

# State of Nevada Department of Transportation

*Report to the 2019 Legislature ~ As Required by the NRS 408.203 (3)  
Supplement to the Highway Preservation Report*

This report is prepared in accordance with NRS §408.203(3), which states:

“Report to the Legislature by February 1 of odd-numbered years the progress being made in the Department’s Twelve-Year Plan for the resurfacing of State highways. The report must include an accounting of revenues and expenditures in the preceding two fiscal years, a list of the projects which have been completed, including mileage and costs, and an estimate of the adequacy of projected revenues for timely completion of the plan.”

Contents:

- ▶ An accounting of revenues and expenditures in the preceding two fiscal years
- ▶ The fiscal year 2017 Actual Work Program
- ▶ The fiscal year 2018 Actual Work Program

Note:

An estimate of the adequacy of projected revenues, as referenced above, is contained within the State Highway Preservation Report which is provided separately.

---

# Foreword

This Actual Work Program<sup>1</sup> lists the projects the Department advertised during Fiscal Year 2017. Work on construction projects may span several fiscal years.

The costs shown are the contract bid prices for construction and include required work by forces other than the contractor (local entities, railroads, State forces, etc.). The costs do not include related design or right of way costs, as these costs are normally obligated two to three years prior to construction obligations.

1. Actual Work Program does not include projects completed by state forces or district contracts costing less than \$250,000 each.

Work Program Summary	25

---

# Foreword

This Actual Work Program<sup>1</sup> lists the projects the Department advertised during Fiscal Year 2018. Work on construction projects may span several fiscal years.

The costs shown are the contract bid prices for construction and include required work by forces other than the contractor (local entities, railroads, State forces, etc.). The costs do not include related design or right of way costs, as these costs are normally obligated two to three years prior to construction obligations.

1. Actual Work Program does not include projects completed by state forces or district contracts costing less than \$250,000 each.
