

Present: Wilson, Swallow, Brookman, Foote, Frazzini, Homer

Absent: Hafen, May, Espinoza

Guests: Mr. O. Wahrenbrock, Department of Health Welfare & Rehab.

Chairman Wilson called the meeting to order.

Wilson pointed out that AB-738 was indefinitely postponed and he asked Mr. Wahrenbrock if he wished to make any comments.

Wahrenbrock: This is a federal requirement that we create some advisory board to ADC etc. We do not want 18, we want to have 6. There is a federal requirement and if the bill does not pass, then it would be up to the Federal government to say you're out of conformity. Up to this point nobody has called the bluff of the federal government.

It was thought that a committee that meets once a year could not be of much good.

Foote discussed AB-590 which was defeated today and a notice of reconsideration given, it was asked in the session about Par. 2, Sec. 2, Page 2 of that bill. Other amendments discussed.

Mr. Wahrenbrock is to write a statement explaining this bill and give to the committee.

MEETING ADJOURNED.
