PUBLIC RESOURCES AND ECOLOGY

Minutes of meeting

April 16, 1973

Senator Wilson in the Chair.

Committee members present:  Senator Bryan
Senator Blakemore
Senator Dodge
Senator Young
Senator Necht
Senator Echols

Senator Wilson called the meeting to order at 7:25 p.m.

A.B. 351: Reorganizes structure of state and county fish and game administration.

Mr. Roger Taglia, Upland Game Committee, stated that this is a confusing bill and it does not improve anything. Mr. Taglia recommended that we forget this bill this Session. A nine-man commission is all that is necessary.

Senator Monroe stated that he would like to protest the passage of this bill, in that it would tie the Governor's hands. He would have no say in who he appoints. Senator Monroe felt that the Governor would not sign the bill even if it were passed.

Bill Embry, Nevada Fish & Game, stated that the commission working nicely as it is, and they are for the nine-man commission.

A.B. 630: Provides for dust-control measures in mining and related industries.

Paul Gennill, Nev. Mining, stated that we should permit the operator to provide dust protection equipment in order to protect man's health.
Senator Wilson stated that after notification of Joe Dini, we would hear this bill tomorrow.

Senator Wilson asked of Ray Knisley if A.B. 489, A.B. 477 and A.B. 472 were structurally parallel. Mr. Knisley answered in the affirmative and further stated that the purpose of bringing A.B. 439 amendments before the committee was to show the purpose of A.B. 472.
A.B. 472: Enacts Nevada Water Pollution Control Law.

A.B. 477: Provides commission with authority to promulgate engine and exhaust emission standards for motor vehicle pollution control.

S.B. 489: Changes and clarifies administrative responsibilities for control of air pollution.

(See Exhibit "B" for proposed amendments to A.B. 472 and Exhibit "C" for proposed amendments to S.B. 489)

Mr. Ernie Gregory, Division of Health, stated that there are two principle provisions to A.B. 472: One is for the planning authority - they have to develop a continuing process to maintain their construction grants. Currently, for fiscal year 1973 and 1974 they are speaking about 14.4 million dollars in federal funds for construction. This provides 75% funding to the municipalities for construction of sewage treatment. Also there is authority to permit point source discharges into the receiving waters or sewage collection system. Speaking both to A.B. 489 and A.B. 472, the pollution control people have to get into some aspects of the land planning.

Senator Wilson stated that some of these provisions are duplicating A.B. 489. Jan Wilson, Leg. Counsel Bureau, stated that that is what part of the amendments are addressed to, so that the definition is identical - this would conform them so they are identical.

Senator Blakemore asked why we have these amendments when this bill is dated March the 5th, has gone through the Assembly and we suddenly decide it needs an amendment - why?

Mr. Gregory stated that some of the provisions in A.B. 489 that this committee came up with are great and should be included in this one. To further explain this bill, Mr. Gregory stated that anyone that discharges toxic material to receiving waters, will have to have a permit and this permit will stipulate monitoring provisions and establish discharge requirements. The municipalities themselves will be permitted to discharge to receiving waters, with certain restrictions imposed on what they can discharge. Previously, they just had to report what was discharged. Senator Dodge asked why we are repealing Section 71, since they thought it was a good act two years ago. Mr. Gregory stated that there were no provisions for planning process.

At this point, the committee members with the assistance of Ernie Gregory, Ray Knisley and Jan Wilson perused A.B. 472 and the amendments. Mr. Gregory, Mr. Knisley and Ms. Wilson, upon request of the committee members, furnished input in regards to the proposed amendments. On Tuesday, April 17, 1973, upon request of the committee secretary, "Ms. Wilson furnished copy of the revised amendments that were discussed at this meeting. (See Exhibit "B" for revised amendments).

Upon completion of an extensive discussion period in which the revised amendments were attained, Senator Bryan moved that we amend the bill and re-refer to the Ecology Committee, seconded by Senator Scholz.

Senator Wilson adjourned the meeting at 11:00 p.m. and stated that the committee would meet again tomorrow evening at 7:00 p.m.

Respectfully submitted,
