NEVADA TRANSPORTATION AUTHORITY**

**LCB File No. R061-13**

October 24, 2014

EXPLANATION – Matter in *italics* is new; matter in brackets ~~omitted material~~ is material to be omitted.

AUTHORITY: §§1-4, NRS 706.171; §5, NRS 706.171 and 706.321; §6, NRS 706.171, 706.173 and 706.475.

A REGULATION relating to motor carriers; revising the definitions of “bus” and “livery limousine”; revising certain provisions regarding the solicitation of passengers by a common motor carrier of passengers or his or her employee; authorizing a designated agent who arranges transportation service through an electronic ride hailing system to charge and collect certain fees; revising provisions relating to fuel surcharges assessed by charter limousine operators; revising provisions governing the period during which certain motor vehicles may be placed in service as taxicabs; and providing other matters properly relating thereto.

**Legislative Counsel’s Digest:**

**Sections 1 and 2** of this regulation revise the definitions of “bus” and “livery limousine,” respectively, for the purposes of provisions of chapter 706 of NAC governing the operation of certain motor carriers regulated by the Nevada Transportation Authority.

**Section 3** of this regulation limits only to a common motor carrier of passengers or his or her employee the applicability of certain existing restrictions regarding the solicitation of passengers by a fully regulated carrier or his or her employee. (NAC 706.228)

**Section 4** of this regulation authorizes a designated agent who arranges transportation services through an electronic ride hailing system to charge and collect directly from passengers a system access and payment fee, the amount of which cannot exceed the amount of the fee prescribed by order of the Authority. (NAC 706.311)

**Section 5** of this regulation revises provisions relating to the fuel surcharges which may be imposed by a charter limousine service to provide that the fuel surcharge must include a minimum charge for 1 hour, but that subsequent fuel surcharges may be charged in one-half hour increments.

Existing regulations place limitations on the period during which a motor vehicle may be operated as a taxicab. Existing regulations also require that, in a county whose population is 100,000 or more but less than 700,000 (currently Washoe County only), each vehicle which a

certificate holder places into service as a taxicab for the first time must be new or have been driven less than 50,000 miles. (NAC 706.3745) **Section 6** of this regulation exempts from this requirement a certificate holder whose authority to operate is limited to areas of the county outside of the city limits of any city with a population of 60,000 or more. **Section 6** also provides that a hybrid electric vehicle which is placed into service as a taxicab may be operated as a taxicab for an additional period of 24 months beyond the period specified for other motor vehicles.
