

**PROPOSED REGULATION OF THE
STATE FIRE MARSHAL**

LCB File No. R125-13

Section 1 NAC 477.2835 is hereby amended to read as follows:

NAC 477.2835 Training of firefighters: Compliance with national standards. (NRS 477.030)

*1. Fire departments that provide training to firefighters using techniques or exercises which involve the use of fire or any device that produces or may be used to produce fire must follow the requirements set forth in **the most recently adopted version of** N.F.P.A. Standard 1403, **as referenced in NAC 477.281**, on live fire-training evolutions.*

*2. **Personnel directly supervising live fire training evolutions and all personnel managing training programs involving live fire training evolutions must hold a certification from the State Fire Marshal as a Fire Service Instructor at Level II, or higher.***

*3. **Construction of all live fire training structures, either permanent or temporary in nature, must comply with the requirements set forth in the most recently adopted version of N.F.P.A. Standard 1403, as referenced in NAC 477.281, including design oversight and periodic inspection conducted by an individual licensed in accordance with NRS Chapter 625 working within their area of expertise.***

*4. **Evaluation, inspection and modification of any existing acquired structure to be used for live fire training evolutions must comply with the requirements set forth in the most recently adopted version of N.F.P.A. Standard 1403, as referenced in NAC 477.281.***
