**(b) Testified at the hearing:** Dr. C. Dean Milne; Dr. Scott Manthei; Paul Edwards, Esq.; Dr. Daniel Curtis; Dr. James Mahoney; Denise Selleck-Davis of NOMA; and Dr. Robert Kessler.

**(c) Submitted to the Board written comments:** No written comments were submitted to, or received by, the Board.

**(d) Also testifying at the previous workshops:** Weldon Havins, M.D.

**3. A description of how comment was solicited from affected businesses, a summary of their response, and an explanation how other interested persons may obtain a copy of the summary.**

Comments were solicited from affected and interested businesses and persons by the notices set forth in #1 above, and by direct mail to the approximately 10 interested businesses and/or persons on the Board's mailing list. Also, information was contained on the website.

**4. If the regulation was adopted without changing any part of the proposed regulation, a summary of the reasons for adopting the regulation without change.**

The Board adopted all regulations except for three as written. Three regulations were revised based upon the comments/discussion by Ms. Selleck-Davis and Dr. Kessler.

**5. The estimated economic effect of the adopted regulation on the business which it is to regulate and on the public. These must be stated separately, and each case must include: (a) Both adverse and beneficial effects; and (b) Both immediate and long-term effects.**

**(a) Adverse and beneficial effects.**

The proposed regulations present no foreseeable or anticipated adverse economic effects to businesses or the public. Regulations were simply created to supplement the four new licenses and the various bills/laws enacted by the 2009 Nevada legislature, along with a total review of the practice regulations as required by NRS chapter 233B.

**(b) Immediate and long-term effects.**

Same as #5(a) above.

**6. The estimated cost to the agency for enforcement of the adopted regulation.**

The proposed regulations present no significant foreseeable or anticipated cost for enforcement. There may be some minor administrative costs for the Board in establishing and policing the special licenses at issue in SB 269 and SB 266, which are not quantifiable at this time.

**7. A description of any regulations of other state or governmental agencies which the regulation overlaps or duplicates and a statement explaining why the duplication or overlap is necessary. If the regulation overlaps or duplicates a federal regulation, the name of the regulating federal agency.**

The proposed regulations are particular to the Nevada State Board of Osteopathic Medicine's practices and procedures and do not appear to overlap or duplicate regulations of other state or local governmental agencies.

**8. If the regulation includes provisions which are more stringent than a federal regulation which regulates the same activity, a summary of such provisions.**

There are no known federal regulations pertaining to the subjects of the proposed regulations.

**9. If the regulation provides a new fee or increases an existing fee, the total annual amount the agency expects to collect and the manner in which the money will be used.**

The proposed regulation does not provide a new fee or increase an existing fee. The regulations merely codify what is already in statutes, NRS chapter 633.

**SMALL BUSINESS IMPACT STATEMENT FORM**  
**NEVADA STATE BOARD OF OSTEOPATHIC MEDICINE**  
**LCB FILE NO. R154-09**

1. Our agency has determined that the rule/s we are proposing have the following type of impact on small businesses:

Direct impact (*please complete remainder of form*)

**XX Indirect impact** (please provide a brief explanation, then sign, date, and submit form. Questions 2 through 8 do not need to be answered)

Senate Bills 266 and 269, creating NRS 633.418 and NRS 633.419 respectively and four new/different types of licenses, were passed by the 2009 Legislature. The Board is required to draft and ultimately adopt regulations concerning the new licenses. The fees for these licenses are less than the regular licensing fee. The licenses are for individuals who are employees of the Nevada State Department of Corrections, the Nevada State Department of Health & Human Services, for retirees who wish to offer pro bono medical services either in time of disaster or for uninsured/low income individuals, and for experts who wish to offer demonstrations to local physicians in new/improved procedures/practices.

The remainder of the regulations should have no impact on small businesses as they are merely clarification of existing procedural regulations. For example, the doctors are required to notify us “in writing” of certain events as well as require certain notification to be within 30 days. Certain changes were made in the regulations pursuant to LCB File No. R192-07 (i.e., changing “licensee” to osteopathic physician thus omitting the regulating of physicians’ assistants); and we are changing the term “osteopathic physician” to “osteopathic physician” and “physicians’ assistants” since both are licensees of this board.

Two separate workshops were held concerning these regulations providing ample opportunity for small businesses/licensees to participate and offer comments and/or revisions to the proposed regulations. Because there is no direct impact on small businesses, however, responses to Questions 2 – 8 are unnecessary.

At the public hearing on 6-15-2010, Denise Selleck Davis of NOMA appeared and offered comment as well as Dr. Robert Kessler. Minor changes were made pursuant to the suggestions of these individuals.
