A REGULATION relating to education; revising provisions relating to programs for pupils with disabilities; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Existing law authorizes the State Board of Education to adopt regulations for the execution of its powers and duties. (NRS 385.080) Existing law also requires the Board to prescribe minimum standards: (1) for the special education of pupils with disabilities and gifted and talented pupils; and (2) for examinations to find the extent to which pupils deviate from normal growth and development patterns. (NRS 388.470, 388.520)

**Sections 3-5, 7-12, 15-20, 22-24, 26-42 and 46-76** of this regulation revise various provisions relating to the determination of eligibility for and administration of programs for pupils with disabilities. **Section 8** requires a public agency to ensure that a pupil with a disability is provided instructional materials in an accessible format in a timely manner. **Sections 9 and 47** also establish standards for a parent of a pupil with a disability to give informed consent for assessments and services for the pupil. **Section 33** requires the decision on the placement of such a pupil to be based on the pupil's individualized educational program and in the least restrictive environment to the maximum extent appropriate.

Existing regulations require a public agency to: (1) allow the parents of a pupil to review the pupil's educational records and request an amendment of certain information in the records; and (2) protect the confidentiality of personally identifiable information in such records. (NAC 388.287-388.289) **Sections 2, 6 and 43-45** of this regulation revise these provisions to apply to agencies with personally identifiable information rather than public agencies. Existing regulations require a public agency to remove any personally identifiable information of a pupil from certain findings of fact and decisions before transmitting them to the Special Education Advisory Committee of the Department of Education and making them available for public inspection. (NAC 388.310) **Section 53** of this regulation revises these provisions to require the Department to remove any personally identifiable information rather than a public agency.

**Sections 13, 14, 21, 25, 70, 72 and 73** of this regulation replace the term “mental retardation” with the term “intellectual disability” in accordance with the provisions of Senate Bill No. 338 of the 77th Legislative Session. (Chapter 186, Statutes of Nevada 2013, at page 661)

(b) The behavior of the pupil while in the classroom, on the premises of any public school, at an activity sponsored by a public school or on any school bus; or

(c) The need for the pupil to be evaluated for special education or related services.

**Sec. 33.** NAC 388.245 is hereby amended to read as follows:

388.245 1. A pupil with a disability may not be placed in a special class or in a school different than the one the pupil would normally attend, or otherwise removed from the regular educational environment, unless:

(a) The pupil's individualized educational program otherwise provides; and

(b) The nature or severity of the disability of the pupil is such that, even with the use of supplementary aids and services, the pupil cannot be educated satisfactorily in the regular educational environment.

↪ A pupil with a disability, including a pupil in a public or private institution or other care facility, must be educated with pupils who are not disabled to the maximum extent appropriate and may not be removed from an age-appropriate regular classroom solely because the pupil needs modification to the general curriculum.

2. A public agency shall provide a continuum of alternative placements to meet the needs of any pupil with a disability for special education and related services necessary to implement the

individualized educational program for each pupil with a disability. This continuum must include, as appropriate:

4. In developing a pupil's individualized educational program, the committee which develops the program shall provide for the least restrictive environment to the maximum extent appropriate. In making this determination, the committee shall consider any potential harmful effects on the pupil and the quality of services required by the pupil. The committee shall

provide for the placement of the pupil in a regular class unless the committee determines that the pupil cannot receive an appropriate education in a regular class, even with supplementary aids and services. The basis for any such determination must be clearly set forth in the individualized educational program of the pupil.

5. Unless the needs or performance of the pupil preclude such participation, a pupil with a disability must be allowed to participate with pupils who are not disabled at mealtime, recess, or any other nonacademic or extracurricular activity occurring at school ~~for~~ *to* the maximum extent appropriate and the public agency shall ensure that the pupil receives the supplementary aids and services determined appropriate by the individualized educational program committee for the pupil to participate in those activities. If a pupil with a disability is excluded from such participation because of the pupil's needs or performance, the basis for the exclusion must be clearly set forth in the individualized educational program of the pupil.

6. The placement of a pupil with a disability must be determined at least annually . ~~By a group of persons, including, without limitation, the parents of the pupil and other persons who are knowledgeable about the pupil, the meaning of the evaluation data and the placement options.~~ *The decision on the placement of a pupil with a disability must be based on the pupil's individualized educational program and must comply with the provisions of this section relating to the least restrictive environment.* A pupil *with a disability* must be placed in the school that the pupil would normally attend if possible, or in the school closest to the pupil's home which is capable of providing the services required by the pupil's individualized educational program.

2. If the public agency determines that a pupil exhibits a pattern of strengths and weaknesses in performance or achievement, or both, relative to the pupil's age, the state-approved grade level standards or intellectual development, the public agency shall determine whether the pupil has a severe discrepancy between achievement and intellectual ability in the areas set forth in paragraph (b) of subsection 1. Except as otherwise provided in this subsection, if the public

agency considers the existence of a discrepancy between achievement and intellectual ability, the discrepancy must be determined through the use of a statistically valid formula, as prescribed by the Department, which takes into account the age and level of ability of the pupil, the correlation between tests of ability and achievement, and the reliability of each test used. The Department shall prescribe this formula on the basis of consultation with an appropriate representative of each public agency affected. In the case of a pupil under the age of 6 years, a discrepancy may be identified through the use of one or more tests of language concepts or academic readiness skills. If the public agency considers the existence of a severe discrepancy between achievement and intellectual ability, the discrepancy between achievement and intellectual ability must be corroborated by classroom-based assessment. If the public agency considers the continuing existence of a severe discrepancy between achievement and intellectual ability in a reevaluation of the pupil, the determination of a severe discrepancy may be made based upon information other than the statistically valid formula prescribed by the Department pursuant to this subsection.

3. If the public agency determines that a pupil has not made sufficient progress to meet the age appropriate standards or the state-approved grade level standards in one or more of the areas set forth in paragraph (b) of subsection 1 when using a process based on the pupil's response to scientific, research-based intervention, the public agency shall document:

(a) The instructional strategies used and the pupil-centered data collected; and

(d) A parent of the pupil; and

(e) ~~One~~ *If not otherwise a member of the team, one* or more persons qualified, because of personal knowledge of the pupil, to interpret information relating to the pupil's health, family, and social and emotional condition. This person may be, without limitation, ~~an~~ *a school* administrator, *school* nurse, school counselor, school psychologist or any other certificated or licensed professional.

5. The conclusions of the eligibility team concerning the eligibility of the pupil must be based upon an evaluation of the pupil. The evaluation must include:

(a) An assessment of:

(1) The cognitive abilities of the pupil, if the public agency determines the existence of a severe discrepancy between achievement and intellectual ability;

(2) The social and emotional condition of the pupil;

↪ If a child is less than school age or out of school, an eligibility team member shall observe the pupil in an environment appropriate for a pupil of that age.

7. To ensure that the underachievement of a pupil who is suspected of having a specific learning disability is not due to lack of appropriate instruction in reading or math, the eligibility team shall consider as part of the evaluation:

(a) Data that demonstrates that before, or as part of, the referral process, the pupil was provided appropriate instruction in regular educational settings, delivered by qualified personnel; and

(b) Data-based documentation of repeated assessments of achievement at reasonable intervals that reflects formal assessments of the progress of the pupil during instruction. The documentation must be provided to the parents of the pupil.

8. The eligibility team shall document the determination of eligibility of the pupil which must include:

(a) A statement as to whether the pupil has a specific learning disability;

(b) The basis for making that determination, including an assurance that the determination has been made in accordance with NAC 388.340;

(i) If the pupil has participated in a process that assesses the response of the pupil to scientific, research-based intervention:

(1) The instructional strategies used and the pupil-centered data that was collected; and

(2) Documentation that the parents of the pupil were notified about:

(I) The policies of the Department regarding the amount and nature of the data relating to the performance of a pupil that will be collected and the general educational services that will be provided;

(II) Strategies to increase the rate of learning of the pupil; and

(III) The right of the parents to request an evaluation to determine whether the pupil is eligible for special education and related services; and

(j) A certification by each member of the team that the report reflects the member's conclusions or, if the report does not reflect the conclusions of a member, a minority report of the conclusions of that member.

9. If the public agency considers the continuing existence of a severe discrepancy between predicted and actual achievement in a reevaluation of the pupil, the determination of a severe discrepancy may be made based upon information other than the statistically valid formula prescribed by the Department pursuant to subsection 2.
