which an office of the agency is not maintained, at the main public library, for inspection and copying by members of the public during business hours. This notice and the text of the proposed regulation are also available in the State of Nevada Register of Administrative Regulations, which is prepared and published monthly by the Legislative Counsel Bureau pursuant to NRS 233B.0653 and on the Internet at <http://www.leg.state.nv.us>. Copies of this notice and the proposed regulation will also be mailed to members of the public upon request. A reasonable fee may be charged for copies if it is deemed necessary. This does not apply to a public body subject to the Open Meeting Law.

Upon adoption of any regulation, the Commission, if requested to do so by an interested person, either before adoption or within 30 days thereafter, will issue a concise statement of the principal reasons for and against its adoption or incorporate therein its reason for overruling the consideration urged against its adoption.

Pursuant to NRS 233B.060(1), the Presiding Officer in this matter anticipates placing the proposed regulation on a Commission Agenda no earlier than December 13, 2017, for the Commission's consideration as to whether to adopt the regulation.

By the Commission,

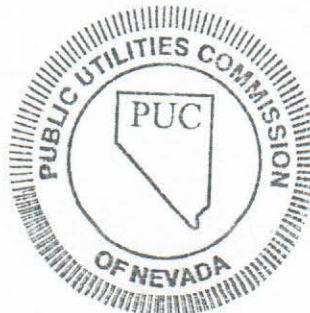

TRISHA OSBORNE,
Assistant Commission Secretary

Dated: Carson City, Nevada

County, Nevada pursuant to NRS 704.069(2)

Docket No: 17-07001

NOTICE OF CONSUMER SESSION

Pursuant to Nevada Revised Statutes (NRS)
704.069(2), the Public Utilities Commission of Nevada (PUCN)
is required to hold at least one general consumer session in the
county with the second largest population within the state of
Nevada each calendar year. Washoe County is currently the
county with the second largest population within the state of
Nevada. The PUCN has designated this matter as Docket No.
17-07001. This Docket has been assigned to Chairman Joseph
C. Reynolds.

Pursuant to NRS 704.069(2), NOTICE IS HEREBY
GIVEN that the PUCN has scheduled a CONSUMER SESSION
to solicit public comments and questions to be held as follows:

THURSDAY, SEPTEMBER 14, 2017

8:00 p.m.

Washoe County Commission Chambers

1001 E. 9th Street, Building A

Reno, Nevada 89512

Interested persons may appear and be heard on any
topic concerning a public utility regulated by the PUCN. Public
comments may be limited to three (3) minutes per speaker at
the discretion of the PUCN. If within 15 minutes after the start
of the Consumer Session no member of the public has
appeared to participate or comment, the Consumer Session
may be adjourned. To accommodate individuals with sensory
meeting chambers who are sensitive to fragrance and chemical
products, please use the following sparingly or not at all:
perfumes, colognes, and perfumed body lotions; aftershave;
hair products, etc.

This Notice is available for public viewing on the

A Jane Lyon

To Commissioners of the PUC,

I am writing in reference to Docket #17-07001.

I am not happy with the decisions being made by your board. I do not feel it is fair for me to be paying for others who choose to put on solar panels. It is their choice, so they should pay the costs - not their neighbors!! I have my own bills to pay, and they have their own bills.

The same goes for smart meters that you encourage all to have on their homes. I do not have one, but yet my almost new meter was changed!?! You could not just leave the near new one on. Make work and a mess seems to be the goal of the PUC. Please note that I have not had a fire, as many smart meters have.

Solar energy may become the future, but right now it is not by any means! When solar energy can power and left off a jet plane from L. A. to New York, than I will consider it a serious energy source.

Smart meters are not so smart now either. Please stop pushing your customers into things that are not the answer and cause more trouble than they are worth!!

Sincerely,

/s/

A. Jane Lyon

Consumer Session

Esteemed PUC Commissioners:

Re: Docket #17-07001

Let me begin by saying I appreciate the Consumer Session being offered. But I was disappointed to find this year only the 6:00 pm session is being offered.

As luck would have it, I have a previously arranged prior commitment at 6:00 pm on September 14 and cannot attend. I most certainly would have attended a 1:00 pm session had you offered it, so I am very unhappy that you removed the opportunity for me to speak in person at a 1:00 pm session.

I also noticed there is a Consumer Session scheduled for Elko on the evening of September 20. Most secular calendars have in tiny print "Rosh Hashanah begins at sundown" on September 20th. This is one of two of the holiest days on the Jewish calendar. A 1:00 pm session would NOT be on a holy day, as the 6:00 pm is. Shame on you for not properly reading the calendar, for eliminating those people in Elko who cannot make the 6:00 pm Consumer Session, but could have made a 1:00 pm session.

Secondly, but most importantly, **I am VERY DISTRESSED to hear you will re-visit raising our rates in the North in January. Didn't we just have a rate increase? I thought we couldn't have rate increases but every 3 years? This newest proposal, taking base rates from \$12.76 to \$21.00 is in excess of a 60% increase!!!! Plus, an increase in kilowatt hours is being considered.**

That is usury, pure and simple. Just because you are not held accountable by the ratepayers (because you are appointed) doesn't mean you can raise rates an unconscionable level to make your monthly nut.

I know there is likely a shortfall in your revenue because of the subsidies to the solar customers. I would like to have solar, but I can't afford to have solar installed, so now I'll be paying for those who can afford solar installations so they can be subsidized????? Plus, solar customers get to sell their power overages back to you?

There is something very wrong with this picture. **I deeply resent another increase**, especially as it would be going to subsidize solar customers. Please reconsider the subsidies you have offered solar customers. Maybe cut those back a wee bit before looking to raise us again.

Or better yet, cut some of your other costs to cover the shortfall. Last I checked, you had an abundance of attorneys, including an attorney with 1 year experience coming in as Senior Counsel at a handsome salary. I suggest you start by cutting there, or at the very least, put a hiring freeze on your staffing.

I do so wish I could attend the Consumer Session in person on September 14 and tell you all of this in person, so it is recorded for the Legislature to view. But that is not possible. Please enter my remarks into the record.

Thank you,

/s/

RENO, NEVADA

THURSDAY, SEPTEMBER 14, 2017

6:00 P.M.

-oOo-

CHAIRMAN REYNOLDS: Good evening.

This is the time and place set for the annual consumer session by the Public Utilities Commission of Nevada.

It is Thursday, September 14th. We are here in the Washoe County Commission Chambers.

And right out of the gate, I would like to thank Washoe County for allowing the Public Utilities Commission of Nevada to use their facilities, to use their chambers.

My name is Joe Reynolds, and I'm the Chairman of the Public Utilities Commission, and will be presiding over this evening's consumer session.

With me up here at the dais is Miss Tammy Cordova, who is the Lead Counsel for the Regulatory Operations Staff at the Public Utilities Commission.

And on my other side is Mr. David Norris, who is a Senior Deputy Attorney General with the Bureau of Consumer Protection from the

1 Nevada Attorney General's Office.

2 The reason that the Public Utilities
3 Commission holds annual consumer sessions is, one,
4 it's required by the law, so our Nevada Revised
5 Statutes in 704.069 mandates that we hold an annual
6 general consumer session in Las Vegas, as well in
7 Washoe County; but the other reason for this is it
8 does provide a valuable opportunity for the
9 Commission, for the Attorney General, for our
10 Regulatory Operations Staff to hear the concerns,
11 the comments, and the feedback from the members of
12 the community.

13 We have here a court reporter, so
14 everything that is being said is being transcribed.
15 And this report and the transcription from it will
16 be transmitted to the Nevada State Legislature, and
17 will be a part of an official public record.

18 I'm going to go through and start. We
19 do have comment cards, and so I'm going to go in
20 the order that I received them.

21 If you haven't filled a comment card
22 out and would like to make a comment, please do so
23 during the course of the session, and they'll walk
24 that up to me.

25 And we would ask that all comments be

1 limited to five minutes per speaker.

2 The first commenter we have this
3 evening is Mr. Ralph Young.

4 RALPH YOUNG

5 A Public Commenter

6 Commented as Follows:

7 MR. YOUNG: Thank you for the
8 opportunity to express myself and explain my
9 complaint against NVEnergy.

10 CHAIRMAN REYNOLDS: Good evening.
11 Thanks for being here.

12 MR. YOUNG: My name is Ralph Young.
13 I'm a partner in the Young Brothers Farming and
14 Ranching entity in Central Nevada.

15 Some three years ago we requested that
16 the power company move four poles so that we could
17 put in another pivot irrigation system. The power
18 company said they were willing to move those poles,
19 but it would be at our expense because they had a
20 right-away to cross our private ground.

21 I requested a copy of the right-away on
22 multiple occasions, and never received any response
23 from the power company. I suspected that they
24 didn't have a right-away.

25 Later, as we were energizing another

1 well, the power company had indicated that they
2 needed to put a power pole on our property and so
3 they needed a right-away in order to energize that
4 well.

5 I agreed to that, and they sent the
6 right-away crew out, drew up the paperwork, and
7 when I prepared to sign the paperwork I realized
8 that they had also included the four poles that I
9 had asked them to remove previously and that I had
10 requested a right-away for.

11 When I asked why those were included,
12 they said, well, if you want to energize this well,
13 you have to sign this right-away, which included
14 the four other poles.

15 I feel that I was coerced into signing
16 that right-away, even on the poles that were under
17 contention, because they would not energize the
18 well that needed to be energized in order to
19 irrigate a crop.

20 I since tried to work with the power
21 company. They referred me to the Consumer
22 Protection Division. They have indicated -- or
23 they had a representative of the power company call
24 me, and he explained that because of Rule 9 that
25 the power company was not liable for the expense of

1 moving those poles, and suggested that I go through
2 the normal procedure and request the removal of
3 those -- I should say not just the removal, but the
4 relocation of those four poles.

5 My contention is, is that the power
6 company should relocate those four poles at their
7 expense, since they never did have the right-away,
8 and that I not have to expend the expense for that.

9 And I, like I say, in dealing with the
10 power company I've kind of come to a dead end as
11 far as finding any resolution, and for that purpose
12 I have come before the Commission to try to plead
13 my case.

14 CHAIRMAN REYNOLDS: Thank you for being
15 here.

16 One question I have. Have you
17 previously contacted the Public utilities
18 Commission regarding this matter?

19 MR. YOUNG: I did, and they referred me
20 to the Consumer Protection group.

21 In fact, I just spoke with a young lady
22 this morning, and she suggested that I file a
23 written complaint. I indicated to her that I had
24 spoken to them about a year previous, and that they
25 had responded with a member of the power company

1 calling me and saying -- you know, referring once
2 again to Rule No. 9, which I'm not real familiar
3 with, but he said because of that they didn't have
4 to pay for the relocation of the poles.

5 So when I get home - once again, I just
6 had that conversation this morning - I'll file a
7 written complaint, but I'm not very optimistic
8 about the results there, and for that reason I made
9 the determination to come here and plead my case.

10 CHAIRMAN REYNOLDS: I would like to ask
11 a member of the Public Utilities Commission,
12 Mr. Kostas, our Public Informations Officer, if you
13 can give him your current address and your current
14 phone number, I will make sure somebody from the
15 PUC contacts you.

16 MR. YOUNG: I appreciate that very
17 much.

18 CHAIRMAN REYNOLDS: Thank you for being
19 here.

20 (Public Commenter Excused.)

21 CHAIRMAN REYNOLDS: The next speaker we
22 have is Miss Linda Nerstad.

23 And also, if there is anyone from the
24 Commission that could bring a chair, perhaps, up
25 for the speakers, if they don't want to stand. Do

1 we have a chair that we could bring up here, if
2 they would like to sit and speak?

3 LINDA NERSTAD

4 A Public Commenter

5 Commented as Follows:

6 MS. NERSTAD: Hi. I'm Linda Nerstad --

7 CHAIRMAN REYNOLDS: Hi.

8 MS. NERSTAD: -- and I'm holding two
9 hats here. One, of a homeowner in Reno that
10 installed solar prior to the new laws created in
11 2015; and two, a business partner with a company,
12 Power PVC, and that is like an uber of energy that
13 helps providers of solar get quality homeowners
14 that are interested in being educated properly on
15 a platform, like an uber platform, with local
16 providers.

17 Of course, I was extremely excited when
18 the second PUC was put into office, or whatever you
19 call them. I'm not a politician, I'm only a
20 homeowner and a business person, but I'm not a
21 politician, and so I don't have all the right words
22 for you guys.

23 Anyway, with that - I'm fine - with
24 that, I was excited to be able to testify with a
25 PUC that listened to the people, and you did. I

1 testified in front of both PUC organizations; the
2 first did not.

3 So I appreciate and give an applaud to
4 Sandoval and to other people that brought you to
5 the forefront, and for you to listen to the public,
6 because I am absolutely passionate about allowing
7 Nevadans to have a choice in whether or not they
8 choose clean energy over dirty energy.

9 That's what power does. And we do it
10 in 40 of the states. For two years I was doing it
11 out of my state, and I was helping other people in
12 other states. Now I was released because of you
13 and your ability to listen and the vote to be in
14 the legislation, the people's vote.

15 I do not understand why you have the
16 people's vote in legislation go through in a
17 bipartisan vote, and now it's challenged by Nevada
18 Energy, which is owned by Warren Buffett. And I
19 don't understand how he can come through and Nevada
20 Energy can come through and have the display of,
21 oh, my gosh, these words in 405 don't make any
22 sense now.

23 Well, he had his chance, and it just
24 irritates me, you can hear that in my voice, that
25 he should be given another chance.

1 I want to applaud you,
2 Chairman Reynolds, for standing for the people's
3 choice. Don't go backwards. This State is sunnier
4 than California, and it should be given the same
5 rights. Let's do what's right. Don't go
6 backwards.

7 California voted for 100 percent
8 renewable energy by 2045 or 2040 - I can't remember
9 which, because I've been in so many other states -
10 and we can't even vote for renewable energy by,
11 45 percent by 2040.

12 Let's get with it, you guys. Do what's
13 right for Nevada.

14 Thank you.

15 CHAIRMAN REYNOLDS: Thank you for being
16 here tonight Miss Nerstad, and thank you for your
17 comments.

18 (Public Commenter Excused.)

19 CHAIRMAN REYNOLDS: The next speaker we
20 have is Mr. Bryan Beffort, if I pronounced that
21 correctly.

22 BRYAN BEFFORT

23 A Public Commenter

24 Commented as Follows:

25 MR. BEFFORT: Yes, pretty close.

1 CHAIRMAN REYNOLDS: And if you feel
2 more comfortable sitting in the chair, then just
3 move the mike to the hair.

4 MR. BEFFORT: Thank you.

5 Good evening. And thanks for taking
6 the time to hear folks today.

7 My name is Brian Beffort. I am the
8 Director of the Toiyabe Chapter of the Sierra Club,
9 and I represent over 30,000 Sierra Club members and
10 supporters in Nevada.

11 Every year ratepayers spend millions of
12 dollars to import coal to Nevada, which in turn
13 spews millions of tons of climate pollution into
14 the atmosphere, including mercury, sulfur dioxides,
15 nitrous oxides, and CO2. The Valmy coal plant is
16 among our State's largest sources of carbon
17 pollution, and these other polluters.

18 With the lifespan analysis projection
19 of the Valmy coal plant coming up in the next few
20 months, the Sierra Club urges your Commission and
21 Nevada Energy to expedite the retirement date of
22 Valmy. Unit 1 of Valmy should retire by 2019, to
23 align with Idaho Power's settlement; and Unit 2
24 must retire by 2023, in advance of Nevada's
25 deregulation.

1 As the Commission works to retire
2 Valmy, we urge the Commission to replace all
3 capacity with 100 percent renewable energy.

4 Nevada's abundant solar, geothermal,
5 and wind resources offer the potential for Nevada
6 to meet not only our own energy needs easily, but
7 also to export renewable energy to other regions.

8 In order to make this transition
9 easier, we also encourage the Commission to
10 establish policies that support the expansion and
11 development of rooftop solar, energy efficiency
12 programs, community solar gardens, and community
13 choice aggregation.

14 We have the opportunity to create
15 electricity sources that are good for the triple
16 bottom line, a clean environment, good jobs, and
17 lower long-term prices for consumers based on free
18 home-grown fuel that never runs out.

19 We can lead the nation on clean energy
20 and build a stronger local economy at the same
21 time, and you can make it help - I'm sorry - you
22 can make it happen.

23 Thank you very much for your time.

24 CHAIRMAN REYNOLDS: Thank you for your
25 comments. Thank you for being here tonight.

1 (Public Commenter Excused.)

2 CHAIRMAN REYNOLDS: The next speaker we
3 have is, I believe it's Miss Catherine Hancock.

4 CATHERINE HANCOCK

5 A Public Commenter

6 Commented as Follows:

7 MS. HANCOCK: I'm Catherine Hancock, a
8 60-year resident of Reno.

9 And I cheer the PUC on for at least
10 what it has done to promote renewable energy.

11 If we don't transition quickly to
12 renewable sources of energy -- and that's the
13 only thing I can think of that will make us dig
14 ourselves out of the climate mess that we're
15 into. I urge you to push for renewable sources,
16 push the power company, and push every way you
17 possibly can to transition away from dirty coal
18 and other fossil fuels toward clean renewable power
19 sources.

20 Thank you.

21 CHAIRMAN REYNOLDS: Thank you for being
22 here, Miss Hancock.

23 (Public Commenter Excused.)

24 CHAIRMAN REYNOLDS: The next speaker we
25 have is Mr. Tom Polikalas.

1 Good evening, Mr. Polikalas.

2 TOM POLIKALAS

3 A Public Commenter

4 Commented as Follows:

5 MR. POLIKALAS: Good evening,
6 Mr. Chairman. Thank you so much. It's a pleasure
7 to see you again.

8 And first off, I also wanted to echo my
9 thanks to the Public Utility Commission for
10 engaging with the public, as you represent us in
11 hearing the views of Nevadans.

12 I also want to commend the Public
13 Utility Commission Staff for their engagements at
14 the Nevada Legislature. There was certainly a
15 tremendous amount of education, and the opportunity
16 of engaging on cost tests and having Mr. Weir there
17 to go into some details on a lot of complex topics,
18 and it was very useful to see some of the very
19 positives pieces of legislation that were passed
20 that impact Nevada's ratepayers.

21 I'm here to both support and advocate
22 for utility demand side management programs. I
23 just came back from Las Vegas where there was a
24 statewide economic development conference, and
25 energy efficiency was highlighted as one of the

1 opportunities to increase the State's sustainable
2 economic growth and create jobs.

3 On the panel were representatives of
4 both utilities, and also the Governor's Office of
5 Energy, and we took a look at some of the ways that
6 energy efficiency is directly impacting retail
7 sales, helping consumers save money, and then
8 generate additional spending.

9 To that point, I would like to
10 specifically ask that the high efficiency lighting
11 program that you graciously have re-examined be
12 re-instituted sooner rather than later. And in
13 addition to the larger benefits of having high
14 efficiency lighting programs in place, I just
15 wanted to share I'm a renter, and I've moved
16 several times over the last couple of years. Each
17 time I go into a multi-family, you know, an
18 apartment in the new complex, without exception,
19 it's always been incandescent bulbs in the fixtures
20 when I moved in, and then I replace those with
21 LEDs, and then transport them; I pull out my LEDs
22 when I go to the next place.

23 And it's the opportunity there in
24 multi-family housing to have LEDs. So I just
25 wanted to put in a pitch for that program to be

1 brought back as quickly as possible.

2 The new opportunity through the
3 legislation that passed to take a look at
4 multi-family units, both on the gas side and on
5 the electric side, I think is a great opportunity
6 to make cost savings for Nevada's renters something
7 that we can move forward on.

8 The last point that I really want to
9 hit is Nevada is growing, and we're seeing a
10 tremendous amount of construction in the new
11 residential and new multi-family housing space, and
12 because construction is now more on an expedited
13 basis it would be tremendously beneficial to have
14 the rebate programs that once existed for high
15 efficiency new construction to be in place, so that
16 we can bring the attention of the construction
17 community to those practices that will help
18 consumers save money over the lifespan of those
19 buildings, which in many cases are going to be a,
20 you know, 40 to 50-year life span.

21 And then to that effect, too, I just
22 also wanted to give tremendous thanks and support
23 to the utility's education programs. As we're
24 taking a look at new building codes, and so forth,
25 once the State adopts a building code it doesn't

1 mean that immediately builders are going to start
2 building to that standard. First off, the local
3 jurisdictions have to adopt them, and then the
4 local builders and code officials need to get
5 up-to-speed, and without those utility education
6 programs we would be much further behind the curve.
7 And so what we can do to help educate various
8 sectors through those programs has tremendous, and
9 I believe very cost-effective benefits, to the
10 entire utility structure within the State of
11 Nevada.

12 And the last point to that effect,
13 Southwest Gas has had some very excellent rebate
14 programs in the past. I think that some of the
15 cost-effectiveness challenges have been based on,
16 in terms of passing cost tests, that gas is
17 relatively low right now, but forecasts from the
18 Energy Information Administration shows the
19 likelihood, because we're exporting gas now outside
20 the United States, that gas is likely to go up in
21 price, and since we're building homes that are
22 going to be using gas well into the 2040s,
23 2050s and beyond, it's prudent to bring back some
24 of those rebates, in our opinion, help. In
25 addition to providing gas savings, when there's

1 additional insulation in the homes you're going to
2 see not only the savings on the heating side of a
3 home, but there is also going to be electric
4 savings and air conditioning, too. So these are
5 programs that work very well together, and the
6 something that -- the past success is something
7 that hopefully we can bring back, and then build
8 on.

9 And with that, I definitely appreciate
10 your time, and also appreciate the new Commission
11 and the leadership. As we talk to consumers across
12 the State, people do notice the difference.

13 And thank you for your time.

14 CHAIRMAN REYNOLDS: Thank you,
15 Mr. Polikalas.

16 (Public Commenter Excused.)

17 CHAIRMAN REYNOLDS: The next speaker we
18 have is Mr. Fred Voltz.

19 FRED VOLTZ

20 A Public Commenter

21 Commented as Follows:

22 MR. VOLTZ: Good evening. For the
23 record, Fred Voltz.

24 Two things organizationally about the
25 meetings tonight. It would be very helpful if we

1 had videoconferencing simultaneously in all three
2 locations, Reno, Las Vegas, and Elko so that
3 everyone in the State can hear what's going on.
4 This is a similar capacity that the Legislature
5 does when it holds its meetings and deliberations,
6 as well as broadcasting it on their Website.

7 Also, we need a 1 p.m. session as well
8 as a 6 p.m., because there are people who will not
9 drive at the dark and don't like to venture out
10 after dark.

11 Two comments about yesterday's Energy
12 Choice Committee and the things that happened
13 there. It was very surprising that the PUC took
14 no leadership, from the beginning of the passage
15 of the Energy Choice Initiative last November, to
16 do some sort of analysis as information for
17 policymakers and for the public to know what the
18 implications would be of that initiative if it
19 passes again a second time in November of 2018.

20 It was also surprising to learn that
21 one of the companies that has already exited from
22 NVE, and has paid a substantial amount of money, in
23 the millions of dollars to do so, I cannot get data
24 to back up how the charge was calculated. The PUC
25 refuses to provide that information, and that is

1 kind of shocking. It's like going to a restaurant,
2 and somebody presenting you with a bill without
3 itemizing it, or going to the grocery store. That
4 really is unacceptable, and needs to be fixed.

5 Secondly, perhaps the people tonight
6 in the audience do not know this, but the PUC has
7 requested and received a \$4 million increase in its
8 personnel budget from the last two-year budget
9 cycle of the State to the current two-year budget
10 cycle of the State. It's also increased the mill
11 tax on ratepayers by over 41 percent.

12 This is really unacceptable, given the
13 fragile nature still of our economy in this State,
14 and the fact that most people are still trying to
15 recover from the great recession in their personal
16 households and businesses.

17 There has been no documentation or
18 justification that the PUC is overworked and needs
19 this level of increase, and that this will actually
20 serve the public interest.

21 The lack of demonstrated full staff
22 utilization begs another question, and that is the
23 PUC has layer upon layer of duplicate staff and
24 people. Each of the three Commissioners has a
25 personal Administrative Attorney, even though two

1 of the three Commissioners have been attorneys
2 themselves for several years, and a paralegal could
3 suffice at less expense. We also have a group of
4 Policy Analysts to serve the Commissioners; plus a
5 Staff of six attorneys in the General Counsel's
6 Office; and then the very dependent, not
7 independent, Regulatory Operations function, which
8 receives its funding from the same source as the
9 rest of the PUC, has attorneys of its own, plus
10 other staff.

11 Just as a garden needs pruning of its
12 deadwood, so does the PUC organization for
13 extraneous people.

14 And I would like to point out also that
15 three of the last four Commissioners appointed by
16 the Governor have had no prior utility regulatory
17 experience, which is a training problem and a
18 bringing up-to-speed problem of consider
19 proportions.

20 One of the other duties of the PUC,
21 which it does not seem to be doing, is to educate
22 legislators and other policymakers on energy
23 issues, as it's considered to be the main source of
24 information. Not once during the last legislative
25 session did the PUC voluntarily offer any

1 analytical information about proposed legislation,
2 nor any costing. And even after several bills
3 passed, the PUC has taken no initiative to analyze
4 or cost pieces of legislation and translate those
5 costs and the impacts upon electric rates across
6 the State. It would seem that this is very
7 critical information to have readily available,
8 both in creating and implementing regulations and
9 notifying the public of what lies ahead. Taking
10 this very relaxed approach to this information is
11 really not helping the Public.

12 And to all of those who are
13 cheerleaders for renewable energy I would offer
14 a challenge to them, both at the PUC and in the
15 audience tonight, and that is that no one has
16 figured out what 100 percent renewable energy is
17 going to cost ratepayers in the State. That is a
18 very important piece of information, whatever your
19 position is on this, and it would seem incumbent
20 upon the PUC to do that costing, without any
21 further delay, so that we know what we're looking
22 at, and can figure out what we want public
23 policy-wise one way or another.

24 Thank you.

25 CHAIRMAN REYNOLDS: Thank you,

1 Mr. Voltz. And thank you for your comments
2 tonight.

3 (Public Commenter Excused.)

4 CHAIRMAN REYNOLDS: The next member of
5 the public we have is Mr. Christopher Lanski.

6 CHRISTOPHER LANSKI

7 A Public Commenter

8 Commented as Follows:

9 MR. LANSKI: Hello.

10 CHAIRMAN REYNOLDS: Hi.

11 MR. LANSKI: Thank for having me.

12 Well, first of all, I would like to say
13 thank you. Our costs per megawatt or costs per
14 kilowatt as a customer has decreased over the last
15 three years for me as part of living in
16 multi-family housing.

17 I'm also probably the, if anyone ever
18 reads the appendix in the compliance report from
19 NVEnergy, I'm probably the one Green Rider Option 1
20 customer, so, for multi-family housing, so to the
21 other 18, if you're out there, hello.

22 I would also like to push the Public
23 Utilities Commission to encourage NVEnergy and
24 other energy providers to, instead of purchasing
25 out-of-state power, to create more jobs in our

1 local economy and more power at home. Over the
2 last 18 months, approximately 50 to 52 percent
3 of NVEnergy's electricity was purchased from the
4 Western power grid for Northern Nevada. It's kind
5 of silly, with this much abundant resource in
6 geothermal, solar, and wind, that we are only
7 producing half of our own electricity needs for
8 Northern Nevada.

9 As an article was cited in Forbes back
10 in 2015, large-scale solar power can be as cheap as
11 6.6 cents per - I can't remember if it's kilowatt
12 or megawatt - or as high as 12-point something.

13 Our State is already, for residential
14 customers, giving our customers electricity at
15 12 percent less than the national average, and our
16 commercial electricity costs are about 31 percent
17 less, from the 2015 EIA report.

18 So thank you. Since that's one of your
19 goals as the Public Utilities Commission is to keep
20 energy low, I appreciate it.

21 I do see 100 percent renewable being a
22 feasible option, while keeping electricity rates
23 still low for the consumer and less than the
24 national average.

25 And again, since Nevada has a very low

1 percentage of power consumed per individual, we're
2 actually 10th lowest in the nation, it's still
3 silly that 50 percent of our power is being
4 purchased from a grid, when we have jobs and
5 universities providing that education to handle
6 those jobs and to boost our local economy right
7 here in Northern Nevada.

8 Thank you for your time.

9 CHAIRMAN REYNOLDS: Thank you. Thank
10 you for being here tonight.

11 (Public Commenter Excused.)

12 CHAIRMAN REYNOLDS: The next commenter
13 we have is Miss Natalie Hernandez.

14 NATALIE HERNANDEZ

15 A Public Commenter

16 Commented as Follows:

17 MS. HERNANDEZ: Hello.

18 CHAIRMAN REYNOLDS. Hi.

19 MS. HERNANDEZ: My name is Natalie
20 Hernandez, and I'm the Northern Nevada organizer
21 with Battle Born Progress.

22 And I just wanted to start off by
23 thanking you all for working to implement new clean
24 energy laws. The eyes of the nation were on Nevada
25 this year as lawmakers enacted nine major clean

1 energy laws in a historic legislative session.
2 Nevada advanced its position as a clean energy
3 leader in the West and nationwide, and laid the
4 foundation for a strong and growing clean energy
5 economy in this State.

6 Voters, consumers, community members,
7 and lawmakers have overwhelmingly spoken. These
8 new laws provide an important framework for the
9 PUCN to advance renewable energy, next generation
10 technology, and efficiency in Nevada.

11 We know that you have your work cut out
12 for you in the coming months, and we thank you in
13 advance for your continued leadership and
14 recognition that clean energy means good Nevada
15 jobs, cleaner air, and stable energy prices.

16 Thank you.

17 CHAIRMAN REYNOLDS: Thank you,
18 Miss Hernandez.

19 (Public Commenter Excused.)

20 CHAIRMAN REYNOLDS: The next speaker we
21 have is Mr. John Friedrich.

22 I believe that Mr. Friedrich stepped
23 out, so I'll put his card aside, and then go to the
24 next one, and wait until Mr. Friedrich returns.

25 I have Mr. Tobi Tyler - or excuse me -

1 Miss Tobi Tyler. I apologize for that.

2 TOBI TYLER

3 A Public Commenter

4 Commented as Follows:

5 MS. TYLER: It's a common error.

6 Hi. My name is Tobi Tyler.

7 I would like to first support the
8 comments of the Sierra Club representatives here,
9 John and Brian.

10 I would also like to thank you for the
11 progress you've made thus far this year, especially
12 with respect to rooftop solar.

13 However, given the recent thing in my
14 mail, 4.13 percent as of March is coming from the
15 solar as per, you know, a breakdown of where all
16 the energy is coming from, is really -- it's
17 frankly pathetic, given the State that we're in and
18 the potential that the State has.

19 Rooftop solar should be further
20 encouraged with community solar, because destroying
21 fragile desert habitat with mega-solar facilities
22 is not the answer. I've seen these, and I hike in
23 the desert, and I appreciate those habitats, and
24 there's lots of life in the desert. So rooftop
25 solar is -- we should be seeing roofs with solar on

1 them; I'm sorry.

2 I would also like to draw your
3 attention to the grid, which is too divided up to
4 be able to share power. This is a quote: The grid
5 is physically interconnected but operationally
6 vulcanized. This was a quote from the High
7 Country -- the August edition of the High Country
8 News in the article: The bid for a big grid. It's
9 a very interesting article, and I highly recommend
10 reading it if you're not aware of it, or aware of
11 this magazine, which is great.

12 Anyway, it goes into the vulcanization
13 of the grid, and how it's really unfeasible, and
14 how California produced all this energy and they
15 had to shut -- and waste all this energy because of
16 the unworkability of the grid, as the Western grid
17 is these days.

18 And so I know NVEnergy is working on
19 this with some groups, read the article and it's in
20 there, but I would encourage you also to reject any
21 efforts or any proposal by NVEnergy to rate hikes
22 unnecessarily to -- with justification of
23 implementing the solar. Solar prices have come way
24 down, and there is no justification for this rate
25 increase.

1 There is another very good -- this
2 whole edition is about solar energy, and there's
3 another article in there about how other states are
4 trying to do this, and it's just wrong.

5 So those are my comments. Thank you.

6 CHAIRMAN REYNOLDS: Thank you,
7 Miss Tyler.

8 (Public Commenter Excused.)

9 CHAIRMAN REYNOLDS: And is there a
10 Mr. John Friedrich?

11 MR. FRIEDRICH: Yes.

12 CHAIRMAN REYNOLDS: Hello,
13 Mr. Friedrich.

14 JOHN FRIEDRICH

15 A Public Commenter

16 Commented as Follows:

17 MR. FRIEDRICH: I stepped out for
18 a second, and missed my call and I missed my cue.

19 CHAIRMAN REYNOLDS: Well, we got you up
20 here.

21 MR. FRIEDRICH: Thank you.

22 All right. So my name is
23 John Friedrich, I am with a group called Climate
24 Parents, and we're an organization of parents and
25 grandparents, 100,000-plus here in Nevada and

1 around the country, that strongly support faster
2 adoption of renewable energy, energy efficiency.
3 So I thank you, Chairman Reynolds, and the
4 Commission, for, you know, you taking action to
5 implement the new good policies we have in Nevada
6 for renewables as quickly as possible, and energy
7 efficiency as well, and thank you for this
8 opportunity to provide input.

9 I wanted to speak specifically tonight
10 in support of community solar, and I'm asking the
11 Commission to find ways, whatever is in your
12 authority, to implement kind of a pilot community
13 solar program.

14 As you know, the community solar bill,
15 SB 392, passed with strong bipartisan support out
16 of the State Senate and the Assembly.
17 Unfortunately, it was not signed into law by the
18 Governor, and he cited some concerns about how it
19 would align with rooftop solar legislation,
20 et cetera. And I think doing a pilot program here
21 in the next -- over the next couple years before
22 the next session, would help answer many of those
23 questions.

24 So I would ask you to open an
25 investigatory docket, or again, initiate a pilot

1 community solar program, together with NVEnergy.

2 And the key components of a good
3 community solar program would be, it should bring
4 new renewable energy capacity on-line, not just
5 trading credits; have a low income component; and
6 the financial benefits of lower cost renewables
7 should go directly to customers, they shouldn't
8 have to pay a premium for them.

9 And I have a more specific
10 recommendation, which it would be to explore a
11 pilot program with the Washoe County School
12 District. A representative there had planned to
13 use the community solar legislation to use Reno
14 schools as hubs of community solar projects
15 whereby, for example, if you had a 300 kilowatt
16 array installed at a school, and the school needed,
17 you know, a third of that, they would take 100
18 kilowatts of capacity, and the balance could go to
19 parents of students, or surrounding community
20 members, multi-family apartment complexes, everyone
21 who is not able to do rooftop for a variety of
22 reasons. That's why community solar fills such an
23 important need.

24 And I spoke with a representative there
25 again today, and he's still very interested in

1 exploring this possibility, and went further to
2 suggest that a good recommendation, to cite these
3 as a Title 1 school serving low income families, so
4 this would be really a way to expand solar access
5 to all to bring the growing solar economy to a part
6 of our community that does not have an opportunity
7 to participate in large scale arrays or rooftop
8 once again.

9 And the specific examples that he gave
10 where you might try this out, like say Stead and
11 Echo Loder Elementary Schools, or Pine Middle
12 School.

13 So again, I think the next practical
14 step might obviously be a request that you like
15 enter into a dialogue with someone like
16 Jason Geddes, the Sustainability Director of the
17 Washoe County School District; NVEnergy kind of
18 develop a program that obviously it would have to
19 be designed to financially work for the schools.
20 And they would -- and, you know, for example, not
21 like the Green Rider Program where they pay a
22 premium, but where they would benefit for lower
23 costs.

24 Solar arrays work for the community
25 members, and I think this would help answer many of

1 the questions that were raised, again by the
2 Governor in not signing that bill, hopefully laying
3 the groundwork to put in place a program that
4 works.

5 And if you're able to do this, I think
6 it would be an exciting and educational endeavor
7 for all the students of that school, who could tie
8 it to STEM education, for the teachers, for the
9 parents, for the surrounding community members, and
10 it would be a way to advance again the renewable
11 energy economy for all Nevadans.

12 So I would appreciate you looking into
13 that. I would be happy to follow up and, you know,
14 provide some ideas and some connections for those
15 folks who could help to make it happen on the
16 ground.

17 Our interests, again, would be to help
18 build community support, parents and community
19 participation in it, but it would have to be
20 designed in a way, with the schools and NVEnergy,
21 in a way that kind of works for all, and I think
22 there could be some creative solutions that come
23 out of an approach like that.

24 So thank you for your consideration of
25 that idea.

1 CHAIRMAN REYNOLDS: Thank you,
2 Mr. Friedrich.

3 (Public Commenter Excused.)

4 CHAIRMAN REYNOLDS: Are there any other
5 members of the public that would like to give
6 comment at this time? I have no further cards.

7 (No Response.)

8 CHAIRMAN REYNOLDS: For the record, I'm
9 hearing and seeing none.

10 GENERAL

11 COMMENTS

12 CHAIRMAN REYNOLDS: So I would like to
13 just give a few comments and a brief overview for
14 the folks that are here of what some of the things
15 at least we're working on at the Public Utilities
16 Commission.

17 This legislative session was truly
18 historic, I think and there are numerous new bills
19 passed out of the Legislature that are requiring
20 rulemaking, investigations, and implementing a
21 whole host of new energy programs and
22 responsibilities. Some of those very specifically
23 concern energy efficiency programs, battery
24 storage, renewable energy, net energy metering,
25 electric vehicle, infrastructures, looking at

1 carbon issues, and a whole host of others, those
2 are just a few, in addition to the general rate
3 cases that we are working on, and on top of that
4 with the Governor's Committee on Energy Choice
5 and the pending ballot question, the Public
6 Utilities Commission is very engaged on that, and
7 is working on that as well.

8 With respect to Mr. Friedrich's
9 concerns or ideas, as a father of four children in
10 the Washoe County School District, and a former
11 teacher myself, those are -- that is a great idea,
12 and some of those conversations are ongoing,
13 especially with the Governor's Office of Energy
14 and Director Angie Dykema, and so I would like to
15 have some of those connections made and move that
16 conversation forward.

17 I want to thank everyone for being here
18 tonight. Again, these comments will be transferred
19 to the Nevada State Legislature, and will be part
20 of the public record.

21 The Commission is having an additional
22 consumer session next week in Elko on September
23 20th, and our Commissioner Ann Pongracz will be
24 there. And so it's one of the few times we've made
25 it out to the rural counties, and so we're really

1 thrilled to be going out there.

2 The Public Utilities Commission
3 generally holds our public meetings every two weeks
4 in both Carson City and Las Vegas, they're
5 videoconferenced, and there is a public comment
6 period at the beginning of each meeting and at the
7 end of each meeting, and I would encourage anyone
8 who is interested to look at the agenda items and
9 come in front of the full Commission and give
10 public comment.

11 We are listening. And the Public
12 Utilities Commission, used to be called the
13 Public Service Commission, and so that "public
14 service" aspect is something that as the Chair
15 that I'm very -- that's very, very important to
16 me. I'll leave it at that.

17 And without anything else, again this
18 will conclude the annual consumer session. And
19 again, thank you very much for being here.

20 (At 6:44 p.m. the Consumer Session was Adjourned.)

**BEFORE THE PUBLIC UTILITIES
COMMISSION OF NEVADA**

PUCN-sponsored Consumer Session to be held in Clark County, Nevada, pursuant to NRS 704.069(2).

**Docket No. 17-07002
NOTICE OF CONSUMER
SESSION**

Pursuant to Nevada Revised Statutes (NRS) 704.069(2), the Public Utilities Commission of Nevada (PUCN) is required to hold at least one general consumer session in the county with the largest population within the state of Nevada each calendar year. Clark County is currently the county with the largest population within the state of Nevada. The PUCN has designated this matter as Docket No. 17-07002. This Docket has been assigned to Chairman Joseph C. Reynolds.

Pursuant to NRS 704.069(2), NOTICE IS HEREBY GIVEN that the PUCN has scheduled a CONSUMER SESSION to solicit public comments and questions to be held as follows:

**TUESDAY, SEPTEMBER 12, 2017
6:00 p.m.
Hearing Room A
Public Utilities Commission
of Nevada
9075 West Diablo Drive,
Suite 250
Las Vegas, Nevada 89148**

Interested persons may appear and be heard on any topic concerning a public utility regulated by the PUCN. Public comments may be limited to three (3) minutes per speaker at the discretion of the PUCN. If within 15 minutes after the start of the Consumer Session, no member of the public has appeared to participate or comment, the Consumer Session may be adjourned. To accommodate individuals who enter the meeting chambers who are sensitive to fragrance and chemical products, please use the following sparingly or not at all: perfumes, colognes, and perfumed body lotions, aftershave, hair products, etc.

This Notice is available for public viewing on the PUCN's website: <http://puc.nv.gov>; and at the PUCN's offices: 1150 East William Street, Carson City, Nevada 89701 and 9075 West Diablo Drive, Suite 250, Las Vegas, Nevada 89148.

Roxy A. Glover

September 12, 2017 Angel De Fazio Annual C/S

You deserve the best actor award for your performance last night regarding the 1pm consumer sessions. IT WAS STANDARD UNTIL YOU CAME ON BOARD! APPARENTLY WHEN THE MEDIA IS HERE YOU ADDRESS ITEMS YOU WERE INFORMED ABOUT BEFORE AND CONCERTEDLY IGNORED!!!!!! Not to neglect the fact, you are HOLDING a consumer session on the FIRST NIGHT of Rosh Hashana, in Elko at 6pm.

EVERY CHAIR before consumer sessions, came and PERSONALLY introduced themselves to people in the audience...guess, you can't associate with ratepayers?

Additionally, PRIOR to YOU coming, after public comments, they were ALLOWED to COMMENT AGAIN, if there were additional comments to be made, ANOTHER way you are SUPRESSING public comments.

You said last night that you weren't going to comment on the BCP's Motion, but, you rendered your endorsement of it. So HOW IS THAT not A CONFIRMATION OF YOUR VOTE?

You showed up at the legislature and ON THE RECORD endorsed BILLS! You are NOT allowed to cite opinions on pending legislature, you are ONLY allowed to provide information! This has been the STANDAND according to Cohen, Tanner.

Also, you went to the IFC and whined that you are OVER WORKED and UNDERSTAFFED, that your people are HIGHLY versed in utility regulation. YET, you put out ads for Senior Attorneys, with ONLY ONE YEAR of legal experience...this ON THE JOB TRAINING on the backs of ratepayers is UNACCEPTABLE! Bring them in as trainees, as your current Sr Attorneys are going to have to spoon feed them as to your NAC's etc. E-H-E

On 11/30/16 you DISSOLVED the Admin agenda and merged it with the Utility agenda. FYI, they are TWO separate practices, with the ADMIN agenda the PUBLIC COMMENTS ARE ALLOWED to be CONSIDERED, unlike with utility items.

BEFORE you came, ACCORDING to your INTERNAL MANUAL, policy section 1.3, there were LOGS of visitors, which you HAVE SUPPRESSED! So that there is NO RECORD now, of who is meeting with the PUC, so much for OPEN & TRANSPARENCY E-H-C

When people do records requests, you claim you are UNDERSTAFFED and CAN'T respond for MONTHS in your 5 day response letter. IF your people who

are addressing them, were actually working, not acting as your entourage to legislature meetings, where they SAY NOTHING, they can respond.

Your LIES about costs to obtain records, and EXTORTION fees for items that are ON THE COMPUTER, are being provided to the ACLU, showing your intention to impede access to readily available records.

Claiming you have to redact, when the redacting is DONE ON THE COMPUTER, you can then save the document under another name, then CLAIMING there are printing charges is FRAUD AND DECEPTION, when the requester asked for THEM to be either, emailed or in office inspection ON YOUR COMPUTER!!!!

The ONGOING use of citing NAC 703.115 AND 704.0097, to deviate from statute, claiming in the public interest, is not acceptable. This is NOT your 'we can't do, what we want to do with the evidence, so lets use this to get our way', NEEDS TO STOP!

When asked to define in the public interest, Joe goes into his catatonic stare, and avoids the question.

The PUC consistently falsified info to Nevada Employee Directory, when notified of the mistakes REFUSES to correct them. Claiming that it's the fault of that department, when in fact, when contacting the department who does the updates, cites 'we only enter what we are provided by the Commission's HR Department', which of course, is headed by Barbie! Unclassified Job Announcement

SR ATTORNEY (ASSISTANT STAFF COUNSEL)

The Public Utilities Commission of Nevada (PUCN) is seeking qualified applicants for the position of Senior Attorney in Staff Counsel. This is an unclassified, at-will, full-time exempt position within the State of Nevada.

About the PUCN: The PUCN is a quasi-judicial regulatory agency that, among other duties, ensures investor-owned utilities comply with all applicable state and federal laws. For more information about the agency, please visit the PUCN website at <http://puc.nv.gov>.

The Position's Key Areas of Responsibility:

- Handles complex legal issues
- Provides advice and counsel related to utility regulation including tariff review, proposed legislation and compliance with regulatory requirements.
- Reviews decisions of courts, other states and the federal government to determine precedent in regulatory legal matters.
- Advises Staff Counsel, the Director of Regulatory Operations, Commissioners and the Utilities Hearing Officer on probable legal or other impact of Commission decisions and proposed changes in rules, regulations and applicable laws.
- Reviews files, records and briefs.
- Prepares legal strategy and coordinates case execution.
- Formulates data requests.
- Reviews filings for legal adequacy and content.
- Prepares legal comments, briefs, responses to petitions, drafting stipulations, and other legal pleadings.
- Reviews, coordinates, and maintains Staff data requests and responses.
- Prepares testimony and other filings for compliance with Nevada Statutes and regulations.
- Assists in the development and/or review of proposed regulations and legislation.
- Represents Staff at hearings and workshops before the Commission.
- Cross examines witnesses.
- Prepares and executes protective agreements for receipt of confidential material.
- Maintains Staff confidential files.
- Provides other legal support and assistance to Staff divisions as necessary.
- Provides support to the Commission for legislative hearings and inquiries, to include preparing and presenting testimony to legislative committees.
- Makes presentations to various state, local and federal agencies.

NORTHERN NEVADA OFFICE
1150 East William Street

- May be expected to perform additional job-related duties and to have or develop additional specific job-related knowledge and skills.

Skills Required:

Must be highly professional, well-organized, self-motivated, and possess leadership skills. Must be able to work independently with minimal supervision as well as in a team environment in collaboration with other legal staff, engineers, auditors, and economists; compile and summarize information and prepare correspondence, periodic or special reports related to assignments; and contribute effectively to the accomplishment of the team or agency goals, objectives, and activities. Must possess skill in effective written and verbal communication; required skills also include planning, prioritizing and executing timelines without the need for supervision. Must be available for travel (typically up to 25% of the time).

Minimum Qualifications:

Graduation from an accredited law school and active membership in the Nevada State Bar and one year experience as an attorney.

Salary: Salary reflecting retirement (PERS) contributions by both the employee and the employer is up to \$110,132 (\$96,607 for employer only contribution). Salary offers are based on a wide array of factors such as a candidate's experience, skills, and education.

Benefits: The State benefits package includes enrollment into the Public Employees' Retirement System (www.nvpers.org), a choice of health insurance plans (www.pebp.state.nv.us), eleven paid holidays, and paid annual leave and sick leave, after appropriate waiting periods. Other optional benefits are also available, including a deferred compensation program.

Position Location: The position will be located in Las Vegas or Carson City.

Application Deadline: Application materials will be accepted until recruitment needs are satisfied. Final offers are contingent upon securing funding through the legislative process.

Unclassified Job Announcement

SR ATTORNEY (ASSISTANT GENERAL COUNSEL)

The Public Utilities Commission of Nevada (PUCN) is seeking qualified applicants for the position of Assistant General Counsel. This is an unclassified, at-will, full-time exempt position within the State of Nevada.

About the PUCN: The PUCN is a quasi-judicial regulatory agency that, among other duties, ensures investor-owned utilities comply with all applicable state and federal laws. For more information about the agency, please visit the PUCN website at <http://puc.nv.gov>.

The Position's Key Areas of Responsibility:

- Provides legal advice to commissioners, hearing officers, administrative attorneys, and administrative personnel.
- Researches legal issues and drafts internal memoranda; designs and implements agency policies/procedures consistent with Nevada's Administrative Procedure Act, Public Records Act, Open Meeting Law, Ethics in Government Law, and State Personnel System, as well as the Americans with Disabilities Act and federal employment law.
- Drafts public briefing memoranda, presents recommendations to the Commission, and drafts resulting orders.
- Represents the Commission in state and federal courts; develops litigation strategies; engages in settlement negotiations; drafts pleadings; presents oral arguments.
- Responds to public records requests and Open Meeting Law complaints.
- Monitors and drafts legislative proposals; represents the Commission in legislative meetings; testifies during hearings.
- Provides legal counsel regarding employment and personnel matters; participates in interviewing and hiring.
- Monitors and participates in federal regulatory proceedings.
- May be expected to perform additional job-related duties and to have or develop additional specific job-related knowledge and skills.

NORTHERN NEVADA OFFICE
1150 East William Street

EXHIBIT C

PUBLIC UTILITIES COMMISSION
INTERNAL ADMINISTRATIVE
POLICY MANUAL

Policy 1.3

OFFICE VISITORS

POLICY: Office Visitors

PURPOSE: To clarify the appropriate procedures for office visitors.

PROCEDURE: The Commission regularly has visitors in the building. All visitors except those attending a noticed Commission proceeding (i.e. agenda meeting, hearing or prehearing conference) are required to check-in and check-out with reception and issued a visitor badge. This includes employee family members, delivery and repair personnel and individuals that are here for scheduled and non-scheduled meetings with Commission employees.

A. Reception Procedures:

1. The visitor is greeted and asked how he/she can be helped. If the visitor is here to attend a noticed proceeding, he/she is directed to the appropriate hearing room.
2. If the visitor is here for any other reason, the following steps are to be followed:
 - a) The visitor is provided with a Visitor Badge and asked to wear the badge during the visit and to return prior to leaving the building.
 - b) The appropriate employee is notified that the visitor has arrived.
 - c) The visitor is then asked to have a seat and informed that the employee will be with them shortly.

B. Escorting Visitors

1. The visitor must be escorted from and back to reception. At no time, shall a visitor be allowed unescorted within the non-public employee work areas.

Policy effective: November 5, 2010

SANDOVAL'S SOLAR SCAM

The Governor has been out in the sun too long. Instead of letting a sleeping subsidy lie, he signed legislation "restoring net metering, which compensates electricity customers at the retail rate for the excess solar power that they generate and remit to the grid," the Wall Street Journal reports.

Governor Sandoval would never be accused of being a free-market zealot, but, it's not exactly even middle-of-the-road Republicanism to reinstate a subsidy that unfairly shifts costs to lower-income customers without rooftop solar panels.

The Governor doesn't really care about Joe Solar Sixpack, it's his friend and taxeater Elon Musk that Sandoval is moving the sun and moon for. "More than consumers, solar rooftop-leasing companies like Sunrun, Vivint and Tesla are the primary beneficiaries of net metering," the WSJ writes. "These companies install solar panels for free and pocket all of the subsidies, including the 30% federal renewable-investment tax credit."

If you are still unsure as to who he is looking out for, the Governor took pen in hand and signed the bill, "at a private warehouse owned by Tesla, a company upon which Nevadans have bestowed \$1.3 billion in tax breaks," writes Bob Stump, former Arizona congressman.

"Sandoval's signature highlights all that is untenable about rooftop solar leasing, in which customers sign long-term contracts to lease rooftop solar systems with little or no upfront costs," Stump explains. "Rooftop solar ranks among the least cost-effective forms of renewable energy. Yet its lobby holds powerful sway among the political class: Without a smorgasbord of generous tax credits, subsidies and local incentives granted by politicians and regulators, leased rooftop solar would make zero financial sense for consumers."

SolarCity was purchased by Musk's car company,

Tesla, but that hasn't taken off the bulls-eye federal authorities have on the company. The Daily Caller reports, "SEC's investigation places the company squarely in the hairs of the financial regulators who have grown increasingly concerned about SolarCity's bizarre business model." It turns out, the company has been "'inundated' with thousands of lawsuits across the country, all of which named SolarCity as a defendant in foreclosure actions," writes Chris White.

SolarCity and Sunrun send salespeople door to door and harass customers at Home Depot attempting to hook them into the solar scam. Of course, these unwitting customers are promised lower electricity bills, but it turns out just the opposite. And since customers lease the solar panels and the lease rate increases 2.9 percent a year, solar customers are upside down in a hurry on leases as long as 20 years.

The solar business is all about harassment and force. Customers around the country complain that solar panel companies threaten litigation if the consumers didn't proceed with solar panel transactions. Others claimed solar company representatives threatened to lien their homes. The media loves solar and constantly touts nonsense about sun power taking over the world, but the business would burn up and fry away without subsidies which fleece consumers.

But everything is sunny over at the Governor's mansion. Sandoval did what Master Musk told him, prop up a failing business model with government force. **LW**

BEFORE THE PUBLIC UTILITIES COMMISSION OF NEVADA

PUCN-sponsored Consumer Session to be held in Clark)
County, Nevada, pursuant to NRS 704.069(2).) Docket No. 17-07002
_____)

NOTICE OF CONSUMER SESSION

Pursuant to Nevada Revised Statutes (NRS) 704.069(2), the Public Utilities Commission of Nevada (PUCN) is required to hold at least one general consumer session in the county with the largest population within the state of Nevada each calendar year. Clark County is currently the county with the largest population within the state of Nevada. The PUCN has designated this matter as Docket No. 17-07002. This Docket has been assigned to Chairman Joseph C. Reynolds.

Pursuant to NRS 704.069(2), NOTICE IS HEREBY GIVEN that the PUCN has scheduled a CONSUMER SESSION to solicit public comments and questions to be held as follows:

TUESDAY, SEPTEMBER 12, 2017
6:00 p.m.
Hearing Room A
Public Utilities Commission of Nevada
9075 West Diablo Drive, Suite 250
Las Vegas, Nevada 89148

Interested persons may appear and be heard on any topic concerning a public utility regulated by the PUCN. Public comments may be limited to three (3) minutes per speaker at the discretion of the PUCN. If within 15 minutes after the start of the Consumer Session, no member of the public has appeared to participate or comment, the Consumer Session may be adjourned. To accommodate individuals who enter the meeting chambers who are sensitive to fragrance and chemical products, please use the following sparingly or not at all: perfumes, colognes, and perfumed body lotions, aftershave, hair products, etc.

This Notice is available for public viewing on the PUCN's website: <http://puc.nv.gov>;
and at the PUCN's offices: 1150 East William Street, Carson City, Nevada 89701 and 9075 West
Diablo Drive, Suite 250, Las Vegas, Nevada 89148.

By the PUCN,

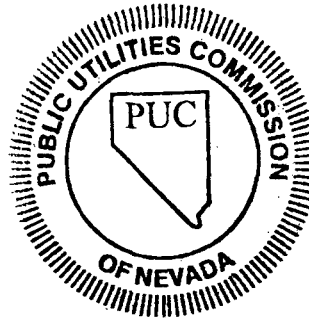

TRISHA OSBORNE,
Assistant Commission Secretary

Dated: Carson City, Nevada

7/13/17

(SEAL)

Good evening, my name is Rudy Zamora, and I'm the Program Director of Chispa, which is Nevada's conservation voice for the Latino community.

I'm also speaking today as part of a broad community of clean energy advocates that has been active in supporting new policies to advance our state's leadership on this critical issue. The coalition includes groups like Faith Organizing Alliance, Uplift Foundation, Institute for a Progressive Nevada, Nevada Conservation League, the Sierra Club, and the League of Women Voters, just to name a few. We recognize investing in Nevada's local clean energy resources – like solar, wind, and geothermal – will mean lower costs, a diverse energy portfolio, and local jobs.

The eyes of the nation were on Nevada this year, as lawmakers enacted nine major clean energy laws in a historic legislative session. Nevada advanced its position as a clean energy leader in the west and nationwide, and laid the foundation for a strong and growing clean energy economy in the state.

The vast majority Voters, consumers, community members and lawmakers have spoken. These new laws provide an important framework for the PUCN to advance renewable energy, next-generation technology, and efficiency in Nevada. I want to thank you for the leadership you've already demonstrated as you prepare to implement these critical new laws.

We're especially excited about the new energy efficiency measures. Saving power and saving money are things that every consumer can relate to, and by creating jobs for audits and retrofits, it's a win-win for our economy. Folks in low-income communities have had a limited ability to gain all the health and financial benefits that come from energy efficiency programs, so we ask you to please weigh all of the compounding benefits that come from targeting assistance to those households as you implement those new laws in the coming months.

Thank you for rejecting the recent proposal that would have not only hampered the rooftop solar industry, but burdened all of us with higher fixed bills. A rate change like that reduces the incentive and potential for energy efficiency, and it hurts low-income and low-use

1 LAS VEGAS AND CARSON CITY, NEVADA

2 TUESDAY, SEPTEMBER 12, 2017

3 6:02 P.M.

4 -oOo-

5 CHAIRMAN REYNOLDS: Good evening.

6 This is the time and place set for the
7 Public Utilities Commission of Nevada's annual
8 consumer session in Las Vegas pursuant to Nevada
9 Revised Statute 704.069.

10 The Commission is required to take in
11 any comments from members of the public on any
12 matters concerning public utilities in the State of
13 Nevada.

14 My name is Joe Reynolds. I'm the
15 Chairman of the Public Utilities Commission of
16 Nevada.

17 And good evening, everyone.

18 Miss Debbie Bartgis, are you there in
19 Carson City?

20 MS. BARTGIS: Yes, I am Chairman.

21 Thank you.

22 CHAIRMAN REYNOLDS: I would just like
23 to note for all the commenters tonight that we are
24 creating a public record here, so any comments that
25 you say are being transcribed, and pursuant to

1 Nevada Statutes will be submitted to the Nevada
2 State Legislature as a record of these proceedings.

3 I do have comments here, comment cards,
4 from members of the public, and I'm going to call
5 them in order. We ask that you limit your comments
6 to five minutes.

7 And also here we have sitting
8 Mr. Andy Hall on behalf of the PUCN Regulatory
9 Operations Staff.

10 Good evening.

11 MR. HALL: Good evening, Chairman.

12 CHAIRMAN REYNOLDS: And we also have
13 Mr. Michael Saunders, a Senior Deputy Attorney
14 General from the Attorney General's from the Bureau
15 of Consumer Protection.

16 MR. SAUNDERS: Good evening, Chairman.

17 CHAIRMAN REYNOLDS: Good evening.

18 MR. SAUNDERS: And welcome, members of
19 the public.

20 CHAIRMAN REYNOLDS: And I would ask
21 also when anyone is coming up, just to make sure
22 you speak clearly into the microphone.

23 And so I'm going to start, and I have a
24 Mr. James Katzen.

25

1 JAMES KATZEN
2 a public commenter
3 commented as follows:

4 MR. KATZEN: Good evening Mr. Chair,
5 and other members --

6 CHAIRMAN REYNOLDS: Good evening.

7 MR. KATZEN: -- that are here at the
8 meeting.

9 I waited 30 years to be able to afford,
10 and the engineering to catch up, to put solar cells
11 on my roof. About a year ago -- well, it was about
12 two years ago, the viability of rooftop solar was
13 about completely destroyed. In the meantime, the
14 company that put the solar cells on my roof went
15 out of business, and took my warranty with them.

16 All of last year I was charged extra
17 money by Nevada Energy because I was costing the
18 grid some sort of fee, some sort of ghost fee that
19 other people were not paying. That has since been
20 dis-proven. When I over-generate in the afternoon
21 when the highest use is in the summertime, my
22 excess energy, because I do not run air
23 conditioning in my house, I have a very efficient
24 evaporative cooler which keeps me fine, my energy
25 goes from my house through my meter, is counted,

1 goes up the pole in the corner of four properties,
2 and goes to one of those four properties, or - one
3 of those three other properties - or all three of
4 them.

5 In the meantime, from the time that it
6 leaves my meter and they pay me what pittance I
7 get, there's more money added to the situation and
8 they make a profit. So I don't see how I'm costing
9 them any money.

10 We have been a net rooftop -- a net
11 green energy exporter in Nevada for more than
12 80 years from our dam that we built from Boulder
13 City, Nevada, by Nevadans, and it almost all goes
14 to California, which is wrong and should be
15 renegotiated. That's another matter.

16 To finish, there were 41 bills passed
17 by the State Legislature that would have benefitted
18 the State of Nevada that were vetoed by the
19 Governor, and some of them had to do with solar
20 energy and how it's perceived and how it's used and
21 how it can be implemented.

22 We have an abundance of solar energy
23 that hits Nevada and raises the temperature 20 to
24 30 degrees every day of the year virtually
25 uninterrupted. We have an opportunity to continue

1 our green energy exports to other states. We don't
2 have any coal or natural gas or oil deposits in
3 this State. We do have the sun. We can use that
4 sun, and we can get in the forefront of the world
5 by covering many of the rooftops. We don't need
6 all this fancy business out in Jean necessarily,
7 with a 20-mile wire bringing it back to town; we
8 could have distributed generation and become king
9 of green energy in a very short period of time, and
10 myself, as well as 27,000 other people, have
11 already invested a considerable amount of money in
12 doing that, and there is a lot of people waiting in
13 the wings that want to do that and would like to do
14 that.

15 And I frankly think that anybody that
16 puts up a house of more than \$100,000, or a
17 \$150,000, or whatever floor you want to put on it,
18 should put up at least enough to offset -- enough
19 green energy to offset 75 percent of their usage.
20 I think that should be a law. I think that it's
21 very easy for us to do that. It adds almost no
22 cost to a substantial house, and I think that's
23 something that we need to think about in the
24 future.

25 Thank you for your time.

1 CHAIRMAN REYNOLDS: Thank you,
2 Mr. Katzen.

3 And I would ask someone from the PUCN
4 Staff to perhaps get with Mr. Katzen with respect
5 to his complaint regarding the solar installer.
6 Pursuant to Assembly Bill 405, as of September 1st
7 the PUCN does accept those complaints and is going
8 to be tracking those.

9 MR. KATZEN: Thank you. I will do
10 that.

11 CHAIRMAN REYNOLDS: Thank you.

12 (Public Commenter Excused.)

13 CHAIRMAN REYNOLDS: The next speaker we
14 have is Miss Angel DeFazio.

15 Good evening, Miss DeFazio.

16 ANGEL DeFAZIO
17 a public commenter
18 commented as follows:

19 MS. DeFAZIO: Good evening, Joe.

20 Thank you for giving us five instead
21 of three minutes. I really enjoy these consumer
22 sessions, because I can vent my spleen. So let's
23 go for it.

24 You deserved last night the best actor
25 award for your performance, because you never

1 respond to us. When I brought up the 1 o'clock
2 consumer session, you made it sound like it was a
3 revelation and, oh, yes, I think it's a good idea.
4 We had those every time prior to you coming on
5 board.

6 Now every Chair, before consumer
7 sessions, always came and personally introduced
8 themselves to the ratepayers. Are you afraid of
9 us? I'm only five feet tall. I shouldn't be a
10 threat to you.

11 Additionally, prior to you coming,
12 after public comments, they were allowed to comment
13 again if there were additional comments to be made,
14 which we didn't get.

15 Last night you said that you aren't
16 going to comment on the BCP motion, but you
17 rendered your endorsement of it, so how is that not
18 a confirmation of your vote?

19 You showed up at the Legislature, and
20 on the record you endorsed bills that you were for
21 them, but you're not allowed to cite opinions on
22 pending legislation; you're only allowed to provide
23 information. This has been the standard, according
24 to former GCs Jan Cohen and Carolyn Tanner.

25 Also, you went to the IFC and whined

1 you were overworked and understaffed, that your
2 people are highly versed in utility regulation, yet
3 you put out ads for senior attorneys with one year
4 of legal experience. This on-the-job-training on
5 the backs of ratepayers is unacceptable; bring them
6 in as trainees, as your current senior attorneys
7 are going to have to spoon-feed them as to your
8 NACs, et cetera.

9 On 11/30 you dissolved the admin agenda
10 and merged it with the utility. FYI, they're two
11 separate practices. In the admin agenda public
12 comments are allowed to be considered, unlike with
13 utility items.

14 Before you came, according to your
15 internal manual policy, Section 1.3, there were
16 logs of visitors, which you now have suppressed so
17 that there is no record now of who is meeting with
18 the PUC. So much for open and transparency.

19 When people do records requests, you
20 claim you're overstaffed and can't respond for
21 months in your five-day response letter. If your
22 people who are addressing them were actually
23 working and not acting as your entourage at
24 legislative meetings where they say nothing, they
25 can respond.

1 The subterfuge about costs to obtain
2 records is nothing short of extortion fees for
3 items that are on the computer, are being provided
4 to the ACLU, showing your intention to impede
5 access to readily available records.

6 Claiming you have to redact, when the
7 redacting is done on the computer, then you can
8 save the document under another name, then claiming
9 there are printing charges, it's fraud and
10 deception when the requester asks for them to be
11 either e-mailed or office inspection on your
12 computer.

13 The ongoing use of citing NAC 703.115
14 and 704.0097 to deviate from statute, claiming it's
15 in the public interest, is not acceptable. This is
16 your: We can't do what we want to do with the
17 evidence, so let's use this to get our way. This
18 needs to stop.

19 When asked to define, in the public
20 interest, you just stare like you're doing now, and
21 you never respond.

22 The PUC consistently falsified
23 information to the Nevada employee directory; when
24 notified of the mistakes, refuses to correct them,
25 claiming that it's the fault of the department,

1 when in fact when contacting the department who
2 does the updates cites: We only enter what we are
3 provided by the Commission's HR; of course, which
4 is headed by Barbie.

5 I have a 42-page exhibit that I would
6 like its entirety to be added to the transcript,
7 and also to the docket.

8 Thank you.

9 CHAIRMAN REYNOLDS: Thank you for being
10 here tonight, Miss DeFazio.

11 (Public Commenter Excused.)

12 CHAIRMAN REYNOLDS: The next speaker we
13 have is Rudy Zamora.

14 RUDY ZAMORA

15 a public commenter

16 commented as follows:

17 MR. ZAMORA: Good evening. My name is
18 Rudy Zamora, and I am the Program Director of
19 CHISPA, which is Nevada's conservation voice for
20 the Latino community.

21 I'm also speaking today as a part of a
22 broad community of clean energy advocates that has
23 been active in supporting new policies to advance
24 our State's leadership on this critical issue.
25 This coalition includes groups like Faith

1 Organizing Alliance, the Uplift Foundation,
2 Institute for a Progressive Nevada, the Nevada
3 Conservation League, the Sierra Club, and the
4 League of Women's Voters, just to name a few.

5 We recognize investing in Nevada's
6 local clean energy resources like solar, wind, and
7 geothermal will mean lower costs, a diverse energy
8 portfolio, and local jobs.

9 In Nevada this year, as lawmakers
10 enacted nine major clean energy laws, in a historic
11 legislative session, Nevada advanced its position
12 as a clean energy leader in the West and
13 nationwide, and laid the foundation for a strong
14 and growing clean energy economy in the State.

15 The vast majority of voters, consumers,
16 and community members, and lawmakers have spoken.
17 These new laws provide an important framework for
18 the PUC to advance renewable energy, next
19 generation technology, and efficiency in Nevada.

20 I want to thank you for the leadership
21 you've already demonstrated as you prepare to
22 implement these critical new laws.

23 We're especially excited about the new
24 energy efficiency measures, saving power and saving
25 moneys are things that every consumer can relate

1 to, and by creating jobs for audits and retrofits,
2 it's a win-win for our economy.

3 People in low income communities have
4 had a limited ability to gain all the health and
5 financial benefits that come from energy efficiency
6 programs. So we ask you to please weigh in all the
7 benefits that come from targeting assistance to
8 these households as you implement these new laws in
9 the coming months.

10 Thank you for rejecting the recent
11 proposal that would have not only hampered the
12 rooftop solar industry, but burden all of us with
13 higher fixed bills; a rate change that reduces the
14 incentive and potential of energy efficiency, and
15 it hurts low income and low use consumers the most.
16 I ask you to maintain this position during the
17 general rate case.

18 I want to ask everybody here today in
19 support of these new clean energy policies to
20 please stand to show support.

21 As you can see, we have quite a few
22 people in the room --

23 CHAIRMAN REYNOLDS: If you don't mind
24 my interrupting you, if everyone can stand again so
25 we can get a count, just because we're making a

1 written record.

2 For the record, I count 16 people
3 standing up in the audience. I hope my numbers are
4 actually --

5 UNIDENTIFIED SPEAKER: There are 22.

6 CHAIRMAN REYNOLDS: You got 22?

7 So strike that from the record. 22.

8 22 folks stood up in support of Mr. Zamora's
9 comments.

10 So go ahead. Sorry for interrupting
11 you.

12 MR. ZAMORA: No problem.

13 We want to respect your time, not
14 everybody who stood up is going to speak, but we
15 wanted to make sure that you see how many -- how
16 passionate the community is about doing everything
17 possible to make clean energy a top priority in our
18 State.

19 Thank you.

20 CHAIRMAN REYNOLDS: Thank you.

21 (Public Commenter Excused.)

22 CHAIRMAN REYNOLDS: The next speaker
23 that we have is Mr. Mel Green.

24 Good evening, Mr. Green.

MELVIN GREEN
a public commenter
commented as follows:
MR. GREEN: Good evening, Mr. Chairman
and members of the board. My name is Melvin Green,
principal at KME Architects.
KME's mission is to respond to the
needs of our clients by providing eco-friendly
ideas and aesthetic-pleasing facilities through
sustainable design.
Clean energy is essential to the
longevity of this Earth, as well as providing a
clean and safe source of power for generations to
come, including my grandkids and their grandkids.
We have worked on numerous projects
here in Las Vegas that incorporate both passive and
active sustainable design.
I'm here to advocate for the continuing
support for community solar in low income
neighborhoods. According to the American
Department of Health and Human Services, low income
groups pay 9.2 percent more on their average
electricity bill as compared to the average
household. These disadvantaged communities are
also more susceptible to the hardships resulting

1 from extreme weather disasters, due to their
2 limited resources and lack of economic stability.
3 Solar energy can help these disadvantaged
4 communities by reducing their electricity bills,
5 thereby improving their quality of life.

6 If we desire to create a truly
7 sustainable future, then we must not omit some
8 people from access to renewable resources and clean
9 living. If solar is to be a real contributor to a
10 sustainable policy, it must focus on improving
11 equality to the residents that need it the most,
12 the low income community.

13 We also must define the value of
14 community solar. From a policy perspective, what
15 we have not successfully stated or discussed is the
16 true value of community solar. The true value is
17 the value of generating power near the location
18 that it will eventually be consumed, local energy
19 produced by our community solar, remove the
20 transmission loss, and eliminate distribution
21 costs.

22 Some of the benefits include increased
23 jobs and technology within the community, lower
24 energy bills for the residents, low income tenants,
25 and for businesses in the community, increased

1 purchasing power for the community as well.

2 We would respectfully request your
3 consideration to do anything in your power under
4 existing laws to encourage shared solar projects to
5 go forth to benefit Nevada's community.

6 Thank you for your time.

7 CHAIRMAN REYNOLDS: Thank you,
8 Mr. Green.

9 (Public Commenter Excused.)

10 CHAIRMAN REYNOLDS: The next speaker
11 that we have is Miss Ana Boyd.

12 ANA BOYD

13 a public commenter

14 commented as follows:

15 MS. BOYD: Good evening. Hello.

16 CHAIRMAN REYNOLDS: Hi, Miss Boyd.

17 Can you speak into the microphone just
18 a little bit more?

19 MS. BOYD: Yes. Good evening. My name
20 is Ana Boyd, and I am Sierra Club organizer
21 representing the over 62,000 Sierra Club members
22 and supporters in Nevada.

23 Every year millions of ratepayer
24 dollars are spent on imported coal that spew
25 millions of tons of climate pollution into the

1 atmosphere. The Valmy coal plant is among our
2 State's largest source of carbon pollution. With
3 the lifespan analysis projection of the Valmy coal
4 plant coming up in the next few months, Sierra Club
5 members would urge the Commission and NVEnergy to
6 expedite the retirement date of Valmy.

7 Unit 1 of Valmy should retire by 2019
8 so they will be in alignment with the Idaho Power
9 settlement; and unit 2 must retire by 2023, in
10 advance of the impending Nevada deregulation.

11 As the Commission works towards the
12 Valmy retirement, we urge the Commission to replace
13 all capacity with 100 percent clean energy. Nevada
14 has so much clean energy potential that we cannot
15 only meet our own energy needs easily with solar,
16 geothermal, and wind, but also export renewable
17 energy to other states. We can lead the nation on
18 clean energy, and build a stronger local economy at
19 the same time. Now is the time to commit to a
20 coal-free Nevada. This will allow Nevada to get
21 moving on building clean energy jobs, clean up our
22 air, and get rid of the State's biggest source of
23 climate pollution.

24 Thank you very much.

25 CHAIRMAN REYNOLDS: Thank you,

1 Miss Boyd.

2 (Public Commenter Excused.)

3 CHAIRMAN REYNOLDS: The next speaker
4 that we have is Mr. Jerry Holiday.

5 JERRY HOLIDAY
6 a public commenter
7 commented as follows:

8 MR. HOLIDAY: Good evening,
9 Mr. Chair --

10 CHAIRMAN REYNOLDS: Good evening.

11 MR. HOLIDAY: -- and other members of
12 the Commission. Thank you for allowing me to speak
13 today.

14 Again, my name is Jerry Holiday. I'm a
15 resident of Las Vegas, and a member of the board of
16 directors of the Uplift Foundation of Nevada, a
17 local 501(c)(3).

18 And I would like to start my remarks
19 with it is apparent that energy efficiency works.
20 NVEnergy has spent, in the last nine years,
21 \$424 million on energy efficient and demand
22 response programs. Households and businesses are
23 expected to realize a \$576 million savings because
24 of their investments.

25 To quote Mahatma Gandhi, the true

1 measure of any society can be found in how it
2 treats its most vulnerable members.

3 I want to tell you about one of
4 the community projects that we do annually with
5 H.P. Fitzgerald Elementary, a local school. We
6 provide, working with the staff, just simple
7 things. One is we do a shoe drive that we provide
8 shoes for the students. The staff is -- it's a
9 Title 1 school, which means that at least
10 40 percent of the families, the students meet the
11 minimum -- are below the minimum household income
12 limits to qualify as a Title 1 school.
13 H.P. Fitzgerald is 100 percent below that minimum
14 standard. That means all students are below the
15 household guidelines to meet Title 1 requirements.

16 So with that, they identify the
17 students in most-need for this program. They
18 provide us the information on the students, and we
19 basically purchase those shoes, a very small thing
20 that you would think was not very important.
21 However, what we find - we've been doing this there
22 for a few years - we find students that are wearing
23 shoes that they barely fit because they've outgrown
24 them, we find shoes that are taped because there
25 are holes in the bottom, we find -- we have a

1 number of students who are repeat customers, that
2 is we see them every year, and a lot of times
3 they're wearing the shoes that we provided them
4 the previous year; the point being - and this is
5 just one case that I am personally aware of - is
6 these are families that have to make decisions
7 between paying their rent, buying food, and shoes
8 and clothing for their children.

9 So with that, the new laws will help
10 those in need, and even those who are not. With
11 the energy efficiency bills specifically, it
12 directs the Public Utility Commission to set an
13 energy savings goal for NVEnergy; allows you to
14 approve energy efficient programs if they are part
15 of an overall energy efficiency plan that is
16 cost-effective, that means it makes financial
17 sense; it requires that at least 5 percent of
18 total utility energy expenditures assists low
19 income households and energy savings.

20 And my understanding is there are funds
21 that are currently available for that. There are
22 no additional funds that need to be generated or
23 put forth for that effort.

24 It directs utilities at the PUCN to
25 account for non-energy benefits of energy

1 efficiency programs, and allows you, the
2 Commission, to ensure the utilities are not harmed
3 financially when they help their customers save
4 energy. So there should not be any losses to them
5 based on them enforcing these laws and these
6 programs.

7 The laws would allow lower costs for
8 hard-working citizens of our State. It should and
9 it will start spurring a more economic growth with
10 increased employment and higher paying jobs, and it
11 will obviously help some of our citizens, such as
12 the parents of the students at H.P. Fitzgerald who
13 really need that assistance.

14 Thank you again, Mr. Chair, and
15 committee members, for allowing me to testify
16 today.

17 CHAIRMAN REYNOLDS: Thank you,
18 Mr. Holiday.

19 (Public Commenter Excused.)

20 CHAIRMAN REYNOLDS: The next commenter
21 we have is Miss Sheila Stirling.

22 SHEILA STIRLING

23 a public commenter

24 commented as follows:

25 MS. STIRLING: Good evening. I'm

1 Sheila Stirling. I'm a long-time resident of
2 Las Vegas.

3 And Las Vegas is pretty much the
4 capital of the resource of the sun, but ratepayers
5 should not have to subsidize solar.

6 Also, it seems that there has been
7 intentional actions to impede public comment by
8 eliminating the 1 o'clock, the 1 p.m. sessions.
9 Because the media was here, it was acted like
10 having the 1 p.m. sessions was a really great idea,
11 but actually it was you who originally removed it.

12 So it is the hope that the PUCN will
13 start acting on behalf of all the ratepayers. And
14 in fact I would ask, can you define actually what
15 is meant by, "in the public interest"?

16 CHAIRMAN REYNOLDS: Are you asking me a
17 question?

18 MS. STIRLING: Yes.

19 CHAIRMAN REYNOLDS: We're here, this is
20 your time to give public comments, and defining
21 "public interest" would be a broad I think
22 philosophical discussion. But these are your
23 comments, and so --

24 MS. STIRLING: Okay.

25 CHAIRMAN REYNOLDS: -- go ahead. This

1 is your time.

2 MS. STIRLING: Okay. Well, that's what
3 I had to say, because I was just curious because so
4 much of what happens, as the rates keep continuing
5 going up and up and up, and people are subsidizing,
6 the ratepayers are subsidizing this and subsidizing
7 that, and yet we keep hearing it's in the public
8 interest.

9 So part of what I would like to say is
10 that it would be an interesting thing to find out
11 exactly how the PUCN views, "in the public
12 interest." But that can be left for another time.

13 So thank you for allowing me to
14 comment.

15 CHAIRMAN REYNOLDS: Thank you,
16 Miss Stirling.

17 (Public Commenter Excused.)

18 CHAIRMAN REYNOLDS: The next commenter
19 we have is Miss Jane Feldman.

20 JANE FELDMAN
21 a public commenter

22 commented as follows:

23 MS. FELDMAN: Commissioners, thank you
24 for having this consumer session tonight.

25 My name is Jane Feldman. I'm here as a

1 clean energy future advocate. I am an advocate for
2 clean energy because it's one of the things that
3 people can do to push back against climate
4 breakdown, climate chaos.

5 I've been involved as an individual for
6 a long time with the energy industry in Nevada, and
7 I've closely followed the actions of the PUC and
8 the State Legislature. And the two things that I
9 think that are most important for us, like
10 Rudy Zamora mentioned in his list of actions, are
11 energy efficiency programs and community solar, in
12 particular, because energy efficiency programs and
13 community solar programs can benefit all of us and
14 not just those of us who have the money to put
15 solar panels on our houses or businesses.

16 The low income people should -- low
17 income families, homes, businesses can benefit from
18 energy efficiency programs, and should probably
19 benefit to at least 5 percent of whatever energy
20 efficiency program would be required for this
21 State, and I want to be able to look forward to
22 that for myself and for the State of Nevada and a
23 clean energy future.

24 Community solar kind of comes at the
25 question of clean energy and low income families,

1 people in businesses, from a different direction
2 because that would allow people to have access to
3 the solar industry without having to put solar
4 panels on their businesses or homes. It would
5 remove barriers. So for people who don't have a
6 good southern exposure on their homes or
7 businesses, this shared community resource of
8 community solar can provide access to do that kind
9 of equity work that we're looking for in a clean
10 energy economy.

11 Another thing, there are all sorts of
12 community solar spin-offs that would be good for a
13 whole lot of reasons. If we could put community
14 solar on top of parking lots, for example, which we
15 can't do right now, we would have covered parking
16 in so many more places, and we have these empty
17 parking lots that have all this in-solaration, and
18 we're letting it go to waste. We could be putting
19 all that to work.

20 Now for me myself as an individual, I
21 was an early adopter of solar panels for my home.
22 My mother passed away in 2009, and I got an
23 inheritance that was a windfall for me, and my
24 first reaction was yes, I'm going to get solar
25 panels. Otherwise, I wouldn't have been able to

1 afford solar panels on my home. So I've been
2 through the ups and downs with the industry in
3 the past six years that I've had solar panels since
4 2011.

5 One of the things that I did a year ago
6 was I bought a Chevy Volt so that I no longer had
7 to pay gas stations, and I bought a Volt because I
8 am a single-car family, and I want to be able to
9 visit my son in Reno, and so I've got a car that
10 has a gas tank that recharges the battery and
11 qualifies as an electric vehicle.

12 And I charge it at night on my solar
13 panels, and I'm very proud of that, and I made a
14 huge capital investment to make that happen. And
15 yet, since every single kilowatt that I use comes
16 from the NVEnergy grid, I am only as clean as what
17 the utility is. And so my Chevy Volt is only
18 16 percent clean. I would like to know that I am
19 contributing, yes, to that 16 percent, but I would
20 like to know that my clean Volt and my clean house
21 is actually pushing Nevada into a clean energy
22 future, and that's my hope for the PUC and the
23 State of Nevada.

24 Thank you so much.

25 CHAIRMAN REYNOLDS: Thank you for being

1 here. And thank you for your comments.

2 (Public Commenter Excused.)

3 CHAIRMAN REYNOLDS: The next commenter
4 we have is Mr. Fred Voltz.

5 FRED VOLTZ

6 a public commenter

7 commented as follows:

8 MR. VOLTZ: Good evening. For the
9 record, Fred Voltz.

10 CHAIRMAN REYNOLDS: Good evening.

11 MR. VOLTZ: The first comment I would
12 like to make is we really need a videoconference
13 with one consumer session, it would be much more
14 efficient, where Reno, Las Vegas, and Elko are all
15 connected at the same time, and everyone can hear
16 everybody else's concerns, which tend to be very
17 different by regions of the State. This body has
18 the videoconferencing equipment, and it could
19 easily be linked up at Truckee Meadows, as well as
20 Great Basin Colleges.

21 Secondly, I would like to suggest that
22 the Southern part of the State, with
23 70-plus percent of the people, needs two of the
24 three Commissioners. We've had the Governor
25 recently appoint somebody else from Reno, Sparks,

1 that really is inequitable and an anachronism from
2 a time when the North was the most populous and the
3 most important part of the State. That is no
4 longer the case; it's never going to be again. The
5 interests here in the South are very different, and
6 they need to have adequate representation.

7 And you, Chair, having been the
8 Governor's personal General Counsel, and now your
9 wife is, certainly have the ear of the Governor to
10 suggest such things.

11 Next I would like to suggest that why
12 aren't the court reporter's transcripts being
13 posted on the PUC's Website? If the ratepayers
14 want to see what's in the records of those hearings
15 and proceedings, they have to pay a second time,
16 when they've already paid once through the hidden
17 mill tax that's on the kilowatt hour and therm
18 charges in our utility bills.

19 Another problem with the PUC and the
20 way it's been operating, and not just for the year
21 you've being here Chair, but before, is but now,
22 especially, we've been appointing and hiring many,
23 many inexperienced people to important positions,
24 and their needs to be a trainee salary grade and
25 job description created for each of these

1 positions, because the folks who are in them are
2 operating in a much lower productivity level, and
3 the time required from fully qualified, experienced
4 Staff to make the trainees fully functional is
5 material, and they should not be paid a full salary
6 if they are not fully qualified from the start of
7 their position.

8 Another issue, the PUC's administrative
9 decisions of a material nature need to be made
10 public at public meetings and discussed there, as
11 they were in until two years ago when they were
12 removed to private deliberations, without even
13 informational notices to ratepayers of decisions.

14 Regarding attendance at conferences and
15 at Legislative Committees, the PUC has been sending
16 an excessive number of representatives, both at the
17 2/17 and 2/16 NARUC conferences, and six people
18 recently at the Interim Finance Committee meeting,
19 where there was only one or two people who had an
20 active role. The other folks can receive a report
21 from those who do attend, or listen in on their
22 computers if the topics directly impact their jobs.

23 By the way, where is the public report
24 about what was learned at the conferences to see
25 what we're getting for the money that we, the

1 ratepayers, are having to spend for the attendance
2 at these conferences, which could be useful to know
3 in terms of your decisionmaking?

4 Ratepayers also need Regulatory
5 Operations financial people to develop internal
6 competencies in depreciation analysis, rather than
7 repeatedly spending \$387,000 at each biennium on
8 external consultants.

9 There unfortunately has been no public
10 disclosure of repeat outage information by area,
11 and more importantly the corrective actions being
12 taken by the regulated utilities. And this is
13 information the public should know about. It's
14 been brought up before. Nothing has been done
15 about it over three regimes now that I'm familiar
16 with at the PUC.

17 I'm also concerned with another
18 administrative issue, and that's the total external
19 legal bills that cost the ratepayers \$100,000 last
20 year when the resigned PUC General Counsel was sued
21 for her actions while working as a PUC employee.
22 She was allowed to unilaterally pick expensive
23 external lawyers without any oversight by the PUC
24 or having one of the Attorney General Deputies
25 represent her.

1 Another issue that hasn't been revealed
2 is the number of grants that are applied for and
3 received, but not publicly reported, to buy such
4 items as plastic hats. To the extent the PUC is
5 applying for grants, the public should know about
6 that.

7 And perhaps the most important thing of
8 all that has been a continuing problem through many
9 sessions of the Legislature and many discussions
10 about many of the bills, is none of us ignore the
11 price of goods and services we purchase, and the
12 PUC has an unequivocal duty to inform educate the
13 public and Legislature on energy issues. The
14 biggest failing in this regard has been the
15 complete lack of initiative in fully costing,
16 expressed as increases in rates, the migration to
17 100 percent renewable choice in energy, as well as
18 energy choice. No Nevadan can make an informed
19 choice without the data the Public Utilities
20 Commission thus far has not used -- or has refused
21 to provide voluntarily.

22 Thank you.

23 CHAIRMAN REYNOLDS: Thank you,
24 Mr. Voltz.

25 (Public Commenter Excused.)

1 CHAIRMAN REYNOLDS: The next speaker we
2 have is Miss Marici Bolleq. Excuse me.

3 MARICI BOLLEA
4 a public commenter
5 commented as follows:

6 MS. BOLLEA: Hi there.

7 CHAIRMAN REYNOLDS: Hello.

8 MS. BOLLEA: Can you hear me?

9 CHAIRMAN REYNOLDS: Yes, I can.

10 MS. BOLLEA: Name is Marici Bollea, and
11 I'm a resident of Las Vegas of the State of Nevada.

12 I have been a rooftop solar owner since
13 March of 2015. I love my rooftop solar, and I feel
14 that I am providing a benefit for my neighborhood
15 and for the State in general, because I don't have
16 to have coal or natural gas, or anything like that,
17 imported on my behalf; I don't have to use water
18 from the Lake, or anything like that, on my behalf
19 because I'm providing for my energy.

20 I understand that under net metering
21 that NVEnergy does provide me some electricity at
22 night, but I am actually over-producing on most
23 days, so I sell my energy to them and then they
24 sell it back to me or to my neighbors.

25 Anyway, I just want to thank you for

1 recently, in your recent decision, standing up for
2 rooftop solar owners in Nevada, and for ratepayers
3 in general.

4 The myth that somehow solar, rooftop
5 solar owners are taking advantage of ratepayers in
6 general, that we're getting some kind of a good
7 deal, whatever, is I feel a nefarious plot by
8 NVEnergy, which they started at the very beginning
9 of this. And I'm not going to go into detail about
10 what I think about that.

11 Anyway, in general, I just want to
12 encourage the Public Utility Commission to support
13 community solar. I think that is a major front
14 that we should all address in this community. It
15 benefits everybody. I don't really see a downside
16 to it at all.

17 So with that, I will end my comments.
18 Thank you.

19 CHAIRMAN REYNOLDS: Thank you.

20 (Public Commenter Excused.)

21 CHAIRMAN REYNOLDS: The next speaker is
22 Miss Tancredi.

23 MS. TANCREDI: You get a gold star; you
24 pronounced my name.

25 CHAIRMAN REYNOLDS: I used to be a high

1 school teacher.

2 LORETTA TANCREDI

3 a public commenter

4 commented as follows:

5 MS. TANCREDI: Hello. How are you?

6 CHAIRMAN REYNOLDS: Good evening.

7 MS. TANCREDI: You're still smiling;
8 that's a good sign.

9 Thank you so much for taking the time
10 to listen to all of us this evening.

11 I want to correct something, some
12 misinformation that was spoken here by a lady a
13 little earlier, saying, intimating that solar users
14 are being subsidized in some way by non-solar
15 users. The Brookings Institute, which is one of
16 the most prestigious scientific organizations in
17 the country, has done a study that proves that
18 solar users are not being subsidized by non-solar
19 users.

20 In fact, we save non-solar users
21 millions of dollars a year because of the clean
22 energy we reproduce, with no regeneration laws,
23 that goes directly to our neighbors; NVEnergy
24 doesn't have to build new infrastructure, which
25 they really like to do because they make an

1 up-charge of 10 percent every time they do.

2 I think we all are aware of the fact,
3 the reason why we continue to debate this issue is
4 because of the stockholders. I don't believe
5 utilities should be privately owned; I think they
6 should be publicly-owned, I think, that's my
7 opinion on that, because whenever the stockholders
8 are involved, and you have to please them and show
9 profits, it's usually done on the backs of the
10 ratepayers.

11 I think we should stop wasting dollars
12 on importing dirty fossil fuels. My home is only
13 1560 square feet. I've had solar since December of
14 2015. My tiny, little house, over 20 years, will
15 offset 290,000 pounds of CO2 from the atmosphere.
16 That's equivalent to driving a car 290,000 miles.
17 And it also eliminates the need for 45,000 gallons
18 of water that NVEnergy would have to use to produce
19 energy for my house over that 20-year period.

20 I really want to speak in support of
21 community solar, because that's a win-win situation
22 for everybody.

23 First of the all, there is so many
24 people that complain over, everybody's on welfare,
25 and they don't want to, you know, have people

1 supporting other people. Low income people are,
2 99 percent of them, I believe, are on welfare
3 because they don't make enough money, the minimum
4 wage isn't high enough; their utility bills take up
5 75, 80 percent of their whatever little income they
6 do have. If they had community solar and could
7 lower their utility bills, then that would give
8 them more money to support their kids, not have to
9 work four jobs, they could be home when their kids
10 get home from school so the kids don't run around
11 loose in the neighborhood, get arrested, go to
12 jail, and who pays for that?

13 Invest in community solar now and
14 education now to prevent spending money on jails in
15 the new future. This is not rocket science. Okay?

16 So I just feel that I'm really grateful
17 that you have kept NVEnergy from raising the rates
18 on us. And I understand they've put in another
19 request for another rate hike. And I think that
20 what you've done so far is admirable, and you have
21 really supported this community, and I hope that
22 you will continue to do that in the future with our
23 undying gratitude.

24 Thank you.

25 CHAIRMAN REYNOLDS: Thank you for being

1 here tonight.

2 (Public Commenter Excused.)

3 CHAIRMAN REYNOLDS: The next commenter
4 we have is Miss Linda Buckardt.

5 LINDA BUCKARDT
6 a public commenter
7 commented as follows:

8 CHAIRMAN REYNOLDS: Hello.

9 MS. BUCKARDT: Hi. My name is
10 Linda Buckardt. I'm from Henderson.

11 I am very perturbed that you've chosen
12 to eliminate a day-time consumer session.
13 Apparently, the public is to be seen and not heard.

14 You owe all your jobs to the Governor
15 and legislators. You're adding two more lawyers at
16 taxpayers' expense, which is not very good.

17 I'm going to submit an article for the
18 record, which is dated August 2017, by Liberty
19 Watch Magazine, titled: Sandoval's solar scam.
20 It's by George Harris. The Governor has been out
21 in the sun too long. Instead of letting a sleeping
22 subsidy lie, he signed legislation restoring net
23 metering, which compensates electricity customers
24 at the retail rate for the excess solar power they
25 generate and remit it to the grid. That's from the

1 Wall Street Journal reporter.

2 Government Sandoval would be accused of
3 being a free-market zealot, but it's not exactly
4 even middle of the road, Republicanism to reinstate
5 a subsidy that unfairly shifts costs to lower
6 income customers without solar panels, and those of
7 us on fixed incomes.

8 The Governor doesn't really care about
9 Joe solar six-pack; it's his friend and tax eater
10 Elon Musk that Sandoval is moving the sun and the
11 stars for. More than consumers, solar rooftop
12 leasing companies like Sunrun, Vivint, and Tesla
13 are the primary beneficiaries of net metering, so
14 the W -- the Wall Street Journal writes. These
15 companies install solar panels for free, and pocket
16 all the subsidies themselves, including the
17 30 percent Federal Renewable Investment Tax Credit.

18 If you are still unsure as to who is
19 looking out for whom, the Governor took pen in hand
20 and signed the bill at a private warehouse owned by
21 Tesla, a company upon which Nevadans have bestowed
22 \$1.3 billion in tax breaks.

23 Sandoval's signature highlights all
24 that's untenable about rooftop solar leasing, in
25 which customers sign long-term contracts to lease

1 rooftop solar systems, with little to no upfront
2 cost, uh-huh, he explains, Stump explains. Rooftop
3 solar ranks among the least cost-effective forms of
4 renewable energy. The only thing renewable is the
5 sun; the panels themselves are not. They will wear
6 out; become inefficient. Yet the lobbyists want
7 powerful sway among the political class. Without a
8 smorgasbord of generous tax credits, subsidies, and
9 local incentives granted by politicians and
10 regulators, leased rooftop solar would make zero
11 financial sense for customers.

12 SolarCity was represented by Musk's car
13 company Tesla, but that hasn't taken off the bull's
14 eye Federal authorities have on the Company.

15 The Daily Caller calls the reports:
16 FCC's investigation places the company squarely in
17 the hairs of financial regulators who have grown
18 excessively concerned about SolarCity's bizarre
19 business models. It turns out the company has been
20 inundated with thousands of lawsuits across the
21 country, all of which name Solar City as a
22 defendant in foreclosure actions.

23 And SolarCity and Sunrun send
24 salespeople door-to-door, harass customers, harass
25 me on the Internet constantly for free solar, go to

1 Home Depot, attempting to hurt them on the solar
2 system, with the promise of lower electricity
3 bills. But it turns out just the opposite, and
4 since customers lease the solar panels, and the
5 lease rate increases 2.9 percent a year, solar
6 customers are upside down, in their hurry on leases
7 as long as 20 years.

8 The solar business is all about
9 harassment and force. It's all about politics.
10 Customers around the country complain that solar
11 panel companies threaten litigation if the
12 customers didn't proceed with solar panel
13 transactions. Others claim solar company
14 representatives threatened to put liens on their
15 homes.

16 The media loves solar, and constantly
17 tells nonsense about solar power taking over the
18 world, but the business would burn up and dry away
19 without subsidies and fleecing the customers.

20 But everything is sunny over at
21 Sandoval's mansion.

22 And I know a person who put solar
23 panels on her house, a couple did, he died, she had
24 to sell the house, and she couldn't do it because
25 there is a lien on her house. Now she lost a whole

1 lot of money on that house in the process of trying
2 to sell it.

3 And, thank you.

4 CHAIRMAN REYNOLDS: Thank you.

5 (Public Commenter Excused.)

6 CHAIRMAN REYNOLDS: The next speaker
7 that we have is Mr. Jonas Rand.

8 And there seems to be a little bit of a
9 problem with our clock this evening, so I'll try to
10 keep track, if it's not working, of the five
11 minutes, and let the speaker know when their time
12 is about up.

13 So thank you for being here, Mr. Rand.

14 JONAS RAND

15 a public commenter

16 commented as follows:

17 MR. RAND: Thank you for having this
18 session.

19 My name is Jonas Rand. I live in
20 Las Vegas, Nevada, and I'm here to speak on the
21 topic of the Valmy coal plant.

22 As you may know, the Valmy coal plant
23 is located in Northern Nevada, and I'm here to urge
24 that NVEnergy should shut down the Valmy coal
25 plant. The Valmy coal plant is co-owned by

1 NVEnergy and Idaho Power, and I just wanted to say
2 that it is of the utmost concern that all of the
3 dirty fossil fuels, especially coal, be phased out
4 as soon as possible. And it's for the, you know,
5 betterment of the environment that it should be
6 shut down.

7 And I'm here to present some facts
8 about coal itself. So regarding the Valmy coal
9 plant itself, according to a report prepared by
10 NVEnergy, there were 5,002,900 cubic yards of coal
11 ash found at Valmy during inspection in October
12 13th, 2016. This was a report that was published
13 on December 8th, 2016. And an estimated 96,524
14 tons of coal ash waste was produced between January
15 and October 2016. And to give you an idea, that's,
16 you know, 1.8 tons is estimated to be 1 cubic yard
17 of coal ash.

18 The waste created by a typical coal
19 plant includes more than 125,000 tons of coal
20 ash, and 193,000 tons of sludge from the smokestack
21 scrubber each year. Nationwide, at least
22 42 percent of coal production waste ponds and
23 landfills are unlined. And data published by the
24 U.S. Energy Administration indicates that all forms
25 of coal, the cumulus, sub-cumulus, anthracite and

1 lignite, all produce more CO2 emissions than
2 gasoline, than propane, than natural gas, and than
3 diesel.

4 And what we're witnessing all around
5 the world today is an eco-side, a, you know,
6 continued use of fossil fuels and nuclear energy,
7 no matter what the consequences are to the Earth,
8 is dangerous and suicidal for the entire human
9 race, and any effort that contributes to stripping
10 away the stranglehold that fossil fuels,
11 particularly coal and nuclear energy, have over
12 cities and over human life in general, ought to
13 be supported and pushed through as fast as
14 possible. It is urgent for everyone that coal be
15 phased out.

16 And as for the jobs, which is the
17 biggest concern that often comes up with shutting
18 down power plants, you know, we live in a country
19 where the actual like percentage of energy that is
20 renewable is less than that of fossil fuels and
21 nuclear, so we can expand the renewable sector and
22 train the folks that work at these power plants to
23 work at renewable and green power sources, and
24 instead of trying to continue to uphold and
25 perpetuate these obsolete sources of energy as the

1 major sources of energy throughout the country, we
2 ought to focus on making all energy sources
3 100 percent renewable. And the consequences, if we
4 don't, are very, very dangerous for all of human
5 humanity's future.

6 We're witnessing events that, you know,
7 around the world, such as hurricanes, the
8 hurricanes, the four hurricanes in the Gulf of
9 Mexico region that would not even be happening at
10 the rate that they're happening were it not for
11 climate change.

12 Thank you very much.

13 CHAIRMAN REYNOLDS: Thank you,
14 Mr. Rand.

15 (Public Commenter Excused.)

16 CHAIRMAN REYNOLDS: The next speaker we
17 have is Miss Louise Helton.

18 LOUISE HELTON
19 a public commenter

20 commented as follows:

21 CHAIRMAN REYNOLDS: Good evening.

22 MS. HELTON: Good evening. First of
23 all, my name is Louise Helton.

24 I would like very much to thank you for
25 having public sessions like this. To me, this

1 really puts the "public" in Public Utility
2 Commission, and I know that I speak on behalf of
3 everybody just to be grateful for these
4 opportunities to speak directly to you.

5 UNIDENTIFIED SPEAKER: Can you get
6 closer to the mike?

7 MS. HELTON: I can, I absolutely can,
8 because I know you're all dying to hear what I have
9 to say.

10 CHAIRMAN REYNOLDS: Thank you.

11 MS. HELTON: These jewels of wisdom
12 need to be shared.

13 CHAIRMAN REYNOLDS: Thank you.

14 MS. HELTON: My name is Louise Helton,
15 and I'm the owner of a small company called
16 1 Sun Solar here in Las Vegas. We founded this
17 Company back in 2007, and so it has been almost ten
18 very tumultuous years in this industry. We don't
19 call it the solar coaster for nothing.

20 You know, anyone who was, I don't know,
21 bold enough, or maybe not so bright to start a
22 business right at the beginning of the worst
23 recession in history, maybe I should have thought
24 better of that, but nonetheless it's been worth the
25 effort, because I believe passionately in the

1 industry and wanting to build it as successfully
2 as possible for all Nevadans to be able to enjoy
3 solar power, which we have such an amazing
4 abundance of.

5 We've had so many different policy
6 decisions that have come and gone through various
7 bodies through the State, and I want to thank you
8 for your thoughtful approach that you took in the
9 most recent decisions. We were really hopeful that
10 after the year that we have had in building a case
11 for solar to the Legislature, and all of the
12 citizens' support that was demonstrated, that that
13 would have been enough to have convinced the
14 Legislature to pass on some laws that would make it
15 very easy for the Public Utility Commission to make
16 decisions that would allow this industry to come
17 back, and we were very gratified at what happened
18 during the last legislative session.

19 And then in the docket that was most
20 recently decided, your decision was really very
21 much appreciated by all of us in the industry, as
22 well as the customers that we hope to have, because
23 we were seeing a definite lull. Even after the
24 legislation had passed, there was still enough
25 uncertainty with what would happen with the rates

1 that we have not had a huge rushing back of
2 business to support the industry. We've been able
3 to hold on, and we're getting more calls, we're
4 getting prospective sales, but it is not -- we're
5 not being swamped with new customers at this point.
6 So we're still very -- in a very tentative
7 position, I must say.

8 I was disappointed that we are looking
9 at the general rate case, and as far as the large
10 amount of money that is being requested for the new
11 basic service charge. Having had solar installed
12 on my house in 2010, you become very aware of those
13 basic service charges when that's the bulk of your
14 power bill, and to see them go from \$8 and change,
15 to \$10 and change, now to \$12, and then wanting to
16 move up to, you know, 17 and change, is really
17 troubling for me and my customers, and I think just
18 not for solar customers but for customers in
19 general. That seems to be the equivalent of them,
20 for every service in place in town, selling an
21 extra 4,000 kilowatts a month to each person. This
22 is all happening at a time where I don't see how
23 you justify that type of increase where we know
24 that none of us are -- we know that we're not
25 seeing runaway inflation in any other part of our

1 economy, we know that our wages are stagnant,
2 that's for sure, so to see that huge of an increase
3 in the basic service charge just doesn't seem
4 supportable on the face, in my opinion.

5 So we appreciate very much the
6 opportunity to come before you tonight, and I
7 would just, on behalf of the industry and my future
8 customers, I would appreciate if you all would
9 consider in this general rate case not raising the
10 general -- the basic service charge to such a high
11 level.

12 And with that, I conclude my remarks.

13 CHAIRMAN REYNOLDS: Thank you,
14 Miss Helton.

15 MS. HELTON: Thank you.

16 (Public Commenter Excused.)

17 CHAIRMAN REYNOLDS: Those are -- or we
18 might have another request?

19 I have an additional card from
20 Miss Melissa Hatfield.

21 MELISSA HATFIELD

22 a public commenter

23 commented as follows:

24 MS. HATFIELD: Hello.

25 CHAIRMAN REYNOLDS: Good evening.

1 MS. HATFIELD: I wasn't planning on
2 speaking. I just wanted to put in my 2 cents worth
3 about I live in a condo, like an apartment, and I
4 wanted to get solar, and all the companies said no,
5 you can't -- you have to have the landlord's
6 permission. If there could be something -- if
7 rooftop solar could be available for all of the
8 people in the community who support solar, but who
9 can't get it because of they don't live in a house,
10 I mean there's millions of us, I think that would
11 be just an excellent idea of something you should
12 start thinking about, or think about, continue
13 thinking about.

14 Thank you.

15 CHAIRMAN REYNOLDS: Thank you,
16 Miss Hatfield.

17 (Public Commenter Excused.)

18 CHAIRMAN REYNOLDS: Are there any other
19 members of the public who haven't submitted a card
20 that would like to make a comment?

21 (No Response.)

22 CHAIRMAN REYNOLDS: For the record, I
23 am hearing and seeing none.

24

25

1 GENERAL

2 COMMENTS

3 CHAIRMAN REYNOLDS: I would like just
4 to make a few comments.

5 And first of all, thank you for
6 everyone for being here tonight and taking time out
7 of your evening.

8 The Public Utilities Commission used to
9 be the Public Service Commission and, truly, in my
10 mind about public service. And the comments that
11 are here tonight will be a part of the public
12 record, they will be submitted to the Legislature,
13 and are very important to me.

14 Las Vegas is my hometown. I lived here
15 from before I could walk, until graduating from
16 UNLV, and so I know this town and the public
17 schools inside and out because I was raised here
18 with my siblings. And so the concerns of Las Vegas
19 are very dear to me.

20 I would encourage everyone, and just to
21 put this out there, the Public Utilities Commission
22 generally meets every two weeks in an open meeting.
23 There is a three-minute public comment period at
24 the beginning of the meeting, and a three-minute
25 public comment period at the end of the meeting for

1 agenda items, and the voices and comments that I
2 heard today are very important for me to hear and
3 for the Commission to hear, and so I would
4 encourage anyone who wants to speak at our
5 agendized meetings before the full Commission.
6 Those proceedings are videoconferenced between
7 Las Vegas and Carson City.

8 Also, just we'll put out there that we
9 are having a general session, a consumer session in
10 Reno this Thursday night, as well as in Elko on
11 September 20th.

12 With that, I would like to thank
13 everyone for being here. And have a good evening.

14 (Applause)

15 (At 7:08 p.m. the Consumer Session was Adjourned.)

Nevada
Docket No. 17-07003
NOTICE OF CONSUMER SESSION
The Public Utilities Commission of Nevada (PUCN)
will hold a general consumer session in Elko County for the
2017 calendar year to foster input from Nevada's citizens
pursuant to the authority granted the PUCN under Nevada's
Revised Statutes (NRS) Chapters 703 and 704. The PUCN has
designated this matter as Docket No. 17-07003. This Docket
has been assigned to Chairman Joseph E. Raymond.
Pursuant to NRS 704.085(2), NOTICE IS HEREBY GIVEN that
the PUCN has scheduled a CONSUMER SESSION to solicit
public comments and questions to be held as follows:
WEDNESDAY, SEPTEMBER 20, 2017
6:00 p.m.
Spring Creek High School
Auditory Gym
14550 Laramie Hwy
Spring Creek, Nevada 89615
Interested persons may appear and be heard on any
topic concerning a public utility regulated by the PUCN. Public
comments may be limited to three (3) minutes per speaker at
the discretion of the PUCN. If within 15 minutes after the start
of the Consumer Session, no member of the public has
appeared to participate or comment, the Consumer Session
may be adjourned. To accommodate individuals who enter the
meeting chambers who are sensitive to fragrances and chemical
products, please use the following sparingly: deodorant,
perfumes, colognes, and perfumed body lotions, hair shampoos,
hair products, etc.

17-07003 Elko Annual Consumer Session, September 20, 2017

When you have a Governor who keeps touting his 'Open & Transparency' rhetoric, then he appoints a FRIEND, Joe Reynolds, as the chair to the PUC, that Open and Transparency, has evolved into the 'black hole' of openness', whereby, all information is sucked into their behind the scenes interactions.

On November 9, 2016, Reynolds at a Utility Agenda Meeting, proposed and it was APPROVED that the Commissioners would follow the Judicial Canons. Which he felt they should maintain the confidence of the general public. Exhibit A

CANON 1

Rule 1.2 *Promoting Confidence in the Judiciary- A judge shall act at all times in a manner that promotes public confidence in the independence, integrity and impartiality of the judiciary and shall avoid impropriety and the appearance of impropriety.*

There is no public confidence in the PUC Commissioners. On September 5th, Sandoval placed ANOTHER FRIEND in the PUC. Bruce Breslow. With a degree in Journalism and known for being a sportscaster, no utility regulation, and now he is being placed into a position that he is severely under-qualified for, at the expense of ratepayers.

Reynolds came to the PUC with ABSOLUTELY no knowledge of utility regulation and because of his ego, has assigned to himself, ALL HIGH PROFILE DOCKETS. All these dockets are highly technical and regulation intensive, so, he is LEARNING ON THE JOB. The public wants COMPETENT people who are ruling on dockets that have a direct and substantial impact upon them. As we are paying a tax on our utility use to fund their salaries, we aren't getting our money's worth.

CANON 2

Rule 2.2 *Impartiality and fairness: A judge shall uphold and apply the law, and shall perform all duties of judicial office fairly and impartially.*

Reynolds during some of his 'Comments from the Commissioner', which he started upon his arrival, whereby, we have to endure stories of his relatives who are attorneys, how his kids spend time with trains, bloviating about his personal life, that he 'knows the law', obviously he thinks being tangentially associated he has absorbed all their legal knowledge. Not to forget the fact, that while saying he can't rule on something, he comes out and says he is supportive of it. Last example of this 'disclosure of view' occurred on September 11, 2017, at the General Rate Case Docket, where he commented on a pending Motion, in which he supports the Motion, but has to allow time for others to comment.

Rule 2.4 *External Influences on Judicial Conduct*

(B) A judge shall not permit family, social, political, financial, or other interest or relationships to influence the judge's judicial conduct or judgment.

COMMENT

[1] *An independent judiciary requires that judges decide cases according to the law and facts, without regard to whether particular laws or litigants are popular or unpopular with the public, media, GOVERNMENT OFFICIAL, or the judge's friends or family. Confidence in the judiciary is eroded if judicial decision making is perceived to be subject to inappropriate outside influences.*

Reynolds is too indebted to Sandoval for his and his wife's jobs, that the public has no trust/confidence in. Since Reynolds came to the PUC, FOR MONTHS all he has extolled, that he is there is advance the Governor's 'New NV'. Also, since his wife is now the General Counsel to the Governor, and the Governor is on the records that he wants the state at 100% renewables, this relationship is nothing short of incestuous. How is the public suppose to be confident that, say over dinner, Reynolds and spouse are not discussing utility/renewable open dockets, regarding the Governor's mission of a New NV, that Reynolds has acknowledged he is at the commission to promote.

Reynolds ad nauseum comments, on the record, that his family (grandfather, father, wife), kids Godparents, niece (pending bar admission) are attorneys, so he knows the law. Then at the August 18, 2017, Utility Agenda Meeting, he chastised his fellow Commissioner Ann Pongracz, over her draft order, when she found some impropriety of an attorney of record. Pongracz has experience as a state regulatory attorney which Reynolds has absolutely NONE, and was sorry she didn't have his legal lineage. While the meeting minutes 'glossed' over his ire, the archived video shows his disgust in his face, his shaking of his head during her presentation of the draft order. Exhibit B

http://pucnv.granicus.com/MediaPlayer.php?view_id=1&clip_id=121

At 15:50 Reynolds starts with his family – chastising Pongracz

At 17:25 Pongracz State Regulator since the 1980's

Rule 2.9 Ex Parte Communication

(A) A judge shall not initiate, permit or consider ex parte communications, or consider other communications made to the judge outside the presence of the parties or their lawyer, concerning a pending or impending matter.

Reynolds during Docket 17-02011, regarding LED light bulbs, Reynolds went on the record stating he had received calls/contact asking him to promote the docket. When asked who, he refused to disclose who they were. As Reynolds was deferring/relying upon Geller for information on this docket.

Rule 2.10 Judicial Statements on Pending and Impending Cases

(A) A judge shall not make any public statement that might reasonably be expected to affect the outcome or impair the fairness of a matter pending or impending in any court, or make any nonpublic statement that might substantially interfere with a fair trial or hearing.

Only two dockets, are coming to mind; 17-02011 (LED) prior to the docket being opened, at a Utility Meeting, Reynolds went on the record he was supportive of the LED program, along with supporting the program during the workshop when the docket was opened; 17-06003 (NVE GRC) A Motion was filed on September 8th, and on either September 11th or 12th, Reynolds stated: He is supportive of the Motion, but, can't make a 'formal' statement at this time.

Rule 3.2 *Appearances Before Governmental Bodies and Consultation With Government Officials*

A judge SHALL NOT VOLUNTARILY APPEAR at a public hearing before, or otherwise consult with, an executive or legislative body or official, except:

I have been in attendance/involved with the PUC since October 2011, years longer than Reynolds, and attending the 2013, 2015 and 2017 Legislative Sessions. It has been the policy of the PUC, TO NOT TAKE A POSITION on ANY bill, they are not allowed to lobby; all they can do is appear/testify to PROVIDE INFORMATION, except on a bill that they have requested.

During the 2017 Legislative Session, Reynolds appeared as the Chair of the PUC and rendered his support of various bills, which he would have to address once approved by the Governor. Additionally, appearing with him were his Executive Director and General Counsel at all his appearances.

A GRAVE CONCERN IS THE FOLLOWING: Currently Reynolds is on the Energy Choice Committee via the Governors Office. This committee is addressing numerous issues that eventually are going to be addressed by the PUC. Issues that have come up with bills from the Legislature are being discussed, along with addressing potential regs to be addressed, which Reynolds will have to oversee. He is too close to the issue, he has made comments on the record that bring into question his ability to be impartial.

Since January 2010, when the log of Administrative & Utility Meetings have been published, there was Open & Transparency regarding Administrative activity of the PUC. When the current executive director Mullens came on board in August of 2015, the LAST Admin Meeting was September 2015. Exhibit C

Since February 2010 thru September 2015 there were 36 Administrative Meetings. Showing that the activities of the PUC were being discussed/presented to the commission in the required open meeting forum.

There were public reports from the ED to the Commissioners; either for votes, updates, feedback. On February 19, 2010, there was an item, that was voted on, for the protocols of what the ED had to provide to the Commissioners. With all these required items to be brought forth in the Admin Meetings, it is clearly an intentional obstruction of public disclosure. Claiming that they were done, shows a lack of required performance on the ED. Exhibit D

We are now into 2 years and almost ALL of the required items to be brought to the commission in a public venue have been concertedly ignored. Since 9/2015, the ED has appeared at the PUC ONLY 4 times; 5/26/16, 1/11/17, 1/25/17 and 6/14/17. Exhibits E - H

The overt dismissive attitude towards the public, when the public clearly present issues that are not in accordance with required protocols. As the PUC thinks that they are the ultimate expert on PUC/state regs/NAC. Even when presented with exhibits they refused to follow accepted protocol. Where they falsified Affidavits of Posting Meeting Notices; same time/date at two different locations (pages 1-10). Took until November of 2014 until they fully complied with the legal requirements. Exhibit I

The State and PUC keeps regurgitating 'Open and Transparency', but, when the public requests access, to the public records, their requests are met with contrived excuses. This is especially true when members of the public, who apparently the PUC deems to be annoyances, they INTENTIONALLY come up with excuses, such as: they have no time/resources to respond in the 'normal' 5 day time period (even though they do respond in 5 days telling you they will address them, MONTHS later).

In July of 2016, the General Counsel resigned, predicated on prior resignation of the General Counsel, the commission held an Admin Meeting on June 25, 2013, to discuss the resignation and protocols in searching for a new one. Exhibit J When the one who resigned in 2016, there was no notification, discussion on replacement, who would be acting General Counsel. Exhibit N No public discussion on seeking applicants for the position, only when it showed up as a screen on their scrolling marquee, was the public made aware of this. Exhibit K.

EXHIBIT D

Authority of Executive Director and Commissioners

2010 FEB 19 AM 11:12

In an effort to provide guidance on the relationship between the Executive Director and three Commissioners on all administrative policy matters, what follows are levels of possible activities for which the Executive Director is responsible, and General Counsel's recommended level of supervision by the three Commissioners for each level:

- 1—Commissioners' statutory vote
(Executive Director must bring matter to administrative agenda meeting for Commissioners' statutory vote)
- 2—Commissioners' advisory authority
(Executive Director brings matter to administrative agenda meeting for Commissioners' advisory vote)
- 3—Commissioners' feedback
(Executive Director brings matter to administrative agenda meeting for Commissioners' feedback)
- 4—Executive Director's update
(Executive Director brings matter to administrative agenda meeting to provide updates to Commissioners)
- 5—No Commissioner involvement
(Executive Director does not bring matter to administrative agenda meeting)

BUDGET PREPARATION

Budget planning—Commissioners' feedback

Final Budget—Commissioners' advisory authority

Strategic Plan—Commissioners' advisory authority

Work Programs:

Housekeeping (\leq \$20K)—Executive Directors' update

Agenda items may be taken out of order.

The Commission may remove or delay discussion relating to an agenda item at anytime.

The Commission may combine two or more agenda items for consideration.

The meeting may be continued as deemed necessary.

NOTICE: We are pleased to make reasonable accommodations for members of the public who are disabled and wish to attend the meeting. If special arrangements for the meeting are necessary, please notify the Commission Secretary at (775) 684-6167 (Carson City) or (702) 486-2600 (Las Vegas) or (775) 684-6100 (TDD) at least two working days prior to the meeting.

Public Utilities Commission of Nevada - Utility Agenda

Agenda 10 - 16

Item	Docket Number	Company Name(s), Subject and Discussion Topic
1		<i>PUBLIC COMMENT</i>
A		<p>Pursuant to NRS 241.020 a period of public comment will be allowed at the beginning of the meeting before any items on which action may be taken are heard by the Commission and again before the adjournment of the meeting. In order to conduct this meeting in an orderly, efficient and dignified manner, public comment shall be limited to three (3) minutes per speaker, without regard to the number of entities or affiliations represented by the speaker, and directed to the Commission as a whole through the Chairman. Prepared comments or documentations that exceed the three (3) minute comment period may be introduced into the written record upon request. Comments made during this comment period will be restricted to topics that pertain to items on the agenda. Comments may be prohibited if they become disruptive to the meeting by becoming irrelevant, repetitious, offensive, inflammatory or amounting to personal attacks and interfering with the rights of other speakers. No action may be taken on a matter raised under this item of the agenda until the matter itself has been specifically included on an agenda as an item upon which action may be taken.</p> <p>In accordance with NRS 241.030, the Commission reserves the right to remove any person who willfully disrupts a meeting by disorderly conduct.</p>

7***PUBLIC COMMENT***

A

Pursuant to NRS 241.020 a period of public comment will be allowed at the beginning of the meeting before any items on which action may be taken are heard by the Commission and again before the adjournment of the meeting. In order to conduct this meeting in an orderly, efficient and dignified manner, public comment shall be limited to three (3) minutes per speaker, without regard to the number of entities or affiliations represented by the speaker, and directed to the Commission as a whole through the Chairman. Prepared comments or documentations that exceed the three (3) minute comment period may be introduced into the written record upon request. Comments during this comment period may address any topic jurisdictional to the Commission. Comments may be prohibited if they become disruptive to the meeting by becoming irrelevant, repetitious, offensive, inflammatory or amounting to personal attacks and interfering with the rights of other speakers. No action may be taken on a matter raised under this item of the agenda until the matter itself has been specifically included on an agenda as an item upon which action may be taken.

In accordance with NRS 241.030, the Commission reserves the right to remove any person who willfully disrupts a meeting by disorderly conduct.

of the Public Utilities Commission Administrative Agenda
held jointly at its Offices in Carson City
and Las Vegas, Nevada

Tuesday, June 25, 2013

Agenda A04 - 13

Present: Chairman Burtenshaw
Commissioner Wagner
Commissioner Noble
Acting Assistant Commission Secretary Karen Taylor

Item 1 PUBLIC COMMENT

- A. Pursuant to NRS 241.020 a period of public comment will be allowed at the beginning of the meeting before any items on which action may be taken are heard by the Commission and again before the adjournment of the meeting. In order to conduct this meeting in an orderly, efficient and dignified manner, public comment shall be limited to two (2) minutes per person and directed to the Commission as a whole through the Chairman. Comments made during this comment period will be restricted to topics that pertain to items on the agenda. Comments may be prohibited if they become disruptive to the meeting by becoming irrelevant, repetitious, offensive, inflammatory or amounting to personal attacks and interfering with the rights of other speakers. No action may be taken on a matter raised under this item of the agenda until the matter itself has been specifically included on an agenda as an item upon which action may be taken.

In accordance with NRS 241.030, the Commission reserves the right to remove any person who willfully disrupts a meeting by disorderly conduct.

No comments by the general public.

Item 2 EXECUTIVE DIRECTOR

- A. Presentation by Commission's Executive Director on amendment to Internal Administrative Policy 4.3 Furloughs.
FOR POSSIBLE DISCUSSION/ACTION: ACCEPT, MODIFY OR REJECT AMENDMENT?
Ms. Crystal Jackson, Executive Director, advised this amendment includes housekeeping changes as a result of the last Legislative session. There are changes to the bill number and the fiscal year, the policy itself has not changed.

Chairman Burtenshaw moved that the Commission accept the amendment. Commissioner Wagner seconded the motion and Commissioner Noble concurred.
- B. Presentation by Commission's Executive Director on the process for the Commission to appoint a Chief Attorney / General Counsel pursuant to NRS 703.164.
FOR POSSIBLE DISCUSSION/ACTION: ACCEPT, MODIFY OR REJECT PROCESS?
Ms. Jackson advised that the General Counsel is retiring effective August 9, 2013 and the Commission must decide how it will fill the vacancy.

ADMINISTRATIVE AGENDA A04-13 MINUTES

The Class specification for the position prepared by Ms. Jackson, Ms. Cohen, and Ms. Skau, was reviewed and discussed. Commissioner Wagner suggested adding the words "Executive Director" to the Skills Required section. Commissioner Noble questioned the words "trial experience" and whether that referred to courtroom experience or Commission experience. "Litigation experience" was agreed upon as preferred language. Chairman Burtenshaw suggested changing the language in the second sentence of Skills Required to: "Must be able to work with a broad range of people and objectively engage in work procedures, products or processes."

Recruitment Notice was discussed. Open competitive recruitment, location of best candidate and supplemental questionnaire were agreed upon.

An Internal Selection Committee of Ms. Jackson, Ms. Cohen and Ms. Cuneo, were chosen. Candidates will be interviewed by the Internal Selection Committee on or around July 11th. Chairman Burtenshaw suggested the committee select "no more than two" finalists to bring before the Commission.

Chairman Burtenshaw moved that the Commission accept the process and documentation as discussed and modified on the record. Commissioner Wagner seconded the motion and Commissioner Noble concurred.

- C. Commission's Executive Director's briefing on administrative issues. No action may be taken on a matter raised under this item of the agenda until the matter itself has been specifically included on an agenda as an item upon which action may be taken.
No briefing on administrative issues.

Item 3 **PUBLIC COMMENT**

- A. Pursuant to NRS 241.020 a period of public comment will be allowed at the beginning of the meeting before any items on which action may be taken are heard by the Commission and again before the adjournment of the meeting. In order to conduct this meeting in an orderly, efficient and dignified manner, public comment shall be limited to two (2) minutes per person and directed to the Commission as a whole through the Chairman. Comments during this comment period may address any topic jurisdictional to the Commission. Comments may be prohibited if they become disruptive to the meeting by becoming irrelevant, repetitious, offensive, inflammatory or amounting to personal attacks and interfering with the rights of other speakers. No action may be taken on a matter raised under this item of the agenda until the matter itself has been specifically included on an agenda as an item upon which action may be taken.

In accordance with NRS 241.030, the Commission reserves the right to remove any person who willfully disrupts a meeting by disorderly conduct.

No comments by the general public.

EXHIBIT L

State of Nevada
Public Utilities Commission

[Return](#)

Organizational Structure

The Public Utilities Commission of Nevada ("Commission") is divided into two general sections: Commission Policy/Administration and Regulatory Operations. Commission Policy/Administration includes the Commissioners, Executive Director, Administration, General Counsel, Utilities Hearing Officers, Policy Analysis, the Public Information Office, and Consumer Outreach. Regulatory Operations includes the enforcement and analytical staff of the Commission, containing the Director of Regulatory Operations, Staff Counsel, Resource and Market Analysis, Financial Analysis, Engineering, Rail Safety, and Consumer Complaint Resolution.

Commission Policy/Administration

Commission

The Commission is comprised of three Commissioners who are each appointed by the Governor to a four-year term. The Governor designates one Commissioner as Chairman.

In contested matters, rulemakings, and investigations, a Commissioner is assigned to govern the proceedings to act as the Presiding Officer. The Presiding Officer, in contested cases, acts in a quasi-judicial manner by receiving and ruling on the admissibility of evidence and amendments to pleadings, acting upon any pending motions which do not involve a final determination of the proceeding, issuing appropriate interim orders, ruling on all procedural matters, setting timeframes for oral testimony and making findings of fact and conclusions of law for the full Commission to approve. Witnesses are presented and are subject to cross-examination by the other parties, Commissioners and Commissioners' advisors. Likewise, in rulemaking proceedings, the Presiding Officer receives public comment on proposed regulations.

All matters over which the Commission has supervision, control, jurisdiction or advisory power must be approved by a quorum of Commissioners during a public agenda meeting. Thus, during these meetings, the Commissioners vote on Regulatory Operation Staff ("Staff") recommendations for resolution of matters which did not go to hearing, and vote on other recommendations presented by the Presiding Officer for final determination of matters in which hearings have been held. The Commissioners also vote on various

administrative, legislative, legal and policy issues in state and federal regulatory matters, including those before the Federal Energy Regulatory Commission ("FERC") and the Federal Communications Commission ("FCC").

Commissioners

Name	Title	Telephone	E-mail	Location
Paul A. Thomsen	Chairman	(775) 684-6101	christensen@puc.nv.gov	Carson City
Alaina Burtenshaw	Commissioner	(775) 684-6101	christensen@puc.nv.gov	Las Vegas
David Noble	Commissioner	(775) 684-6101	christensen@puc.nv.gov	Carson City

Executive Director

The Executive Director serves as Chief Financial Officer and directs the daily operations of the Commission including without limitation, budget preparation, administration, human resources, media relations and consumer outreach, purchases and acquisitions made by the Commission and contracts and leases entered into by the Commission. The Executive Director also develops and implements policies and procedures to ensure the efficient operation of the Commission including Regulatory Operations.

General Counsel

General Counsel is responsible for representing the Commission's interests in all proceedings in state and federal court. The division represents the Commission's interests before various state and federal regulatory agencies including the FERC; counsels commissioners and administrative attorneys on legal and policy issues; and reviews and approves notices, orders, notices of agenda meetings, regulations, legislation and other legal documents prepared by administrative attorneys and the legal case manager. The division is also responsible for case management and reviewing the Commission's administrative procedures to assure compliance with the Administrative Procedures Act as well as other statutes and regulations applicable to the Commission.

General Counsel Staff Members

[Top](#)

Utilities Hearings Officers

The Utilities Hearing Officers hold administrative hearings on applications to provide utility services, tariff rates, financial practices, jurisdictional issues and consumer complaints, write administrative orders, and arbitrate disputes between telecommunications providers. The Utilities Hearing Officers schedule and preside over administrative proceedings including prehearing conferences, consumer sessions, workshops, mediations, arbitrations and hearings in rulemakings, investigations and contested cases. The Utilities Hearing Officers also research and analyze evidence while drafting orders and opinions based on the record as well as state and federal law, which is reviewed and voted on by the Commissioners. Finally, the Utilities Hearing Officers review petitions for reconsideration and draft appropriate responses. The decisions of the Utilities Hearing Officers are subject to appeal by the Commission in the same manner that the decisions of a Presiding Officer are subject to appeal and review by the Commission. The Utilities Hearing Officers, however, are not able to vote on any matter before the Commission.

Policy Analysis

Policy Analysis is responsible for providing policy, technical support and advice to the Commissioners on various aspects of utility issues including telecommunications, electric, gas, water and sewer. This involves evaluating, analyzing and interpreting utility data; drafting opinions, orders and regulations and ensuring they are technically accurate, consistent and complete; and providing policy and technical assistance to the Commission during hearings and rulemaking sessions. The Policy Analysis also provides policy and technical assistance to General Counsel during all proceedings before state and federal courts as well as federal regulatory agencies.

Policy Analysis Staff Members

Regulatory Operations

Regulatory Operations Staff ("Staff") appears and participates in cases before the Commission as an independent party, balancing the interests of ratepayers and utility shareholders to ensure safe and reliable service at a reasonable cost.

Director of Regulatory Operations

The Director of Regulatory Operations ("DRO") supervises and manages all aspects of Staff, consisting of five technical divisions and Staff Counsel. The DRO ensures that all Staff employees perform at a high level of competence and professionalism; organizes and manages all Staff regulatory functions

including resources to ensure timely completion of analyses and submission of testimony, comments, reports and other filings to the Commission; and makes recommendations to the Commission regarding public utility matters. Additionally, the DRO monitors public utilities' compliance with applicable statutes, regulations and Commission orders.

Staff Counsel

Staff Counsel performs the legal functions of Staff and is responsible for providing legal counsel and support to Staff management and employees. These duties include formulating legal strategy and legal positions regarding utility filings; drafting case discovery; reviewing utility filings for legal adequacy and content; and preparing pleadings, briefs, responses to petitions, stipulations and other filings applicable to the regulation of Nevada utilities. The division also reviews and assists in the development of Staff testimony and filings; ensures that Staff's positions are in compliance with Nevada statutes and regulations; represents Staff at Commission hearings and workshops; assists in the development of proposed regulations and legislation; and provides other legal support to Staff divisions. Staff Counsel is the only division within Staff that addresses, in some form, every case filed with the Commission.

Engineering

Engineering is responsible for monitoring the implementation of electric renewable portfolio standards and demand-side management activities as well as forecasting Nevada's electric energy and capacity requirements. The division monitors water and wastewater utilities for quality of service, environmental compliance and financial performance; and reviews UEPA applications for construction permits for compliance with environmental requirements for new water and/or wastewater facilities. The division also implements a gas pipeline safety program in conjunction with the U.S. Department of Transportation, Pipeline and Hazardous Materials Safety Administration.

Organizational Structure

The Public Utilities Commission of Nevada ("Commission") is divided into two general sections: Commission Policy/Administration and Regulatory Operations. Commission Policy/Administration includes the Commissioners, Executive Director, Administration, General Counsel, Utilities Hearing Officers, Policy Analysis, the Public Information Office, and Consumer Outreach. Regulatory Operations includes the enforcement and analytical staff of the Commission, containing the Director of Regulatory Operations, Staff Counsel, Resource and Market Analysis, Financial Analysis, Engineering, Rail Safety, and Consumer Complaint Resolution.

Commission Policy/Administration

Commission

The Commission is comprised of three Commissioners who are each appointed by the Governor to a four-year term. The Governor designates one Commissioner as Chairman.

In contested matters, rulemakings, and investigations, a Commissioner is assigned to govern the proceedings to act as the Presiding Officer. The Presiding Officer, in contested cases, acts in a quasi-judicial manner by receiving and ruling on the admissibility of evidence and amendments to pleadings, acting upon any pending motions which do not involve a final determination of the proceeding, issuing appropriate interim orders, ruling on all procedural matters, setting timeframes for oral testimony and making findings of fact and conclusions of law for the full Commission to approve. Witnesses are presented and are subject to cross-examination by the other parties, Commissioners and Commissioners' advisors. Likewise, in rulemaking proceedings, the Presiding Officer receives public comment on proposed regulations.

All matters over which the Commission has supervision, control, jurisdiction or advisory power must be approved by a quorum of Commissioners during a public agenda meeting. Thus, during these meetings, the Commissioners vote on Regulatory

Operation Staff ("Staff") recommendations for resolution of matters which did not go to hearing, and vote on other recommendations presented by the Presiding Officer for final determination of matters in which hearings have been held. The Commissioners also vote on various administrative, legislative, legal and policy issues in state and federal regulatory matters, including those before the Federal Energy Regulatory Commission ("FERC") and the Federal Communications Commission ("FCC").

Commissioners

Name	Title	Telephone	Location
Joseph C. Reynolds	Chairman	(775) 684-6101	Carson City
Ann C. Pongracz	Commissioner	(775) 684-6101	Las Vegas
Bruce H. Breslow	Commissioner	(775) 684-6101	Carson City

Executive Director

The Executive Director serves as Chief Financial Officer and directs the daily operations of the Commission including without limitation, budget preparation, administration, human resources, media relations and consumer outreach, purchases and acquisitions made by the Commission and contracts and leases entered into by the Commission. The Executive Director also develops and implements policies and procedures to ensure the efficient operation of the Commission including Regulatory Operations.

Business Process Services

Business Process Services is responsible for the Commission's core business processes relating to docket management. This includes implementing processes necessary to support the acceptance and management of "legally defensible" electronic documents and records. Business Process Services also manages the master dockets, prepares agenda meeting notices and maintains the Commission's master calendar.

General Counsel

General Counsel is responsible for representing the Commission's interests in all proceedings in state and federal court. The division represents the Commission's interests before various state and federal regulatory agencies including the FERC; counsels commissioners and administrative attorneys on legal and policy issues; and reviews and approves notices, orders, notices of agenda meetings, regulations, legislation and other legal documents prepared by administrative attorneys and the legal case manager. The division is also responsible for case management and reviewing the Commission's administrative procedures to assure compliance with the Administrative Procedures Act as well as other statutes and regulations

applicable to the Commission.

General Counsel Contact

Title	Telephone
Legal Research Assistant	(775) 684-6108

[Top](#)

Administrative Attorneys

Administrative Attorneys are responsible for providing preliminary advice and counsel to the assigned Commissioner; interpreting relevant laws, regulations, policies and procedures as they apply to specific utility issues; drafting legally sufficient opinions, notices, orders and regulations for the Commissioners; and making fair and impartial recommendations to the Commissioners based on fact and conclusions of the law.

Administrative Attorneys Contact

Executive Assistant	(775) 684-6191

[Top](#)

Utilities Hearings Officers

The Utilities Hearing Officers hold administrative hearings on applications to provide utility services, tariff rates, financial practices, jurisdictional issues and consumer complaints, write administrative orders, and arbitrate disputes between telecommunications providers. The Utilities Hearing Officers schedule and preside over administrative proceedings including prehearing conferences, consumer sessions, workshops, mediations, arbitrations and hearings in rulemakings, investigations and contested cases. The Utilities Hearing Officers also research and analyze evidence while drafting orders and opinions based on the record as well as state and federal law, which is reviewed and voted on by the Commissioners. Finally, the Utilities Hearing Officers review petitions for reconsideration and draft appropriate responses. The decisions of the Utilities Hearing Officers are subject to appeal by the Commission in the same manner that the decisions of a Presiding Officer are subject to appeal and review

by the Commission. The Utilities Hearing Officers, however, are not able to vote on any matter before the Commission.

Utilities Hearing Officers Contact

Executive Assistant	(775) 684-6191

[Top](#)

Policy Analysis

Policy Analysis is responsible for providing policy, technical support and advice to the Commissioners on various aspects of utility issues including telecommunications, electric, gas, water and sewer. This involves evaluating, analyzing and interpreting utility data; drafting opinions, orders and regulations and ensuring they are technically accurate, consistent and complete; and providing policy and technical assistance to the Commission during hearings and rulemaking sessions. The Policy Analysis also provides policy and technical assistance to General Counsel during all proceedings before state and federal courts as well as federal regulatory agencies.

Policy Analysis Contact

Manager, Policy Analysis	(775) 684-6149

[Top](#)

Regulatory Operations

Regulatory Operations Staff ("Staff") appears and participates in cases before the Commission as an independent party, balancing the interests of ratepayers and utility shareholders to ensure safe and reliable service at a reasonable cost.

Director of Regulatory Operations

The Director of Regulatory Operations ("DRO") supervises and manages all aspects of Staff, consisting of five technical divisions and Staff Counsel. The DRO ensures that all Staff employees perform at a high level of competence and professionalism; organizes and manages all Staff regulatory functions including resources to ensure timely completion of analyses and submission of testimony, comments, reports and

other filings to the Commission; and makes recommendations to the Commission regarding public utility matters. Additionally, the DRO monitors public utilities' compliance with applicable statutes, regulations and Commission orders.

Regulatory Operations Contact

Executive Assistant	(702) 486-7905

[Top](#)

Staff Counsel

Staff Counsel performs the legal functions of Staff and is responsible for providing legal counsel and support to Staff management and employees. These duties include formulating legal strategy and legal positions regarding utility filings; drafting case discovery; reviewing utility filings for legal adequacy and content; and preparing pleadings, briefs, responses to petitions, stipulations and other filings applicable to the regulation of Nevada utilities. The division also reviews and assists in the development of Staff testimony and filings; ensures that Staff's positions are in compliance with Nevada statutes and regulations; represents Staff at Commission hearings and workshops; assists in the development of proposed regulations and legislation; and provides other legal support to Staff divisions. Staff Counsel is the only division within Staff that addresses, in some form, every case filed with the Commission.

Staff Counsel Contact

Title	Telephone

Admin Assistant III	(775) 684-6155

[Top](#)

Engineering

Engineering is responsible for monitoring the implementation of electric renewable portfolio standards and demand-side management activities as well as forecasting Nevada's electric energy and capacity requirements. The division monitors water and wastewater utilities for quality of service, environmental compliance and financial performance; and reviews UEPAs applications for construction permits for compliance with environmental requirements for new water and/or wastewater facilities. The division also implements a gas pipeline safety program in conjunction with the U.S. Department of Transportation, Pipeline and Hazardous Materials Safety

Administration.

Engineering Contact

Consumer Complaint Resolution

Consumer Complaint Resolution is responsible for responding to utility consumer needs, problems and inquiries. The division is responsible for receiving, investigating and mediating complaints that arise between customers and their serving utilities including electric, gas, telecommunications, water and sewer. The division also tracks complaint levels and appraises the Commission of arising problem areas. Additionally, it makes recommendations to the Commission and the utilities regarding possible changes in policies or practices relating to the improvement of customer service and complaint resolution.

Re: Request for Records

Dear Ms. De Fazio:

Chapter 239 of the Nevada Revised Statutes ("NRS"), specifically NRS 239.0107(1), requires a governmental entity to respond to public records requests within five business days. Accordingly, the Public Utilities Commission of Nevada ("Commission") is responding to your July 22, 2016, requests for: "[a] copy of the ADMIN audio file whereby the Commission decided to post the ad for the general counsel and the meeting notice notifying the public of this meeting. Date unknown as you are not keeping the public notified of admin hearings. IF AVAILABLE a copy of the minutes for this meeting."

The Commission possesses no records responsive to your request.

If you have any questions or wish to clarify your request to inspect public records, please feel free to contact me.

Sincerely,

Garrett Weir
Assistant General Counsel
Public Utilities Commission of Nevada

BEFORE THE PUBLIC UTILITIES COMMISSION OF NEVADA

PUCN-sponsored Consumer Session to be held in Elko)
County, Nevada.)

) Docket No. 17-07003
)

NOTICE OF CONSUMER SESSION

The Public Utilities Commission of Nevada (PUCN) will hold a general consumer session in Elko County for the 2017 calendar year to foster input from Nevada's citizens pursuant to the authority granted the PUCN under Nevada Revised Statutes (NRS) Chapters 703 and 704. The PUCN has designated this matter as Docket No. 17-07003. This Docket has been assigned to Chairman Joseph C. Reynolds.

Pursuant to NRS 704.069(2), NOTICE IS HEREBY GIVEN that the PUCN has scheduled a CONSUMER SESSION to solicit public comments and questions to be held as follows:

WEDNESDAY, SEPTEMBER 20, 2017
6:00 p.m.
Spring Creek High School
Auxiliary Gym
14550 Lamoille Hwy
Spring Creek, Nevada 89815

Interested persons may appear and be heard on any topic concerning a public utility regulated by the PUCN. Public comments may be limited to three (3) minutes per speaker at the discretion of the PUCN. If within 15 minutes after the start of the Consumer Session, no member of the public has appeared to participate or comment, the Consumer Session may be adjourned. To accommodate individuals who enter the meeting chambers who are sensitive to fragrance and chemical products, please use the following sparingly or not at all: perfumes, colognes, and perfumed body lotions, aftershave, hair products, etc.

This Notice is available for public viewing on the PUCN's website: <http://puc.nv.gov>;
and at the PUCN's offices: 1150 East William Street, Carson City, Nevada 89701 and 9075 West
Diablo Drive, Suite 250, Las Vegas, Nevada 89148.

By the PUCN,

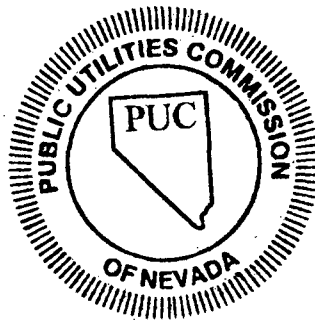

TRISHA OSBORNE,
Assistant Commission Secretary

SPRING CREEK, NEVADA

WEDNESDAY SEPTEMBER 20, 2017

-oOo-

(The following proceedings were court reported by the court reporter from a tape recording sent through the Internet, and then transcribed by the court reporter from notes produced from court reporting from the tape recording sent through the Internet. The court reporter was not physically present at the original proceedings.)

-oOo-

HEARING OFFICER LOMOLJO: This consumer session will come to order.

The record will reflect that this is the time and place set before the Public Utilities Commission of Nevada for a general consumer session.

This matter has been designated by the Commission as Docket No. 17-07003.

The record will also reflect that the notice of consumer session was made on July 13th, 2017.

Appearing for the Commission today is

SILVER STATE COURT REPORTERS (775) 329-6323

1 myself, Don Lomoljo, Utilities Hearing Officer.

2 With me today from the Commission we
3 have representatives from our Consumer Complaint
4 Division. Over by the door, we have Peter Kostas
5 and Cassie Jones.

6 If you want to speak, there are cards
7 over at that table there we need you to fill out
8 with your name and some other information, so that
9 we can get a proper record compiled tonight.

10 We also have representatives here
11 tonight from some of the utilities who serve this
12 area. We have a representative from Southwest Gas
13 Corporation; we have a representative from
14 NVEnergy; we have a representative from AT&T; and
15 I believe we also have somebody from Great Basin
16 Water as well.

17 Finally, to my left, we have a
18 representative from the Bureau of Consumer
19 Protection, and I will let her introduce herself,
20 and say a little bit about what the BCP does.

21 INTRODUCTION

22 BY

23 MS. TUCKER: Good evening, everyone.
24 My name is Laura Tucker. I'm a Deputy Attorney
25 General with the Bureau of Consumer Protection in

1 the Nevada Attorney General's Office.

2 Basically what the Bureau of Consumer
3 Protection is, is we are an office within the
4 Nevada Attorney General's Office that specializes
5 in utility issues. We represent the small
6 ratepayers, including residential and small
7 business ratepayers and customers of Spring Creek
8 Utilities.

9 Basically, I'm here today to listen and
10 take notes.

11 Thank you.

12 HEARING OFFICER LOMOLJO: All right.

13 Thank you.

14 GENERAL

15 COMMENTS

16 HEARING OFFICER LOMOLJO: And before we
17 turn the mike over to you the customers, I just
18 want to thank, and I saw Senator Goicoechea and
19 Assemblyman Ellison here tonight. As many of you
20 know, they introduced a bill this past legislative
21 session, AB 109, which would have required general
22 consumer sessions to be conducted by the Commission
23 here in the Elko area at least once a year.

24 That bill did not make it through the
25 session, but we heard that message loud and clear,

1 and that's why we're here tonight, and we intend to
2 come out here at least annually.

3 This is actually our second consumer
4 session in the area this year. We had one earlier
5 this year on the water issues. This one is a
6 general consumer session. So we're here tonight
7 to hear about any issues with any utility that you
8 have that's jurisdictional to the Commission. So
9 that's what we're here for tonight.

10 I just want to say briefly that I know
11 a lot of you have been watching the Great Basin
12 Water issue regarding the billing situation. The
13 Commission did issue a decision yesterday on that
14 issue. There was an article in the paper here in
15 Elko this morning. That order is available on the
16 Commission's Website, as well as a video recording
17 of the Commission's actual meeting on that order
18 and their discussion of that order and what their
19 thoughts were going into that order.

20 The Commission's Website is puc.nv.gov,
21 and that's where you can go get information on
22 that, and actually see that order.

23 At this time we would like to hear from
24 you. As I stated, if you do want to make comments
25 you need to fill out a comment card.

1 When I call your name, I would like you
2 to come up to the podium here. There is a mike for
3 you. We also have recording equipment that we are
4 recording this meeting so that it's available to
5 our Commissioners back in Carson City and Las Vegas
6 so that they can review this meeting as well.

7 Two reminders before we start.
8 Speakers are limited to three minutes per speaker,
9 and that's so that we make sure that everybody has
10 time to speak tonight.

11 And please also limit your comments to
12 issues that are jurisdictional to the Commission.

13 So with that, the first card that I
14 have is James Jefferies.

15 JAMES JEFFERIES
16 a public commenter
17 commented as follows:

18 MR. JEFFERIES: My name is
19 James Jefferies.

20 Can everybody hear me.

21 (Audience Voices)

22 MR. JEFFERIES: Good evening. I would
23 like to talk to you a little bit about --
24 (inaudible).

25 (Audience Voices)

1 MR. JEFFERIES: Can you hear me now?

2 I want to talk to you a little bit
3 about my concerns out here, and we have many.

4 But I would like to first of all -- can
5 you still hear me?

6 (Audience Voices)

7 MR. JEFFERIES: First of all, we should
8 commend the Commissioners of the PUCN -- is that
9 too loud?

10 UNIDENTIFIED SPEAKER: No.

11 MR. JEFFERIES: I would like to commend
12 the Commissioners of the PUCN, Chairman Joseph
13 C. Reynolds, and Commissioners Ann Pongracz and
14 Bruce Breslow, for their determination and decision
15 on the matters concerning Great Basin Water
16 Company. I want to say thank you from all of us in
17 Spring Creek.

18 Here's a little story I would like to
19 say on the record. I already told this. Last
20 winter the pit box for the water meter was badly
21 damaged by one of the plow truck blades, and it
22 destroyed the top three sections, so I reported the
23 damage to GBWC, Great Basin Water Company. They
24 said they would fix it. So I waited and reported
25 the damage over several months. About nine months

1 or so had past, so I decided to fix it myself.

2 So I went down and I bought the
3 materials, I bought the material, and proceeded to
4 replace the damaged parts, and it took about eight
5 hours of labor.

6 I took the receipt for the PO to Great
7 Basin Water Company, and they agreed to reimburse
8 the \$120 that I spent on the parts. And they even
9 called me and told me to come over and get the
10 money.

11 When I got over there, they said that
12 they would only give me the money if I signed a
13 statement that I would not do any more repairs on
14 Great Basin Water Company damaged water pit boxes.

15 I said no, I won't sign this; and they
16 kept the money.

17 It was dangerous, sharp objects that
18 were protruding out of the ground, and only after
19 many months did I decide to fix the water meter
20 pit box because I felt they would not fix it.

21 Great Basin Water Company is a business
22 making money for their shareholders. Spending
23 money for the water infrastructure will always be
24 second, and customers last. This tiger will not
25 change their stripes. They will not change their

1 behavior.

2 For the good of the people that live in
3 Spring Creek Valley, we need to seek and buy out
4 and take over of the Great Basin Water Company
5 water rights for the long-term, and the future
6 generations will be the beneficiaries. The NRS
7 statutes under eminent domain laws would help us to
8 do that, and they apply.

9 So that's what I got to say tonight.

10 Thank you.

11 (Applause)

12 HEARING OFFICER LOMOLJO: Okay. Thank
13 you, Mr. Jefferies.

14 (Public Commenter Excused.)

15 HEARING OFFICER LOMOLJO: The next card
16 I have is Mr. Paul Stevens.

17 PAUL STEVENS

18 a public commenter

19 commented as follows:

20 MR. STEVENS: My name is Paul Stevens.
21 I live in the 300 section of Spring Creek.

22 I received in the mail recently, from
23 Water Service Line, information for Great Basin
24 Water Company customers. I want to know who gave
25 Great Basin the authority to give my name out to

1 another company. Does anybody know? Do they have
2 the legal right to do that? Isn't it private
3 information that I deal with this company, or not?
4 They can just give out any information of mine that
5 they want to?

6 HEARING OFFICER LOMOLJO: I don't know
7 that information, but we can look into that for
8 you.

9 MR. STEVENS: I also received an
10 important notice from Great Basin Water Company
11 from Altamonte Springs in Florida. I don't know if
12 they are basing their information on Florida, or on
13 Spring Creek, Nevada. But I have wondered recently
14 what is the average water usage of people in Spring
15 Creek?

16 Well, in this letter it tells me that
17 it's 45.2 gallons a day. So for a month, that
18 comes to approximately 1,356 gallons a month.

19 So I went back and looked at my
20 records, just I went back to 2008, that's when I
21 retired, and I looked, and for this year I used
22 15,040 gallons, 68,900, 70,610, 75,260, 96,320; a
23 long way from the 1,356 gallons they say is the
24 average usage.

25 To put it in perspective, I'm 80 years

1 old; my wife is 75. We're the only people that
2 live in the house. We have a 16-year-old cat, a
3 two-year old dog, and my wife has two burros. I
4 keep wondering how we're using so much water,
5 because I only take a bath every Friday now that
6 I'm not working.

7 (Inaudible) When all this started with
8 the water company, there was a man came out to read
9 my meter, and I talked to him, and he said, well,
10 they're going to replace my meter. They will send
11 the one that's there off, and have it inspected and
12 see if it was right.

13 I never heard back from them. Yet in
14 the lady's letter she says that's what they do,
15 they inspect those. It takes a little time, but it
16 appears to be a little bit long.

17 And I'm wondering if anybody else has a
18 problem with how much water they use. It's
19 actually amazing that I could be using that much
20 water.

21 I had a man come out and check it. We
22 have all of the latest things that are water
23 efficient, and I just don't believe their reports.

24 Thank you.

25 HEARING OFFICER LOMOLJO: Thank you.

1 (Applause)

2 (Public Commenter Excused.)

3 HEARING OFFICER LOMOLJO: The next card
4 I have is Senator Goicoechea.

5 SENATOR PETE GOICOECHEA

6 a public commenter

7 commented as follows:

8 SENATOR GOICOECHEA: Good evening. I
9 would first like to thank the Consumer Protection
10 and the PUC for being here.

11 And realistically, what brought this to
12 the forefront was the meter reading and the billing
13 issues. But we're here, and we need to look
14 forward, and that was the reason why we worked on
15 it during the last session, on some legislation
16 that requires these to be here annually.

17 But the issue that is facing us here in
18 Spring Creek, and I'm going to talk to the group
19 rather than the PUCN and Consumer Advocate, because
20 this system is in a death spiral. The numbers that
21 we saw, the preliminary engineering assessment that
22 was done on this system that came out of the PUC -
23 and I don't think they've been made public yet, and
24 they're only preliminary - but it's going to take a
25 huge amount of money to bring this system up to

1 what it should be.

2 Clearly, like I say, we're in a death
3 spiral. As your rates go up, you try and cut your
4 usage. As you cut your usage, it's less money made
5 available to the company, less money for
6 infrastructure improvement.

7 Folks, we're in trouble, and that's why
8 we need to come together, work with the PUC, the
9 Consumer Protection, and we're going to have to
10 come up with alternatives. And, you know, we
11 all -- I don't know what it is, I have spoken to
12 some of your County Commissioners here, but clearly
13 it makes sense if you are a public utility rather
14 than a private, because you can access that money,
15 low interest loans.

16 But folks, this system was put in a
17 long time ago, it wasn't maybe the best when a lot
18 of it went in, and the bottom line is we are
19 looking at some real significant infrastructure
20 needs if we're going to maintain this system. And
21 again, they can't afford to pump the water, Great
22 Basin, through these leaks and losses in the
23 system, they can't afford to lose you, the consumer
24 base. And I know a lot of you people are in fact
25 going to xeriscape, and I was just (inaudible)

1 outside the room, and I know a lot of you are going
2 to xeriscape and tearing your lawns and your trees
3 up, and that in itself is decreasing your values.

4 So we are here, and I look at this as
5 just the start of a long process, but something has
6 to change. And I know the PUC, as I talked to
7 Anne-Marie Cuneo, has promised us that they will
8 have a full engineering assessment of the system
9 and come up with the true dollars.

10 And I believe, Don, that's still
11 somewhere that the PUC is headed. When I talked
12 to Anne-Marie she said they were going to do an
13 engineering, a full assessment of this system, and
14 try and come up with the dollars.

15 HEARING OFFICER LOMOLJO: That's a
16 process that occurs before the Commission in what's
17 called a resource plan, yes.

18 SENATOR GOICOECHEA: Okay. So we'll
19 continue to press that for, folks, and try and
20 get -- really, I don't have any answers. I know my
21 colleague, Mr. Ellison and I, tried very hard to
22 bring 109 out last session. It was a budget issue.
23 But clearly, we have the commitment from the PUC
24 and the Consumer Advocate that they will come. I
25 know they have to come next year because I believe

1 there will probably be a rate case or two in front
2 of them, so they do have to.

3 But that's what concerns me. Great
4 Basin at some point, you know, the things that were
5 contained in the order they're going to have to
6 charge more money because some of the things that
7 they required in the order are going to cost money.
8 And the bottom line, as they charge you more, you
9 use less water, and I call it a death spiral.

10 I'm afraid we're in trouble, but you
11 have my commitment we'll continue to work on it.
12 And I'm afraid at some point we need to look at
13 some type of public utility.

14 So with that, thank you all. Thanks
15 for being here.

16 (Applause)

17 HEARING OFFICER LOMOLJO: Thank you,
18 Senator.

19 (Public Commenter Excused.)

20 HEARING OFFICER LOMOLJO: The next card
21 I have is Pamela Alfred.

22 PAMELA ALFRED
23 a public commenter
24 commented as follows:

25 MS. ALFRED: If you don't mind, I don't

1 like -- (inaudible).

2 HEARING OFFICER LOMOLJO: Actually,
3 Miss Alfred --

4 MS. ALFRED: Yes?

5 HEARING OFFICER LOMOLJO: -- if you
6 don't mind, if you could, it helps us with the
7 recording, so that it's available at the
8 Commission.

9 MS. ALFRED: Well, it's a great
10 opportunity to come here and voice my opinion. It
11 was with a push from James Jefferies, and he asked
12 me to come up and speak, and I'm glad that he did.

13 Thank you, James.

14 This is my eighth year living in Spring
15 Creek Section 2, and I am retired. I live by
16 myself. My hobby is water, and I am a water --
17 actually, I am a (inaudible) person. I planted my
18 garden about eight years ago, and a young gentleman
19 walked up to me and asked me if I needed help. And
20 I like to do a lot of things myself, and I said no,
21 I don't need any help.

22 He says, well, my parents asked me to
23 go around and see if I could make a little bit more
24 money because our water bill is ridiculous.

25 I don't know how much their water bill

1 is, but as a family of one, and knowing what my
2 bill was when I first moved out here in 2010 and
3 what it is now, I would say there's been an,
4 off-the-top-of-my-head because I'm an accountant,
5 a 300 percent increase.

6 I save water -- let's just say I had
7 empathy for this young man who was sent out by his
8 parents to go look for work so they could save on
9 their water. That is obscene, to say the least.

10 Being an accountant, if I look at what
11 I was paying when I started living here in 2010,
12 it's the base rate, and what I am paying now, just
13 the base rate without the usage factored in, as I
14 mentioned, this is an astronomically rocketing
15 increase. And that's pitiful.

16 I'm not the only retiree that's living
17 on a fixed pension. If prices go up with something
18 as a necessity, such as our water, I think that
19 that does have significant drawbacks relative to
20 what people are able to pay for an essential such
21 as their water needs.

22 And to be honest with you, because I am
23 a conservative in terms of not wasting water, when
24 I take my bath once a week, and I draw a whole tub
25 full of water, I leave it in there, and then I take

1 buckets, and I take out the water for the few
2 plants that I do like to have.

3 And I think that to be in a situation
4 where you cannot afford, and I'm saying they are
5 skyrocketing and they are really out of control
6 now, that that is a sin. And nobody in my area has
7 green grass. I plant, and I use my bath water to
8 do that. And right now, even with the bath water
9 being hauled out, and right now I'm on one hand, I
10 broke this one on the ice (inaudible), and for me
11 to take out my water, it's significantly - how can
12 I put it - dangerous because I don't want to impact
13 this, and I don't want to break this hand, and it's
14 not really fixed.

15 But I am just glad that James Jefferies
16 called me, because when I see how I am -- I don't
17 use my dishwasher. You know, all I do is turn on
18 the tap and put my body in, and put the water from
19 there to my plants, so why is my \$90 water bill for
20 one person, and I do water, you know, my plants
21 when I see them suffering, but that's a whole heck
22 of a lot of money on a fixed income.

23 And so I am glad and grateful to James
24 that he called me and asked me to speak, because
25 that's what I do very well. And to be honest with

1 you, I think that it's a crime to take a commodity,
2 and we have plenty of water in our Great Basin, and
3 charge the rate that we get, and in fact can't - I
4 can only speak for myself - can't afford, that's a
5 rip-off.

6 And the Consumer Protection --

7 HEARING OFFICER LOMOLJO: Miss Alfred?
8 Miss Alfred?

9 MS. ALFRED: -- people should take care
10 of that.

11 HEARING OFFICER LOMOLJO: Miss Alfred,
12 your three minutes is up. You're going to have to
13 wrap it up.

14 MS. ALFRED: Okay. Thank you. Well,
15 my last one was my last statement. Thank you.
16 Thank you.

17 (Applause)

18 HEARING OFFICER LOMOLJO: Thank you.

19 (Public Commenter Excused.)

20 HEARING OFFICER LOMOLJO: The next card
21 I have is Stephanie Licht.

22 STEPHANIE LICHT

23 a Public Commenter

24 Commented as Follows:

25 MS. LICHT: Thank you. I, too, want to

1 thank the Public Utilities Commission and the
2 Bureau of Consumer Protection and the utilities
3 people that are here, our representatives, Senator
4 Goicoechea, and Assemblyman --

5 (Audience Voices)

6 MS. LICHT: The last time we had a
7 consumer session, several people went into the fact
8 that the water company received the rate increases
9 to do infrastructure stuff, and there was some
10 feeling that sort of permeated that issue that
11 maybe those things hadn't been done.

12 What I would like to see is a person
13 from, a Staff member from the Public Utilities
14 Commission, a member from the Consumer Protection,
15 a staff member from Spring Creek Utilities, and
16 those of you with the Public Utilities Commission
17 can go back and look at the rate requests and the
18 rate grants and list those things that they said
19 they were going to do, and come out and have an
20 on-the-ground inspection. A picture is worth a
21 thousand words; that tasting of a banana is like
22 nothing else. You need to see it to make sure that
23 that was the work that was done or not done.

24 And Senator Goicoechea has sort of
25 outlined the fact that, yes, we're kind of in a

1 mess here, because if the work hasn't been done
2 then we're still behind the 8-ball. But we do need
3 to bring it up to code.

4 So I am in hopes that we can move
5 forward to the public utilities part, and as fast
6 as (inaudible) but sometimes it's very fast, and
7 sometimes you get what you ask for so you have to
8 be careful.

9 Thank you. I appreciate you coming, I
10 appreciate the opportunity to be heard, and thank
11 you to all of our neighbors for being here.

12 (Applause)

13 HEARING OFFICER LOMOLJO: Thank you.

14 (Public Commenter Excused.)

15 HEARING OFFICER LOMOLJO: The next card
16 I have is Marlene Tillery.

17 (No Response.)

18 HEARING OFFICER LOMOLJO: Marlene
19 Tillery?

20 (No Response.)

21 HEARING OFFICER LOMOLJO: Did somebody
22 with the first name of Marlene fill out a card?

23 (No Response)

24 HEARING OFFICER LOMOLJO: Okay. I'll
25 move to the next one.

1 The next card is Assemblyman Ellison.

2 ASSEMBLYMAN JOHN ELLISON

3 a public commenter

4 commented as follows:

5 ASSEMBLYMAN ELLISON: Good afternoon.

6 I'm glad to see you guys are here. This is so
7 important.

8 I want to thank you guys. You've done
9 a great job. The Public Utilities Commission, they
10 have met with us through the years, and the
11 Consumer Protection Agency. You guys were there
12 when we were having problems with trying to get 109
13 through, and you have come to the table for the
14 people of Spring Creek, and I want to thank you
15 personally.

16 Give them a hand.

17 (Applause)

18 ASSEMBLYMAN ELLISON: They didn't have
19 to show up, and they knew the concerns that we were
20 having out here in this Valley, and they heard your
21 voice, and they stepped up to the plate.

22 AB 109 was an important bill to get it
23 through, and it was politics that killed that bill.
24 They kept throwing money at us and saying that
25 there was a price tag on it to throw it to Ways and

1 Means. That is a lie. That is not true. The
2 money is in the budget, but they wanted to kill it.
3 Why? Because it's Rural Nevada.

4 So I'm pretty happy these individuals
5 stepped up to the plate and said, we have a
6 problem; we need to fix it.

7 Pete Goicoechea is right, the Senator,
8 Pete and I stayed arm and arm together on this
9 whole session on this thing.

10 Pete's right. Are we in a death
11 spiral? We need to know where we're at, where
12 we're going, and where we're going to be at the
13 next year.

14 This is the future of this Valley,
15 what's going to happen, and we as people of this
16 community have to step up to the plate. And thank
17 God for these individuals; right now they're
18 watching to see what's going to happen.

19 Your session yesterday was great. I
20 think it was wonderful what you guys did. You
21 looked at some of the rates, and see if there are
22 people that are going to be reimbursed. From what
23 I understand, you did a great job.

24 My biggest fear is what's going to
25 happen in the near future? What are we going to

1 do? And like Pete said, Senator Goicoechea, he
2 flat said, you know, we're in a death spiral,
3 what's going to happen to the infrastructure? And
4 you've got to understand that people, you have to
5 put money in, they do have to plan, but I think
6 this is a debt that needs to be extended not two
7 years, not three years, not four years, but a long
8 term. And that's what we've got to look at. If I
9 go buy a house, I got to put it on a 30-year note.
10 If I buy a car, it's a five-year note.

11 So I think anybody that's putting
12 utilities into the ground, they need the same
13 thing. The need to extend this debt on the long
14 term where it doesn't kill the people out here.

15 (Applause)

16 ASSEMBLYMAN ELLISON: You guys have
17 been great, you've been staying together. Spring
18 Creek Association has done a wonderful job, they
19 have kept in touch with us all through the session.
20 And I thought tonight was so important to be here,
21 I got to drive my wife to Reno tonight no matter
22 what, she's got a class in the morning, but it was
23 so important I thought to be here tonight with you
24 guys, because we're here together.

25 So God bless you. Thank you. Anything

1 we can do, let us know.

2 (Applause)

3 HEARING OFFICER LOMOLJO: Thank you,
4 Assemblyman.

5 (Public Commenter Excused.)

6 HEARING OFFICER LOMOLJO: The next card
7 I have is Jessie Bahr.

8 JESSIE BAHR

9 a public commenter
10 commented as follows:

11 MS. BAHR: My name is Jessie Bahr. I'm
12 President of Spring Creek Association.

13 First, I would like to thank and
14 acknowledge the Public Utilities Commission, the
15 BCP and their staff, Senator Goicoechea, and
16 Assemblyman Ellison for their hard work and
17 commitment in fixing the water meter reading issues
18 here in Spring Creek for our members.

19 As we all know, this issue is just a
20 small portion of the headache and frustrations that
21 the Spring Creek residents face with regards to
22 water. At the Association, the top issues we hear
23 daily are roads, Internet issues with Frontier, and
24 the water situation of rates in Spring Creek. I
25 would like to address two of those companies with

1 you tonight, unless you are able to fix Frontier or
2 our road issues, which would be a plus for us.

3 Water is a valuable resource in Nevada.
4 We're encouraged to conserve on water, and be
5 diligent in this matter, yet when we conserve Great
6 Basin Water Company can add this into rate bases
7 for their losses, and hence the death spiral we
8 have been talking about and continuing to refer
9 to.

10 Less and less people will use because
11 they can't afford the rates, and up and up the
12 rates will continue to go, until there are only a
13 few left to pay their ridiculously high rates, so
14 that the company continues to receive their rate of
15 return.

16 Property values are decreased, as many
17 cannot afford to water their lawns, as well as they
18 are creating many fire hazards, all because of
19 these rates.

20 Recently we have been faced with many
21 fires in our area, and a few very close hitting to
22 homes in the Association. After reviewing the fire
23 hydrant data provided by Great Basin Water Company
24 in regards to the pressures and placements, we are
25 truly facing a scary situation. The bottom line is

1 Great Basin water Company is not able to provide
2 what is needed to keep this community safe.

3 On another note, I would assume the
4 water company is going to be putting in for a rate
5 case by early next year, as the IRP states that
6 they are required to do so every three years. In
7 2009 there was a 100 percent increase, in 2012
8 there was a 72 percent increase, so in total there
9 has been almost a 250 percent increase over the
10 last few years. This is getting hard for our
11 members to keep up with.

12 The SCA will continue our plan to
13 resolve the water issues in Spring Creek through
14 various avenues, working with our elected
15 officials, the PUCN, and the BCP. This is not a
16 short process, with a lot of work
17 behind-the-scenes, but we can no longer accept the
18 sub-par operations and rates Great Basin Water
19 Company offers. As you can see, this community has
20 had enough.

21 Another note - and we understand that
22 the PUCN doesn't necessarily regulate Frontier, but
23 the BCP probably will help us in this matter -
24 Internet reliability in Spring Creek is also
25 severely lacking in our area. Consistent daily

1 outages, inability to connect, and slow speeds are
2 impeding Spring Creek and Elko County's ability to
3 run business, communicate, and take higher
4 education classes. We are isolated from larger
5 areas three to four hours, anywhere significant.
6 We need consistent, reliable access to these
7 services, as much these days as we need data from
8 other utilities. Frontier promises speeds up to
9 6 megabytes in many cases, yet delivers speeds of
10 less than 2 consistently.

11 Although the PUCN again does not have
12 any oversight with companies like Frontier and
13 their Internet, we hope to work with you towards a
14 solution for our residents. We have already made
15 an action plan in place to look at various avenues,
16 including working with the Governor's Office of
17 Science, Innovation, and Technology to resolve this
18 issue.

19 These are issues that are upon us in
20 our small yet growing community, and we hope you
21 can see the depth of what we're facing here as
22 residents.

23 Finally, again I appreciate your
24 involvement in looking at our issues, and I hope
25 you know we cannot stop fighting on our issues and

1 helping our community. We'll continue to push down
2 a path and travel every avenue possible to fix the
3 problems in our areas, and we hope that you
4 continue to help fight with us, the little guy, to
5 once again address all of our issues and problems.

6 Thank you.

7 (Applause)

8 HEARING OFFICER LOMOLJO: Thank you,
9 Miss Bahr.

10 (Public Commenter Excused.)

11 HEARING OFFICER LOMOLJO: And just
12 briefly, to respond to one issue, Miss Bahr is
13 correct, on Internet issues the Commission does not
14 have jurisdiction over Broadband over Internet
15 issues.

16 We do have jurisdiction over Frontier,
17 but only in terms of their landline service that
18 they offer in the area. Their Internet offerings
19 are not within the jurisdiction of the Commission.

20 The next card I have is Mr. Fred Voltz.

21 FRED VOLTZ

22 a public commenter

23 commented as follows:

24 MR. VOLTZ: Good evening. For the
25 record, Fred Voltz.

1 Yesterday's decision by the PUC to
2 grant refunds to some of the Great Basin Water
3 Company's customers in Spring Creek overbilled in
4 2016 regrettably failed to impose any
5 administrative fines for the very substandard
6 practices of the company, which include an
7 issue-dodging, false statements, and unreasonably
8 slow responses to customers.

9 Strange too, was the lack of interest
10 by Chair Reynolds in immediately disallowing legal
11 defense expenses incurred by the company on this
12 issue. Chair Reynolds punted the issue to the next
13 general rate case.

14 When the PUCN held hearings about this
15 matter on June 12th and 13th this year, no effort
16 was made to place the proceedings on the PUC's
17 Website for live and archived viewing. Traveling
18 600 miles plus to attend the two days of hearings
19 in Carson City is unrealistic and expensive for
20 people who have jobs and responsibilities that they
21 can't ignore.

22 The bigger question came up last year
23 when it was revealed during the discussion of
24 billing irregularities that the Company needed
25 \$20 million to fix the Spring Creek water

1 infrastructure, allowed to deteriorate because of
2 deferred maintenance. That translates into \$4,000
3 per customer.

4 So far there has been no investigatory
5 docket by the PUC on this issue, nor has the
6 company been tasked with creating a plan for
7 solving this problem.

8 Another issue in this area is the
9 desire of Southwest Gas to expand from Elko into
10 Spring Creek. Southwest has not asked the
11 residents and business owners of Spring Creek if
12 enough of them will agree to having the streets and
13 roads torn up to lay natural gas piping, nor if
14 they're prepared to spend thousands of dollars
15 placing pipe on their properties and in their
16 structures, as well as replacing or retrofitting
17 appliances.

18 Build it and they will come? Not very
19 good planning from the utility's standpoint, but
20 endorsed by the PUC in Docket 15-05025 for both
21 Spring Creek and Mesquite.

22 The PUC has reluctantly agreed to start
23 an investigation about the sketchy Energy Choice
24 Initiative and its implications for Nevadans, if it
25 passes on the ballot a second time in November of

1 2018. A much bigger consideration is the cost of
2 the various pieces of renewable energy legislation
3 passed earlier this year, as well as how much it
4 will cost ratepayers if Nevada goes to 100 percent
5 renewable energy.

6 The PUC's mission is to educate the
7 public and legislators about utility issues, but
8 there has been zero initiative by the PUC to do so,
9 and to perform the all-important cost calculations
10 expressing kilowatt hour rates and service charges,
11 so that Nevada can make smart and economical
12 decisions about renewable energy and its expansion.

13 Thank you.

14 (Applause)

15 HEARING OFFICER LOMOLJO: Thank you.

16 (Public Commenter Excused.)

17 HEARING OFFICER LOMOLJO: And just to
18 clarify one item, the docket number referenced,
19 15-05025, is what is called a rulemaking docket,
20 and what that docket did was set forth the rules by
21 which Southwest Gas could come to the Commission
22 and request authority to expand to an unserved
23 area. That's what that docket did, it just set
24 forth the rules.

25 Southwest Gas has not, as of today's

1 date, filed any application with the Commission
2 requesting permission to expand to the Spring Creek
3 area. I do know that they are looking at that, but
4 that has not been placed before the Commission.

5 The next card I have is Donald Jones.

6 DONALD JONES

7 a public commenter

8 commented as follows:

9 MR. JONES: For the record,
10 Donald Jones.

11 I probably will not be as eloquent as
12 many of these others, but good evening. Thanks for
13 coming.

14 I've just got a couple of issues that
15 are personal to my family.

16 One, with the water debacle that
17 happened last year, or earlier this year, or
18 however you want to look at it, this is not the
19 first time that Utilities, Inc. or Great Basin
20 Water Company, or Spring Creek Utilities, or
21 whatever they were, has done an approximated
22 billing. There have been numerous times in
23 previous years where they have put on the bill
24 an amount of water and estimated next to it.

25 Earlier this year, with the amount of

1 water that we have naturally come down from the
2 sky, my -- yes, we were just totally shocked at
3 the price increase, I believe it was in May, and I
4 actually went out and took a picture of the meter,
5 and we called the water company, and so they
6 changed the meter reading so that we didn't have to
7 pay that amount.

8 But this is, as I said, this is not the
9 first time, and this type of thing has been
10 happening for years.

11 In regard to my other complaint, I use
12 Frontier, of course, but it's telephone service and
13 Internet, and they also bill us -- or we pay for
14 Dish Network through their service. Up until three
15 billing cycles ago we were getting a 50 percent
16 discount because of having them bundle everything
17 for us. This has been going on, this rate or
18 discount had been going on for well over a decade,
19 and yet three months ago when we called we were
20 told, oh, that was just a promotional deal.

21 It's kind of interesting to me that
22 a promotion would last that long and not have
23 any notes on the bill of when it was going to
24 expire.

25 So just a couple of things. Thank you

1 for your time.

2 (Applause)

3 HEARING OFFICER LOMOLJO: Thank you.

4 (Public Commenter Excused.)

5 HEARING OFFICER LOMOLJO: And just to
6 remind everybody, we do not have jurisdiction over
7 those issues with Frontier with the satellite or
8 the Internet, just so we're not setting
9 expectations of something that we can't handle.
10 It's not within our legal jurisdiction.

11 The next card I have is Terry Lister.

12 TERRY LISTER

13 a public commenter

14 commented as follows:

15 MR. LISTER: I hope I do this better
16 than I do karaoke.

17 I want to thank you for being here. I
18 want to thank our Assemblyman and our Senator for
19 being here. I want to thank everybody in this room
20 for being here. And I thank Jessie and the Board
21 for being here this evening, and I thank them.

22 I served on this board for eight years,
23 so I'm no stranger to standing at this podium with
24 you guys, talking to you guys. And the only thing
25 I can say is I wish it would have happened a lot

1 sooner.

2 I do have a couple questions. I'm not
3 going to go into a big scenario about how my rental
4 property had this enormous water bill, and all
5 this, but I did insist that they change the meter.
6 They changed the meter, and about two weeks later
7 they called me up and said, your meter is fine, and
8 they sent me all the data on it.

9 Well, I got to looking at the data, and
10 I don't know how many people realize this, but when
11 Spring Creek Utilities customers, but when they
12 send those meters out, they don't send them out to
13 Nevada State Measures, or anything like that, they
14 send them to a private company in California. What
15 kind of connection they have with the private
16 company in California, I have no idea. I want to
17 be truthful, I have no idea, but it sure sends a
18 lot of red flags up to me.

19 You know, if you go get a gallon of
20 gas, you know you are getting a gallon of gas
21 because those things are tested -- those meters are
22 tested all the time by Weights and Measures. I
23 would like to know why the private utility company
24 doesn't have their meters tested by the Nevada
25 State Weights and Measures.

1 Thank you.

2 (Applause)

3 HEARING OFFICER LOMOLJO: Thank you.

4 (Public Commenter Excused.)

5 HEARING OFFICER LOMOLJO: The next card

6 I have is Logan Smith.

7 LOGAN SMITH

8 a public commenter

9 commented as follows:

10 MR. SMITH: Good evening, everybody.

11 The ironic thing about me being here is
12 exactly a month ago today, I believe it was a
13 Tuesday, I work at Sizzler, I had gotten off of
14 work, I came home ready for a nice hot shower, and
15 I had a notice hanging on my doorknob, and that my
16 water was shut off for over-usage, which kind of
17 shocked me, because this was the month of August,
18 and I worked almost every single day. I am a
19 single father. No one else was at the house.

20 So when I called them the next morning,
21 and they told me that I had used 152,000 gallons of
22 water, okay, my highest bill in two years I think
23 had been \$60. So they said they couldn't tell me
24 what the bill was, and when I finally did get it,
25 it said \$758 for one month. \$400 in plumbers to

1 find a leak that was not there, okay, and then when
2 I actually called Utilities, Incorporated, they
3 were kind enough to send me a bar graph showing me
4 the 5,000 gallons, it was 4,000 and change a day
5 that was being used somehow. And yet no leak was
6 found.

7 And are they going to send somebody out
8 to check my meter? No. Their response was, you
9 can make payment arrangements spread out throughout
10 a certain amount of months you can pay this bill.

11 The bill, I still haven't paid it, and
12 I'm not really quite sure. I mean, I have all the
13 information now to file a complaint, and that's
14 what I intend to do.

15 I guess, I mean, I'm out the money for
16 the plumber, but now I have to pay this bill, and I
17 never pay my bills late, so I guess I'm kind of in
18 a situation where I feel kind of helpless because,
19 you know, I have my son there, I can't have the
20 water turned off, they're not legally, I don't
21 think allowed to turn it off, but I still am stuck
22 with this \$750 bill.

23 And the property itself, the previous
24 homeowner let the grass die. As you guys were
25 talking about earlier, let the grass die and let

1 everything die. So 152,000 gallons. And I have
2 weeds, I mean, I cut them, but 152,000 gallons,
3 that amount of water (inaudible) the weeds are
4 still there. I took pictures.

5 So I guess I just wanted to share that
6 with everybody, and this is the reading from last
7 month, so apparently this issue is still happening.

8 HEARING OFFICER LOMOLJO: Mr. Smith, I
9 would ask you to go talk to our consumer complaint
10 representatives, Mr. Kostas and Miss Jones over
11 there, and they can help you with that issue, and
12 get you in contact with the company, and actually
13 start to file a complaint, if that's what you want
14 to do.

15 MR. SMITH: Definitely.

16 HEARING OFFICER LOMOLJO: Okay. Thank
17 you.

18 MR. SMITH: Thank you.

19 (Applause)

20 (Public Commenter Excused.)

21 HEARING OFFICER LOMOLJO: The next card
22 I have is Brian Park.

23 BRIAN PARK

24 a public commenter

25 commented as follows:

1 MR. PARK: I'm Brian Park. Thank you
2 for coming. I couldn't afford to go to Reno,
3 and for an evening to talk to you or even to
4 complain.

5 I know that there is only 100, 200
6 people here, but everybody in my office, when I
7 said, hey, I'm going to this meeting; they were
8 like, oh, I wish I could go. But you know
9 everybody is more willing to Facebook than they are
10 to come and complain about something that really
11 affects their lives.

12 And so I appreciate you coming here,
13 and listening to us talk.

14 I have had no issues with my water
15 bill. Surprising, I'm one of the people that
16 haven't, but I know that I cannot afford a rate
17 hike. I have three children. I have a nice
18 green garden. I'm willing to pay what I can pay
19 right now, but I can't continue to pay for a rate
20 of return on investment that is greater than
21 what I make on my return for investment for
22 retirement. I mean that's greater -- I mean, like
23 the best month is when I make that rate of return.
24 Normally it's around 7 or 8 percent.

25 That's great, a business should be

1 making money, people should be making money on
2 their investment, but to have people continuously
3 receive a high rate of return, and then have a
4 company request rate increases because they need to
5 make repairs, well, maybe that company needs to not
6 make an 8 percent, a 15, I don't know, is it a 25;
7 I just know that it's greater than what I make on
8 my retirement. That rate of return is greater than
9 what most people, or anyone, can afford.

10 So we all know that they need to do
11 repairs. They bought a really crappy system, it
12 was a bad investment, but if you can suck the life
13 out of people, then it's a great investment.

14 And I encourage you to look at that
15 rate of return, and look at what needs to be done.
16 It was mentioned that maybe we need a longer
17 payment back, payback, or I don't even know what
18 that business is, I'm still a scientist, i did that
19 because it doesn't deal with a lot of numbers, and
20 it doesn't involve people, and so that was great
21 for me, but I know that I cannot afford the rate of
22 return on investment that they are getting at this
23 moment, and then still have the rate increase to
24 make a fix of a really crappy investment.

25 Thank you.

1 (Applause)

2 (Public Commenter Excused.)

3 HEARING OFFICER LOMOLJO: The final
4 card I have is John Featherston.

5 JOHN FEATHERSTON

6 a public commenter
7 commented as follows:

8 MR. FEATHERSTON: Good evening, Spring
9 Creek. I'm glad you all showed up tonight. We all
10 took time out of our busy lives to be here, much
11 the same as you guys did. I thank the PUCN and
12 the Bureau of Consumer Protection for being here
13 tonight.

14 A few points I wanted to make on here.
15 Some of the stuff that I've said, and everybody
16 else has said in the past, the water, I think
17 really the rates are insane. It's out of control.
18 Much like Brian just mentioned, to even consider
19 another rate increase would be ludicrous; there is
20 no way that we can afford that.

21 I can't afford their water. I mean,
22 this is a basic need for everybody in the Valley,
23 and much like Jessie said as well, we need to
24 protect our home values.

25 The last time when we were here in the

1 spring I had made a comment about how much I see
2 the people aren't being able to afford the water to
3 live off, but at least to have home gardens, and to
4 grow vegetables, and to even train their kids on
5 how that's done. And I read over some of the
6 comments that Wendy Barnett made, and her solution,
7 her honest to goodness solution for that was to
8 have a community garden. And because we all know
9 that somehow plants growing in a community garden
10 use less water than what is grown in private
11 gardens.

12 We need a solution. We need a
13 sustainable solution for Spring Creek. The Senator
14 said it, Ellison said it, it's absolutely true, we
15 need a plan for how we're going to make this a
16 sustainable system.

17 Next, I want to discuss the Internet
18 issue. I realize it's not a PUCN issue, but it is
19 a Bureau of Consumer Protection issue. We pay a
20 pretty good price for about six bucks, megabytes a
21 second, and I mean, at our house I have not seen it
22 go passed 1.2. This needs to be resolved. Either
23 Frontier needs to make significant improvements in
24 their system, or they need to charge for their
25 services accordingly.

1 And as for Southwest Gas, that is
2 definitely -- if we had the system, it would
3 definitely be the economically viable needs for
4 heating our homes or for heating water. It's
5 significantly cheaper than propane and electric
6 that we have right now.

7 Now this is disruptive to the
8 community, they do need to dig trenches, a lot of
9 infrastructure has to go in to make this happen.
10 At the same time, we also obviously need the water
11 improvements, we're looking at new pipes, new
12 meters, new valving, I believe that Nevada Energy
13 actually wanted to do some improvements on their
14 system - I might be wrong on that, but I believe
15 that's true - because there are a lot of cables
16 that are buried in the soil, so why not just dig
17 one trench? Is that a viable option? Can we
18 install new water infrastructure, new power if
19 needed in the areas, and new gas to supply Spring
20 Creek. So I wanted to put that out there.

21 Thank you for your time.

22 (Applause)

23 HEARING OFFICER LOMOLJO: Thank you.

24 (Public Commenter Excused.)

25 HEARING OFFICER LOMOLJO: And I want to

1 thank everybody for coming out tonight. Your input
2 is very valuable to the Commission, and as I've
3 said - okay; we have a couple more cards - while
4 those are coming up, just to remind everybody, we
5 are recording tonight's consumer session, and it
6 will also be transcribed for our Commissioners to
7 both listen to if they like and to read.

8 Okay. The next card is Greg Reeder.

9 GREG REEDER

10 a public commenter

11 commented as follows:

12 MR. REEDER: My name is Greg Reeder. I
13 live at 574 Cripple Creek Drive here in Spring
14 Creek.

15 I just moved back to Spring Creek from
16 Elko. And I really don't control the Internet, but
17 I served in education for 30 years in this
18 community and in the Elko community. It's a
19 disservice to the young people of this community to
20 not have Internet.

21 When I moved back, and I moved here in
22 August back to Spring Creek, I contacted Frontier
23 about Internet service. I think you do control
24 their billing process. I paid for my service that
25 I never receive all the way through October. There

1 was no offer to, oh, we'll give you a discount
2 because we don't have Internet for you; it was
3 just we got to talk to people that were in
4 California. We didn't get to talk to anybody in
5 Nevada. The people at the Frontier office here in
6 town could do nothing for us. Oh, call this
7 number. I made numerous calls, and all we heard
8 was, oh, we're working on the issue.

9 I said, what about reducing my bill
10 until you get it fixed? Oh, we can't do that.
11 Excuse me? I'm paying for a service that I don't
12 get.

13 And I think that's what's getting
14 people upset with Frontier. Even though you can't
15 deal with the Internet, they keep charging us the
16 same rates that we were paying earlier, and they
17 make no adjustment. They just stick it to the
18 consumer.

19 Thank you.

20 (Applause)

21 HEARING OFFICER LOMOLJO: Thank you.

22 (Public Commenter Excused.)

23 HEARING OFFICER LOMOLJO: The last card
24 I have is Jeremy Bell.

25

1 JEREMY BELL
2 a public commenter
3 commented as follows:

4 MR. BELL: I thank you. I'm
5 Jeremy Bell, for the record.

6 I moved in about a year ago, I closed
7 a year ago today I think, and I've watched my water
8 bill, and I've got a 450 gallon hot tub and a 4,000
9 gallon above-ground swimming pool, and my water
10 bill seems to work. My lowest one was about \$37,
11 and my highest one, when I filled my swimming pool,
12 was about \$70.

13 And so I'm pretty shocked at the
14 system, and apparently the system doesn't work for
15 everyone, and I really would like it to work for
16 everyone because it really should.

17 So I'm not sure if it's a rates issue,
18 or it's a system issue, because if my meter is
19 reading right, and everything is fine, then the
20 rates don't seem absurd to me, what seems absurd is
21 the way that everybody is using water is not being
22 read equally or everybody's water is -- the
23 meter is reading a different size of a gallon, I
24 guess.

25 It just doesn't quite seem right. And

1 I would love see the fix, I would love to see the
2 green grass on people's homes, and I would love to
3 see our values go up.

4 But thanks for everybody here. I
5 appreciate you hearing me (inaudible) and the
6 opportunity I have had.

7 Thank you very much.

8 (Applause)

9 (Public Commenter Excused.)

10 HEARING OFFICER LOMOLJO: Okay. I have
11 another card, Cheryl Madrid.

12 CHERYL MADRID

13 a public commenter

14 commented as follows:

15 MS. MADRID: Hi. I don't like speaking
16 in public, and this is the first meeting I've been
17 able to come to, and I kept waiting for someone
18 else to bring up, and I didn't hear it but --

19 UNIDENTIFIED SPEAKER: We can't hear
20 you.

21 MS. MADRID: I believe you said earlier
22 that you are in charge of just the landlines as far
23 as Frontier goes?

24 HEARING OFFICER LOMOLJO: That is
25 correct. We have no jurisdiction over the

1 Internet.

2 MS. MADRID: Okay. So is it my
3 understanding that the landline is what caused our
4 911 system to go down?

5 HEARING OFFICER LOMOLJO: I'm not sure
6 about that, but I can get that information for
7 you.

8 MS. MADRID: I believe everyone in here
9 probably knows that our 911 systems are down
10 because of Frontier, and all they had to say about
11 it was that it would cost them all of this money to
12 fix our landline.

13 So in the meantime, all of us have to
14 call, I believe it was the Sheriff's dispatch, if
15 there was an emergency, and we couldn't use the
16 911.

17 That's really all I have to say.

18 HEARING OFFICER LOMOLJO: Thank you,
19 Miss Madrid.

20 (Applause)

21 HEARING OFFICER LOMOLJO: Miss Madrid,
22 there is a Consumer Complaint Division
23 representative here, and we can get some more
24 information about that, and we can get back to you
25 on that issue.

1 (Applause)

2 (Public Commenter Excused.)

3 HEARING OFFICER LOMOLJO: Okay. I
4 believe that's all the cards that we have for
5 tonight.

6 And I want to the thank everybody for
7 coming out tonight. Thank you.

8 (Applause)

9 (The Consumer Session was Adjourned.)
