A description of how comment was solicited from affected businesses, a summary of their response and an explanation of how other interested persons may obtain a copy of the summary. Affected businesses were mailed a notice stating to view proposed regulation changes online (www.cpe.state.nv.us) or contact the Commission to mail a copy. The notice also directed them to a questionnaire which they could use to submit comments. There were nine comments submitted, six indicating that the changes did not impact their business. The remaining three comments did not relate to proposed changes but rather to existing regulations and a summary is attached. A copy can be obtained by contacting the Commission on Postsecondary Education, 3663 East Sunset Road, Suite 202, Las Vegas, NV, 89120, 702-486-7330, dperlman@cpe.state.nv.us.

If the regulation was adopted without changing any part of the proposed regulation, a summary of the reasons for adopting the regulation without change.

This is to certify that the regulations were **NOT** adopted without changes to the proposed regulations.

The estimated economic effect of the regulation on the business which it is to regulate and on the public. These must be stated separately, and in each case must include:

Both adverse and beneficial effects; and

There is no adverse economic impact because none of the proposed changes increase regulatory requirements. The purpose of the changes was to consolidate related requirements to make them easier to understand and follow (beneficial). Additionally, unnecessary and duplicated

regulations are to be deleted. This will have beneficial economic impact as regulations will be easier to find and duplication and unneeded regulations will be eliminated.

Both immediate and long-term effects.

Both immediate and long term economic impact will be to help applicants and licensed school comply with standards since they will be logically co-located and easier to find and follow.

The estimated cost to the agency for enforcement of the proposed regulation.

There are no new regulations being proposed so the cost to enforce the regulations will not change.

A description of any regulations of other state or government agencies which the proposed regulation overlaps or duplicates and a statement explaining why the duplication or overlapping is necessary. If the regulation overlaps or duplicates a federal regulation, the name of the regulating federal agency.

There are other state agencies that regulate specific businesses such as the State Board of Cosmetology and the Nevada Department of Education. There are some similar regulations but they pertain to business not under the authority of the Commission on Postsecondary Education and these proposed changes.

If the regulation includes provisions which are more stringent than a federal regulation which regulates the same activity, a summary of such provisions.

To my knowledge, there are no federal regulations which regulate the same activities included in the proposed regulations.

If the regulation provides a new fee or increases an existing fee, the total annual amount the agency expects to collect and the manner in which the money will be used.

The proposed regulations do not provide for any new fees nor increase any existing fees.
