The Department is proposing a fee increase to support departmental infrastructure and the noxious weed program set aside to more effectively participate in the state's protection of sage grouse in an attempt to prevent the species being listed as threatened and endangered. The current fee for pesticide registration in Nevada is \$100 per product; we are proposing an increase to \$150 per product; surrounding states currently charge from \$750 per product (California) to \$100 per product (Arizona).
